GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 1714Edn.—The 30th December 1916.—In the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of a certain number of scholarships, tenable by natives of India, in Europe or America. The purpose of these scholarships was to provide for natives of India that higher technical education which might qualify them to assist in promoting existing native industries and developing new industries wherever this might be possible. Technical education for this purpose was defined as (*a*) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (*b*) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, civil engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships and agriculture was excluded from the scope of the scheme.

2. The Government of India have decided to award, during the year 1917, one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development.

3. It may, however, happen that, owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

4. As regards the year 1917, it has been decided, after consultation with representatives of the mercantile and industrial communities, that one candidate will, if possible, be recommended for a scholarship in connection with either Railway carriage and wagon Building or Pottery manufacture. If a second scholarship is allotted to Bengal, a second candidate may be recommended in one or the other subject. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow :—

(*a*) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent.

(*b*) Government will also be guided by consideration of the capacity and intelligence of applicants, and of the practical interest shown by them in the industry selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing.

(*c*) As a general rule a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(*d*) No age-limit is fixed for scholars, but an age-limit may, at the discretion of Government, be fixed for any particular scholarship for which they invite applications.

(*e*) No scholar shall be selected without passing a searching examination as to physical fitness to undertake the manual work which will be an essential part of his career.

(*f*) Before a scholar leaves India to take up his scholarship his parent or guardian should be required to show that he had sent to the Secretary for Indian students in London a sum of £15 for initial expenses.

6. The following are the conditions and terms on which the scholarships are tenable :—

(*a*) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions where the scholars will study, and travelling expenses; but in special cases Government will consider proposals for increasing the amount of the scholarships.

(*b*) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(*c*) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(*d*) The scholarships are tenable by persons who are natives of India within the meaning of section 6, Statutes 33 and 34 Vic., Cap. 3.

(*e*) The scholars, while in England or elsewhere, will be under the supervision and control of the Educational Adviser of Indian students in London. The conditions under which they will hold the scholarships are given in the "Rules for Indian Government Technical Scholars in England," a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholars' residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The special attention of candidates is invited to the fact that scholars must depend upon their own exertions when they return to India, and that the Government cannot, and does not, undertake to provide them with employment.

9. All applications for scholarships to be awarded during the year 1917 must reach the Director of Public Instruction on or before the 15th February 1917.

10. Applicants for scholarships much state their birthplace, age and father's name and occupation and file certificates as to (1) moral character and antecedents, (2) educational qualifications, (3) knowledge of the language of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to proceed and the course of studies which they propose to take up while in receipt of scholarship. They should also state whether they have had any actual experience of the industry for which the scholarship is offered.

RULES FOR GOVERNMENT OF INDIA (TECHNICAL) SCHOLARS IN THE UNITED KINGDOM.

1. All Government scholars are required to avail themselves of the information and advice which the Secretary for Indian Students and the Local Advisers at University centres are in a position to give them, and to

apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian Students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Cromwell Road, S.W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London, and consulting with him in regard to his course of study he should also call on the Secretary for Indian Students at the India Office.

3. Every scholar must obey all instructions which he may receive, either through the Secretary for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work. No course of study will be sanctioned which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must from time to time, whenever the Local Adviser requires it, submit a certificate from the proper College or University Authority, or from any other Authority under whom he is working, showing that his conduct and progress have been satisfactory.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser, and to be forwarded through the Local Adviser at the end of each academic year to the Secretary of State for transmission to India.

7. Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year. Vacation study should, as far as possible, take form of practical work.

8. Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the Local Adviser six weeks before the end of any academic term. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser will disburse it to the scholar in such instalments as convenience may indicate. Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will, except in special cases, be at the rate of 150*l.* a year.

10. Every scholar is required to lodge with the Secretary for Indian Students at the India Office, London, before his arrival in England, the sum of 15*l.* for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

11. Charges for University and College fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class, if no second be available, will, if sanctioned, be defrayed by the Secretary of State. Applications for payment of all these charges should be made through the Local Adviser. But charges for private tuition, unless specially

*Note.—The official Quarter Days are the 1st of January, the 1st of April, the 1st of July and the 1st of October.

sanctioned, for books, instruments, hotel bills and medical attendance, must be paid by the scholar himself.

12. No claim can be admitted for the payment of any expenditure unless the scholar has obtained *previous* sanction from the Secretary of State.

13. The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the Rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

14. On the expiration of the scholarship a scholar is provided by the India Office with a free second-class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when he instructed to do so, the scholar will lose his claim to a free passage back to India.

3. Government reserves to itself the right to alter the quantity of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,500 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole

quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests, excepting the last lot at each sale which will consist of three chests at the sales of January to November and two chests at the sale of December.

(v) A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 2,800 per chest, Rs. 600 per chest.

On bids of Rs. 2,800 and upwards, but less than Rs. 3,200 per chest, Rs. 700 per chest.

On bids of Rs. 3,200 and upwards, but less than Rs. 3,600 per chest, Rs. 800 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(vii) The promissary notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 2,500 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether ten lots, provided always that there remain a sufficient number of lots of the opium to complete the said ten.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1.—Certificate of the opium advertised for sale.

No. 2.—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council,

J. DONALD,
Secretary.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD P. O., MANBHUM.

Indian Mines Act, 1901.

AN examination for first and second class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held at the Railway Institute, Dhanbad, on the 21st, 22nd and 23rd February 1917.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year, respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India (Department of Commerce and Industry) Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application and fee is received on or before the 21st January 1917.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

Delhi, the 22nd December 1916.

MEDICAL DEPARTMENT.

No. 1551.—The following Orper by His Majesty in Council extending the Geneva Convention Act, 1911, to India, with certain adaptations, is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE.

The 24th day of October 1916.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY.

LORD PRESIDENT — MR. SECRETARY BONAR LAW
LORD CHAMBERLAIN — SIR JOSEPH G. WARD
LORD CARNOCK — MR. W. F. MASSEY
LORD JUSTICE SCRUTTON.

WHEREAS by the Geneva Convention Act. 1911, it is enacted that, from the commencement of the said Act, it shall not be lawful for any person to use for the purposes of his trade or business, or for any other purpose whatsoever, without the authority of the Army Council, the heraldic emblem of the Red Cross on a white ground, formed by reversing the Federal Colours of Switzerland, or the words "Red Cross" or "Geneva Cross," and that if any person acts in contravention of this provision he shall be guilty of an offence against the said Act, and shall be liable on summary conviction to a fine not exceeding ten pounds, and to forfeit any goods upon or in connection with which the emblem or words were used :

AND WHEREAS it is also enacted that proceedings under the said Act shall not in England or Ireland be instituted without the consent of the Attorney-General :

AND WHEREAS it is also enacted that the said Act shall extend to His Majesty's Possessions outside the United Kingdom, subject to such necessary adaptations as may be made by Order in Council :

AND WHEREAS it is expedient that certain adaptations should be made in the said Act with regard to its application to British India :

NOW, THEREFORE, by virtue and in exercise of the powers in this behalf by the said Act, or otherwise, vested in His Majesty, it is hereby ordered by His Majesty, by and with the advice of the Privy Council, as follows :—

(1) This Order in Council may be cited for all purposes as "The Geneva Convention Act, 1911 (British India), Order in Council, 1916,"

(2) The Geneva Convention Act, 1911, in its application to British India shall be adapted as follows :—

(*i*) The powers by the said Act vested in the Army Council shall be vested in the Secretary to the Government of India.

(*ii*) Proceedings under the said Act shall not instituted without the consent of the Local Government.

(3) This Order shall come into force on a date to be fixed by the Governor-General of India.

ALMERIC FITZROY.

No. 1552.—In pursuance of paragraph 3 of the Geneva Convention Act, 1911 (British India), Order in Council, 1916, the Governor-General is pleased to fix the 22nd of December 1916 as the date on which the said Order in Council shall come into force.

A. H. BINGLEY, *Major-General,*
Secy. to the Govt. of India.

The following notification, issued by the Government of India in the Legislative Department, published in the *Gazette of India Extraordinary* dated the 27th December 1916, is republished for general information.

J. H. KERR,

Chief Secy. to the Govt. of Bengal

An Ordinance to provide power for enforcing the attendance of witnesses at inquiries held into any matters relating to, or connected with, elections to the Indian Legislative Council and for other purposes in connection with such inquiries.

WHEREAS an emergency has arisen which renders it necessary to provide power for enforcing the attendance of witnesses at inquiries held into any matters relating to, or connected with, elections to the Indian Legislative Council and for other purposes in connection with such inquiries;

Now, therefore, in exercise of the power conferred by section 72 of the
5 & 6 Geo. V, c. 61 Government of India Act, 1915, the Governor General is pleased to make and promulgate the following Ordinance:—

ORDINANCE No. VIII OF 1916.

1. This Ordinance may be called the Indian Legislative Council (Elections Inquiries) Ordinance, 1916.
Short title.

2. (*1*) Where, in the opinion of the Governor General in Council, it is desirable that an inquiry should be held into any matter relating to, or connected with, any election to the Indian Legislative Council, the Governor General in Council may, by order in writing, appoint any person he may specify in the order to be a Commissioner for the purpose of holding such inquiry.
Power to direct inquiry and enforce the giving of evidence on oath, &c.

(*2*) A Commissioner appointed under sub-section (*1*) shall have the same
V of 1908 powers as are vested in a Court under the Code of Civil Procedure, 1908, when trying a suit in respect of the following matters:—

(*a*) enforcing the attendance of witnesses and examining them on oath or affirmation;

(*b*) compelling the production of documents; and

(*c*) issuing commissions for the examination of witnesses;

and shall be deemed to be a Civil Court within the meaning of sections 480
V of 1898 and 482 of the Code of Criminal Procedure, 1898.

The expression "witnesses" in this sub-section shall include parties or persons in the position of parties to such inquiry.

(*3*) A Commissioner may authorise the representation before him of any person appearing to him to be sufficiently interested in such inquiry, by counsel or pleader or otherwise as he may direct.

3. A person examined as a witness by a Commissioner holding an inquiry under section 2 shall not be excused from answering any question put to him, upon the ground that the answer thereto will criminate or may tend directly or indirectly to criminate him, or tend directly or indirectly to expose him to a penalty or forfeiture of any kind:
Witness not excused from answering from fact that answer will criminate.

Provided that no such answer which a witness shall be compelled to give shall subject him to any arrest or prosecution, or be proved against him in any criminal proceeding, except a prosecution for giving false evidence by such answer.

No. 12899-C. W.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION

MAKING CERTAIN ADDITIONS TO AND AMENDMENTS IN THE LIST OF ARTICLES TO BE TREATED AS CONTRABAND OF WAR.

GEORGE R. I.

Whereas, on the 14th day of October, 1915, We did issue Our Royal Proclamation specifying the articles which it was Our intention to treat as contraband during the continuance of hostilities, or until We did give further public notice; and

Whereas, on the 27th day of January, 1916, the 12th day of April, 1916, the 27th day of June, 1916, and the 3rd day of October, 1916, We did, by Our Royal Proclamations of those dates, make certain additions to and modifications in the said list of articles to be treated as contraband; and

Whereas it is expedient to make certain further additions to the said list:

NOW, THEREFORE, We do hereby declare, by and with the advice of Our Privy Council, that during the continuance of the war or until We do give further public notice, the following articles will be treated as absolute contraband, in addition to those set out in Our Royal Proclamations aforementioned :—

Diamonds suitable for industrial purposes.
Silk in all forms and the manufactures thereof; silk cocoons.
Artificial silk and the manufactures thereof.
Quillaia bark.
Zirconium, cerium, thorium, and all alloys and compounds thereof.
Zirconia and monazite sand.

And We do hereby further declare that, as from this date, the following amendments shall be made in Schedule 1 of Our Royal Proclamation of the 14th day of October, 1915, aforementioned :—

For item 4, "emery, corundum, natural and artificial (alundum), and carborundum in all forms," there shall be substituted "emery, corundum, carborundum, and all other abrasive materials whether natural or artificial, and the manufactures thereof."

And We do hereby further declare that, as from this date, the following amendments shall be made in Our Royal Proclamation of the 12th day of April, 1916, aforementioned :—

For "gold, silver, paper money, and all negotiable instruments and realisable securities," there shall be substituted "gold, silver, paper money, securities, negotiable instruments, cheques, drafts, orders, warrants, coupons, letters of credit delegation or advice, credit and debit notes, or other documents, which in themselves, or if completed, or if acted upon by the recipient, authorise, confirm, or give effect to the transfer of money, credit, or securities."

And We do hereby further declare that the following articles shall, as from this date, be treated as conditional contraband in addition to those set out in Our Royal Proclamations aforementioned :—

Sponges, raw and prepared.
Glue, gelatine, and substances used in the manufacture thereof.
Empty barrels and casks of all kinds and their component parts.

Given at Our Court at Buckingham Palace, this twenty-third day of November, in the year of our Lord One thousand nine hundred and sixteen, and in the Seventh year of Our Reign.

GOD SAVE THE KING.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

The 15th December 1916.

IN supersession of this office notification dated 15th September 1916, the Post Graduate Scholarship of the value of Rs. 30 a month, reserved for Muhammadans and backward classes of Eastern Bengal, is awarded, on usual conditions of good conduct and satisfactory progress, to Muhammad Somed Ali who passed the last B. A. Examination with second class Honours in Economics from the Dacca College with immediate effect.

The scholarship is tenable till 31st May 1918 in the Dacca College.

W. W. HORNELL,
Director of Public Instruction, Bengal.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

The 9th December 1916.

JOGESH CHANDRA BISWAS, B.A., is awarded a Post Graduate Scholarship reserved for the Hooghly College of the value of Rs. 30 a month, for two years with effect from the 1st June 1916, on the usual conditions of good conduct and satisfactory progress.

The scholarship is tenable in the Calcutta University.

W. W. HORNELL,
Director of Public Instruction, Bengal.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £200 per annum tenable in the United Kingdom or, with special sanction, in foreign countries by Indian Girls or Women, 1917.

THE scholarship will be granted for medical, and occasionally for other educational or professional, courses and will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with a possibility of extension to five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates from Bengal are requested to make application to the Assistant Director of Public Instruction, Writers' Buildings, Calcutta, not later than 31st January 1917. The application should be accompanied by (1) evidence of having obtained a degree of an Indian University in medicine or educational or professional courses; (2) a medical certificate of fitness to undergo, abroad, the course of study proposed; (3) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of Bengal or domiciled in Bengal and of purely Indian parentage;-(4) full details including the name and occupation of the candidate's father and place of birth, a summary of her academical career in India, and a statement of the course of study proposed to be followed; (5) full address of the candidate.

3. The State scholar is required to proceed to England within a reasonable time from the date of her selection, so as to arrive there not later than the middle of September, and to reside there for the period of her scholarship, unless compelled to return sooner in consequence of ill health. The scholarship will be payable from the date on which the scholar reports her arrival in England. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. Charges for University and college fees, for private tuition, for books, instruments, hotel bills, medical attendance and travelling (except the two journeys between England and India) are not defrayed by the Secretary of State.

5. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

W. W. HORNELL,
Director of Public Instruction, Bengal.

NOTIFICATION.

Two State Sanskrit Scholarships of £200 or £250 per annum for Indians, 1917.

THE scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of western scholarship in Sanskrit of the value of £250 a year when they are tenable at colleges in Oxford or Cambridge or of £200 when they are tenable elsewhere.

The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

The scholarships are open to well-qualified students with a genuine taste for Sanskrit studies and to those already employed as Professors of Sanskrit.

Intending candidates who are native of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1917, with a medical certificate of fitness to undergo a course of study abroad.

Selected scholars are required to lodge with the Secretary for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second class passage to England and also with a second class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

For further particulars pages 1143 to 1155 of the *Calcutta Gazette* dated the 21st June 1916 may be consulted.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

CHINA SEA—TIENTSIN DISTRICT—GULF OF PECHILI.

Winter Navigation of Taku Bar and of the Haiho; system of supplying information concerning ice in the Gulf of Pechili.

No. 378 (third publication).—The following is a re-publication of Notice to Mariners No. 631 of 1916, issued by the Coast Inspector, Shanghai.

Notice is hereby given of the following arrangements for the winter navigation of the Taku Bar and the Haiho.

General.

After the removal of the *Taku* Light-vessel, on or about the 1st December, her place will be taken by an ice-breaker to the following extent and showing lights as described hereunder.

At the commencement of the winter season, *i.e.*, immediately after the removal of the *Taku* Light-vessel, an ice-breaker will continuously act as light-vessel so long as ice-breaking operations are not needed.

When such operations are needed, the continuous occupancy of the light-vessel's position by the ice-breaker will cease. She will, however, when possible, act as light-vessel for a few hours before the expected arrival of a steamer.

Subsequently, she will not again act continuously as a light-vessel unless it be so notified.

Ice Conditions.

When ice exists, information concerning conditions will be telegraphed to Chefoo and Dairen. Vessels bound for Taku should call at one of these ports for it.

A vessel arriving off Taku, whose agent has given the necessary notice as laid down herein, will, if conditions permit, find an ice-breaker in the position of the light-vessel. The ice-master will inform the master of conditions. If the master decides to proceed, a pilot will, if desired, be placed on board from the ice-breaker. At a suitable time the ice-breaker will, if necessary, lead the way in, and, in doing so, will make such instructive signals concerning the steamer's action as the ice-master considers desirable.

It should be understood that, when the ice-master makes such a signal, the master of a following steamer is free to use his discretion as to obeying that signal so far as considerations concerning the safety of his own vessel are concerned. It would, however, be well for him to consider what would be the effect of disregarding the signal if that disregard affected the safety of a third vessel.

It should be clearly understood that the Harbour Authority, under whose authority the ice-breakers operate, incur no responsibility in respect to accidents which may happen in the process of following an ice-breaker. A vessel accepting the services of an ice-breaker in the above conditions does so at her own risk.

Particulars.

Ice-breaking Signals.

An ice-breaker leading the way and steamers following shall make use of the following signals :—

One short blast	meaning	I am altering my course to starboard.
Two short blasts	„	„ „ „ „ port.
Three short blasts	„	My engines are going astern.
One long blast	„	(*a*) Can I pass ahead of you ? (*b*) (From an ice-breaker ahead) You are requested to pass ahead of me.
Three long blasts	„	Come on.
Five long blasts	„	Keep back.

A vessel requiring the assistance of an ice-breaker should make the following signals :—

By day.—A pennant with two balls beneath it ; also a succession of one long and three short blasts on the whistle or siren.

By night.—Three lights in a vertical line one over the other not less than 6 feet apart, of which the highest and lowest are *white* and the middle one *red* ; also a succession of one long and three short blasts on the whistle or siren.

Pilots and masters should make a special point not to call upon an ice-breaker to perform any work in connexion with vessels under their charge except such as is actually needed. The ice-breakers will otherwise be unduly hampered in the carrying out of their general routine work.

Ice-breaker acting as Light-vessel.

When acting as a light-vessel the ice-breaker will show—

By day.—A black ball at her masthead.

By night.—Five minutes of flashing with her searchlight every 15 minutes.

During foggy or thick weather a gong will be sounded at intervals of one minute when the fog signal of a vessel in the neighbourhood, showing that she is under way, is heard.

Pilots.

Masters are warned against the danger of taking their vessels over the Taku Bar during the winter season without a pilot.

Inward-bound vessels may obtain a pilot from the ice-breaker acting as a light-vessel.

Notice by Agents.

Steamer agents at Tientsin should give the earliest notice possible to the Harbour Office concerning the following :—

(*a*) Date and time of steamer's departure from Chefoo or Dairen.
(*b*) Time of steamer's expected arrival off Taku

Ice Information.

Ice telegrams, giving information of the ice conditions at Taku, Chinwangtao, and—as far as can be ascertained—in the Gulf, will be sent daily from Taku and Chinwangtao and will be posted at the Harbour Offices at Chefoo, Taku, and Tientsin. They will also be sent to Dairen.

Masters of steamers are requested to co-operate in this matter by reporting the ice conditions met with to the Harbour Masters at Tientsin, Chinwangtao, and Chefoo immediately on arriving at one of these ports. Such reports will be posted.

To facilitate the making of these reports a special book of forms will be supplied on application to any of the Harbour Offices mentioned.

Masters of steamers are further requested to co-operate by making it a routine practice to signal to passing steamers the ice conditions experienced. The following special signals should be used for the purpose :—

Ice Signals.

The nature of the numbered signals is given in Part III.

Part I.—Signals concerning Taku and the Gulf.

Signal No. 1.	No ice.		At Taku Bar.
„ „ 2.	Ice conditions	favourable.	
„ „ 3.	„	difficult.	
„ „ 4.	„	very difficult.	
„ „ 5.	„	impracticable.	
Signal No. 6.	No ice.		In the Gulf.
„ „ 7.	Ice conditions	favourable.	
„ „ 8.	„	difficult.	
„ „ 9.	„	very difficult.	
„ „ 10.	„	impracticable.	

Part II.—Signals concerning Chinwangtao.

The following signals are to be made in conjunction with a square flag or a *red* light at one of the masthead :—

Dated Calcutta, the 2nd January 1917.

RESOLUTION.

READ—

The Annual Irrigation Revenue Report for the year 1915-16.

THE **Major Irrigation Works** in Bengal are the Midnapore and Hijili Tidal Canals. These works are in operation. The **Minor Works** for navigation are the Calcutta and Eastern Canals, the Madaripur Bhil Channel, a portion of the Orissa Coast Canal, the Nadia Rivers, and the Gaighatta and Baxi Khal. The only irrigation work of this class is the Eden Canal. The Utterbhâg Lock which has been constructed in connection with the Magra

Hât Drainage Scheme is treated as a Minor Work for Navigation. Training works on the rivers Ganges, Bhagirathi, Dhaleswari and Buriganga are also classed under this head.

2. The capital outlay on the **Major Works** up to the end of March 1916 amounted to Rs. 1,11,08,615. The works constructed for this outlay comprise two weirs, at Midnapore and Panchkura, and 98·75 miles of main and branch canals, of which 69·75 miles provide for both irrigation and navigation, and 29 miles for navigation only; there are, in addition, 254½ miles of distributaries. The Terapakia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali Lock entrance, of which the aggregate length is 20¾ miles, are also maintained for navigation and included as part of the Hijili Tidal Canal. During the year under review no addition was made to the length of the canals or distributaries.

3. The total receipts from the Major Works amounted to Rs. 2,77,798 and the working expenses to Rs. 2,06,599, the net result being a profit of Rs. 71,199 against a deficit of Rs. 13,222 in the preceding year. This better result was due to a decrease in working expenses of the Hijili Tidal Canal, in which no extensive silt clearance was necessary during the year. The general revenues of these canals, which depend considerably upon receipts from navigation, have suffered of late years from railway competition.

4. The area irrigated during the year was 83,649 acres as compared with 78,310 acres in 1914-15, and an average of 79,816 acres for the triennium ending March 1915.

5. The capital outlay on canals classed as **Minor Works and Navigation** was Rs. 3,29,179 during the year and Rs. 1,28,42,021 to the end of the year. The receipts for the year amounted to Rs. 5,79,291, and the working expenses to Rs. 9,51,196. The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

6. The **Calcutta and Eastern Canals** form a series of navigable channels, mostly natural but partly artificial, by which communication is maintained between Calcutta and Eastern Bengal. The receipts from navigation tolls amounted to Rs. 3,03,189 as compared with Rs. 3,00,611 in the preceding year. The capital outlay incurred during the year was expended principally on the improvement of the Gabkhan-Bharani Khal from Chowkighatta to Jhalakati and on the extension of suction head of the dredger "Foyers."

7. The capital expenditure during the year on the **Madaripur Bhil Channel** which connects the Madhumati and Kumar rivers in the district of Faridpur was incurred on (1) dredging the Lower Kumar river, and (2) constructing an embankment with sluices along the south bank of

the channel. Both these works are expected to be completed by 31st March 1918. The total capital outlay (direct charges) to the end of the year amounted to Rs. 36,39,325 against the sanctioned estimate of Rs. 34,32,491. The receipts and working expenses (direct and indirect) during the year were, respectively, Rs. 1,87,701 and Rs. 1,24,110 as against Rs. 67,381 and Rs. 2,24,698 in the year 1914-15. The increase in receipts is due to the fact that the western entrance of the canal at Manikdah did not silt up as in former years, and the Bhil route was consequently open for through navigation for a longer period; when the improvements now in hand are completed it is expected that the receipts will increase to a much higher figure.

8. The **Orissa Coast Canal,** in conjunction with the Hijili Tidal Canal, affords communication between Bengal and Orissa, and previous to the opening of the Bengal-Nagpur Railway, was the only inland route by which supplies of food could be thrown into Orissa in time of famine. This canal, which is intended for navigation only, now lies partly (*i.e.*, for a length of 45 miles) in this Presidency, and partly in the province of Bihar and Orissa. The receipts and working expenses (direct and indirect) for the portion within Bengal were, respectively, Rs. 11,106 and Rs. 16,533, as against Rs. 9,700 and Rs. 13,286 in the year 1914-15.

9. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The former object is only partially attained, but the work done is of use, however, in the interests of sanitation. The report on the Nadia rivers by Major F. C. Hirst, I.A., Director of Surveys, referred to in the last year's Resolution, is now before Government. It has been decided to proceed with the second stage of the enquiry, and with this object in view a committee of practical men will be appointed to advise Government upon the steps which should be taken to carry out systematic observations of the changes in these rivers and also, if possible, to improve their condition as navigable channels and as feeders for the Lower Hooghly. The receipts and working expenses of the Nadia Rivers were Rs. 16,316 and Rs. 1,14,483, respectively, as against Rs. 16,371 and Rs. 1,05,515 in the preceding year. With the growth of railway lines on either bank of the Bhagirathi it is not likely that the revenue from these rivers will materially improve, even if the channels be kept open for through traffic throughout the year.

10. The **Gaihatta and Baxi Khal,** a short channel connecting the rivers Damodar and Rupnarain, was maintained during the year at an annual cost of Rs. 384 against Rs. 311 of the previous year. The collection of tolls and fishing rights has been leased out for three years from 1913-14 at Rs. 4,025 per annum.

11. The **Eden Canal** was originally constructed for sanitary reasons, but it is now used to some extent for irrigation. It was worked during the year at a loss of Rs. 35,673 against a similar loss of Rs. 48,476 in the preceding year. It is expected that when the new supply channel and connected works which are nearly completed are in full working order, the canal will show better financial results. The proposed Damodar Canal project, if sanctioned, will also augment the supply of water in the Eden Canal.

12. The **Utterbhag Lock,** which has been constructed on the Peali river to give access to the channels of the Magra Hât Drainage Scheme to boats coming from the Sundarbans and eastern rivers, was in operation during the year.

13. (*i*) **Training works** were carried out in the Buriganga and Dhaleswari rivers by bandalling operations only to facilitate navigation and to improve the water-supply of the town of Dacca.

(*ii*) Training works were also carried out through the agency of the India General Navigation and Railway Company, Limited, on the river Ganges between Rajmahal and Goalundo.

(*iii*) To improve navigation as well as the sanitary conditions and water-supply of the town of Rampur Boalia training works were carried out on the inner channel of the river Ganges in front of the town.

(*iv*) At the mouth of the Bhagirathi river, at its off-take from the Ganges, dredging and bandalling operations were carried out during the year to improve sanitary conditions by an increased flow in the river. The operations, however, were not particularly successful owing to adverse circumstances.

(*v*) Training works were also carried out as an experiment on the Karnafuli river between Kodala and Chandraghona, a distance of about 3½ miles.

14. The Irrigation Department during the year was in charge of Mr. F. A. A. Cowley. The thanks of Government are due to him and to Mr. C. Addams-Williams, C.I.E., Superintending Engineer, South-Western Circle, for the efficient conduct of the affairs of the department during the year. The good work of other officers has also been noted by Government.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette* and that a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all departments and officers of this Government as usual.

By order of the Governor in Council,

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 1st January 1917.

Summary.—There was no rain during the week under review. Harvesting of winter paddy is approaching completion and that of sugarcane and pulses continues. Transplanting of summer rice has commenced. Lands are being prepared for autumn crops in the Eastern Bengal districts. The prospects of spring crops are generally favourable. Cattle disease is reported from three districts only. The average price of common rice for the province has fallen about by 2·5 per cent. as compared with that of the previous week.

RESIGNATION.

LEGISLATIVE.—*No. 256A.—The 9th January 1917.*—His Excellency the **Council.** Governor is pleased to accept the resignation by the Hon'ble Mr. Edward Hugh Bray of his office of Additional Member of the Legislative Council of the Governor of Fort William in Bengal.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 180A.—The 9th January 1917.—Whereas Raja Manmatha Nath Roy Chaudhuri, a duly nominated candidate for election as an Additional Member of the Bengal Legislative Council by the Landholders of the Dacca Division, has addressed to Government, a memorial dated the 22nd June 1916, disputing the validity of the election by the said electorate of the Hon'ble Babu Brajendra Kishor Ray Chaudhuri as an Additional Member of the Bengal Legislative Council, and praying that the memorialist may be declared instead as duly elected as an Additional Member or that the said electorate may be called upon to elect some person other than the said Hon'ble Babu Brajendra Kishor Ray Chaudhuri as an Additional Member;

And whereas it appears, after due inquiry, that no sufficient grounds for questioning the validity of the said election have been disclosed;

Now, therefore, the Governor in Council declares, in pursuance of Regulation XVI (*2*) of the Regulations for the nomination and election of Additional Members of the said Council, that the Hon'ble Babu Brajendra Kishor Ray Chaudhuri was duly elected by the said electorate.

By order of the Governor in Council,

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 259A.—The 9th January 1917.—With reference to notification No. 256A., dated the 9th January 1917, and in pursuance of Regulation XI of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor of Fort William in Bengal, the Governor is pleased to call upon the Bengal Chamber of Commerce to elect, in accordance with Schedule VII to the said Regulations, and before the first day of February 1917, a person to fill the vacancy caused by the resignation of the Hon'ble Mr. Edward Hugh Bray.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 260A.—The 9th January 1917.—Whereas in pursuance of Regulation XI of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor of Fort William in Bengal, the Governor has been pleased by Notification No. 259A, dated the 9th January 1917, to call upon the Bengal Chamber of Commerce to elect, in accordance with the said Regulations and before the first day of February 1917, a person for the purpose of filling the vacancy caused by the resignation of the Hon'ble Mr. Edward Hugh Bray;

Now, therefore, the Governor in Council is pleased to make the following orders under Schedule VII to the said Regulations, in modification of the orders issued [under rules 3 (*2*), 5 (*2*), 6 and 8 (*1*) of that Schedule] in Notification No. 2184A., dated the 18th March 1916, published in the *Calcutta Gazette* of the 22nd *idem* :—

Orders under Schedule VII.

(1) *Rule 3(2).*—The nomination letters of candidates shall be sent to the Returning Officer on or before the 15th January 1917.

(2) *Rule 5(2).*—The Returning Officer shall send lists of candidates and voting papers to the electors on or before the 20th January 1917.

(3) *Rule 6.*—Electors shall send their voting papers, after recording their votes, to the Returning Officer on or before the 26th January 1917.

(4) *Rule 8(1).*—The Returning Officer shall attend at his office at 3 P.M., on the 30th January 1917, for the purpose of counting votes.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.

APPORTIONMENT ORDER.

No. 114L.R.—The 3rd January 1917.—Under section 114 of the Bengal Tenancy Act (Act VIII of 1885), the Governor in Council has determined that in those areas of the districts of Rangpur, Pabna and Bogra in which a record-of-rights has been prepared in virtue of Notification No. 2600R., dated 12th November 1910, by the Settlement Officer of Mymensingh, the landlords' and tenants' share of the cost of the survey and record-of-rights, including the estimated cost of maintaining boundary marks for a period of fifteen years, shall be apportioned and recovered as specified below :—

Rangpur, Pabna and Bogra.

Proprietors and tenure-holders.

1. Proprietors of revenue-paying and revenue-free estates and tenure-holders of all grades will pay at the rate of 5 annas 3 pies in the rupee upon their profits.

Raiyats.

2. All raiyats will pay at the rate of 5 annas for each acre or part of an acre in their holdings.

Under-raiyats.

3. All under-raiyats will pay at the rate of 2½ annas for each acre or part of an acre in their holdings.

Profits.

4. By "Profits" in rule 1 is meant the mufassal jama less the sadar jama, and in estimating profits land which is not sublet, other than land used for a public purpose, will be valued at its fair letting value, and rent paid in produce will be valued at its fair market price. The Settlement Officer will determine the fair letting value and the fair market price in each village.

Minimum charges.

5. (*a*) There will be a minimum charge of 4 annas, and broken parts of an anna will always be charged as a full anna.

(*b*) In demands of over Rs. 5, broken parts of a rupee will always be charged as a full rupee.

Reduction.

6. Discretion is allowed to the Settlement Officer to reduce the rate per acre in rules 2 and 3 in tracts or villages of inferior fertility.

Exemption.

7. In areas in which a settlement of land revenue is being or is about to be made, no charge will be made against either landlords or tenants.

L. BIRLEY,
Secy. to the Govt. of Bengal.

NOTIFICATIONS.

3. *Salvage fees.*—Any such person who shall have salved timber or bamboos under these rules, and taken the same to any drift timber depôt, shall be entitled to receive as Salvage fees—

(*a*) from the owner, through Government, 15 and 25 *per cent.* respectively, of the value as adjudged by the Forest-officer in the case of boats and other timber and bamboos, the ownership of which is proved and admitted under section 47 of the Indian Forest Act, 1878.

(*b*) from Government, in the case of boats and other timber and bamboos that become vested in Government under section 48 of the said Act, 15 and 25 *per cent.* respectively, of the net balance of the auction sale account after deducting therefrom all expenses of transport and other charges; such salvage fees to be paid after the sale has been effected.

4. *Payments required when drift timber is shown to be the property of a claimant.*—No such timber or bamboos shall be delivered to any claimant who is, under section 47 of the Indian Forest Act, found to be the owner, until he shall have paid, under section 50 of the said Act, to the Forest-officer the amount adjudged to be due to the salver under rule 3, together with such other expenses as may have been incurred in salving the said timber or bamboos. Should the said owner fail to make these payments within ten days of his receiving intimation from the Forest-officer of the amount due, the property salved shall be dealt with as unclaimed timber, as provided in section 48 of the Act.

5. *Salved timber which may become vested in Government to be sold by auction.*—All drift timber or bamboos salved under these rules, which may become vested in Government under section 48 of the Indian Forest Act, shall be sold by auction after two months from the expiry of the period fixed for the disposal of claims under section 46 of the said Act.

6. *Property marks.*—All property marks registered under rule VII of the Chittagong River Rules of the 17th October 1881, shall be held to be property marks establishing claim to drift timber salved under these rules.

7. *Penalty clause.*—Any person who infringes any of the provisions contained in these rules shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

III. Notification dated the 3rd July 1884, published at page 776, Part I of the *Calcutta Gazette* of the 16th *idem*, as amended by notification dated the 30th April 1885, published at page 381, Part I of the *Calcutta Gazette* of the 6th May 1885, is hereby cancelled.

No. 2 Marine.—In exercise of the powers conferred by section 36 of the Indian Steam-ships Act, 1884 (VII of 1884), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make the following rules to regulate the granting of certificates of competency to engine-drivers of sea-going steam-ships having engines of under 50 nominal horse-power, in supersession of the rules published under Bengal Government Notification No. 24-Marine, dated the 30th January 1890.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

RULES.

General Rules.

Certificate of competency granted to persons who pass requisite examinations

1. (*1*) Certificates of competency as engine-driver of a sea-going steam-ship will be granted to those persons who pass the examinations to be held by examiners appointed for such purpose and otherwise comply with the requisite conditions.

(*2*) Such examinations shall be held, whenever necessary, at the Port of Calcutta.

How to apply

2. A candidate for examination must apply on the proper form (Form Ex-3*a*) obtainable at the Port Office. The form properly filled in, together with the candidate's certificates of discharge, testimonials, and previous certificates, if any, must be lodged with the Port Officer not later than three days before the examination.

Testimonials as to character.

3. In addition to the usual certificates of discharge, a candidate will be required to produce satisfactory testimonials as to his experience, ability, sobriety and general good conduct up to the period immediately preceding the date of his application.

Testimonials as to service

4. (*1*) Testimonials as to workshop service which must be signed by the employer must testify to the candidate's ability and conduct, and state the nature of work he was engaged on, and the period of such service.

(*2*) Testimonials regarding service at sea must testify to the candidate's sobriety, experience and ability and general good conduct for at least the last twelve months of such service, and must be signed by the Chief Engineer or by the Superintending Engineer, who shall state clearly the periods, if any, during which the applicant was on regular watch and in regular charge of a watch on the main engines and boilers.

Foreign service

5. The testimonials of service of British and foreign seamen serving in foreign vessels, which cannot be verified in the Port Office, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established:

Provided that the mere production of such proofs shall not necessarily be deemed sufficient, each case being decided on its merits, and that, if in any case the sufficiency of the proofs given appear to be doubtful, the point shall be referred to the Government.

Gaps in service

6. The examiners shall be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for before he is allowed to appear for examination.

7. If any doubt exists as to the age of a candidate, he may be required to produce a certificate of his birth or baptism.

Age.

8. The sea-service required by these rules shall be service performed in regular foreign-going or home-trade steamships.

Sea-service.

9. Foreigners must prove to the satisfaction of the examiners that they can speak the English and Hindustani languages sufficiently well to perform the duties required of them on board a British vessel.

Foreigners must know English and Hindustani.

10. A candidate's testimonials and other papers will be returned to him when the examination is finished, and if he passes he will receive a form (Form 16) authorizing the Port Officer to whom it is addressed to issue the certificate.

Return of testimonials, etc.

11. Certificates of competency for engine-drivers of sea-going steamships shall be made and issued by the Government in the form hereunto annexed. Each certificate shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate and the other shall be kept and recorded by the Port Officer of Calcutta.

Issue of certificates.

12. If a candidate fails in his examination, he may not present himself for re-examination until he can produce proof of at least six months' further satisfactory service at sea, if the past examination showed that he might be expected to qualify in that time.

Failure

13. (*1*) A candidate for examination, when making his application on Form Ex-3*a*, will be required to pay the examination fee before any action is taken under these rules.

Fee to be paid

(*2*) If it appears that his service is not sufficient to entitle him to be examined, or that his testimonials are unsatisfactory, he may be allowed to present himself again for examination without paying any further fee, when he has completed the requisite service, or is able to produce satisfactory testimonials, as the case may be.

14. (*1*) Subject to the provisions of rule 13 the fee for each examination under these rules shall be ten rupees, which must be remitted with the application to the Port Officer at the Port Office.

Payment of fee and penalty for offering gratuity.

(*2*) If a candidate offers a gratuity to any servant of the department he shall be regarded as having committed an act of misconduct, and shall be rejected and not allowed to be examined for the next twelve months at any port.

15. If a candidate fails in his examination, no part of the examination fee shall be returned to him.

Fee not to be returned on failure.

Qualifications.

16. (*1*) A candidate for a certificate of competency as engine-driver of a sea-going steam-ship must not be less than twenty-two years of age, and must—

(*a*) have served an apprenticeship of at least four years, if in India, or three years, if in Europe, in the making and repairing of steam-engines, and eighteen months at sea as engineer on regular watch on the main engines and boilers of a foreign-going or home-trade steam-ship having engines of not less than 50 nominal horse power; or

(*b*) have served at sea for at least five years in the engine-room of a foreign-going or home-trade steam-ship of over 50 nominal horse-power, three years of which service must have been as *serang* or principal *tindal* under a certificated engineer; or

(*c*) have served at sea for at least one year as engine-driver on regular watch on the main engines and boilers of a foreign-going or home-trade steam-ship having engines of not less than 30 nominal horse-power, whilst holding a first-class engine-driver's certificate of competency for steam-vessels granted under the Inland Steam Vessels Act, 1884 ; or

(*d*) have served at sea for at least two years as engine-driver on regular watch on the main engines and boilers of a foreign-going or home-trade steam-ship having engines of not less than 30 nominal horse-power, whilst holding a second-class engine-driver's certificate of competency for steam-vessels granted under the Inland Steam Vessels Act, 1884.

(*2*) The candidate must also—

(*e*) satisfactorily pass a *viva voce* examination as to the working of the various types of engines and boilers at sea ; the uses of the different fittings in engine-rooms and stokeholds ; and, in particular, the use of brine cocks, salinometers and blowing-off cocks, and the care of boilers in salt or foul water ;

(*f*) have a fair knowledge of the construction of steering engines, electric light and fan-engines, and the construction and uses of evaporators, feed-heaters and feed-filters ;

(*g*) have a fair knowledge of the effects of forced draft, and be able to explain the art of economical stoking and prevention of smoke ;

(*h*) be able to name the principal parts of oil-engines (internal combustion engines), and understand how such engines work ; and

(*i*) be able, if required, to show his practical qualifications by actually working the engines of a steamer for such period as may be prescribed after fulfilling the other tests to which he may be subjected.

BY HIS EXCELLENCY THE GOVERNOR OF BENGAL IN COUNCIL.

GOVERNMENT OF BENGAL.

PAY AND ALLOWANCES.

No. 3.—The Governor-General in Council is pleased to announce that the Right Honourable the Secretary of State for India has approved—

(1) The grant of free rations to all combatant Indian ranks of the Indian Army except when on furlough or leave.

(2) Increases of pay to combatant Indian officers and non-commissioned officers as follows :—

	Rs.
Subadar-Major and Risaldar-Major	30
Subadar, Risaldar and Ressaidar	20
Jemadar	10
Havildar and Dafadar	2
Naik and Lance Dafadar	1

These increases of pay will have effect from the 1st January 1917.

Pending the completion of arrangements for the supply of rations, a temporary ration allowance of Rs. 2 per mensem will be granted to all combatant ranks in India not on furlough or leave and not in receipt of free rations, from the 1st January 1917 until departmental arrangements can be made to issue rations in kind. This sum will be drawn in addition to the normal compensation for dearness of provisions till rations are issued in kind, when both money allowance and compensation will cease.

Should it be found necessary or advisable at any time or in any particular localities to substitute a money allowance in lieu of rations in kind the Government of India reserve to themselves the right to make such substitution as may be necessary or convenient.

Troops which, in certain localities, were, prior to the issue of these orders, in receipt of free rations or a money allowance in lieu, will continue to receive rations or money allowance as heretofore until the introduction of a universal ration or rate of money allowance in lieu thereof.

Troops in Assam which have hitherto been rationed by Government on payment of Rs. 3-8 a man per mensem will from the 1st January 1917 receive rations free of charge.

PENSIONS.

No. 4.—The Governor General in Council is pleased to announce that, with the approval of the Right Honourable the Secretary of State for India enhanced rates of ordinary retiring and special pensions for Indian combatants as set forth in the following amendments to Army Regulations, India, Volume I. have been introduced, and will apply to all men who were actually serving on the 4th August 1914 as well as all those who enlist after that date :—

Amendments to Army Regulations, India, Volume I.

Paragraph 1044-A is reconstructed as follows :—

The following revised scales of pension came into force for the Indian Army with effect from the 4th August 1914. The provisions of paragraph 1035 are applicable to these rules.

The superior rate of pension is abolished, but Indian officers, non-commissioned officers and men enlisted before the 1st June 1907 are entitled to the option of remaining under the rules applicable before that date. (*Note 6.*)

* No additional pension for any longer service.

Note 1.—On completing 15 years' service, sowars, sepoys, and others ranking as such will be subjected to a strict medical examination and only those whom in the interests of efficiency it is desirable to retain in the service will be permitted to continue to serve. Men who subsequently become unfit may be required to transfer to the pension establishment at any time after completing 15 years' service.

Note 2.—Dafadars and Havildar with 32 years' service who have served as English Schoolmasters or orderly room clerks in Indian regiments, and Havildar-Majors belonging to the native driver establishment of British Mountain Batteries with 3 years' service in that appointment and 24 years' total service may, on retirement, if granted the honorary rank of Jemadar, be awarded a pension of Rs. 15 per mensem.

Note 3.—With effect from the 10th October 1909, salutris of silladar cavalry receive a pension of Rs. 20 per mensem after 32 years' service.

Note 4.—In the case of Risaldar-Majors and Subadar Majors, the rates of pension mentioned are exclusive of the personal allowance of Rs 50 per mensem which may be continued to them after they are pensioned, under the conditions referred to in paragraph 962.

Note 5.—Indian officers on completion of 18 years' service are entitled, on voluntary retirement, to the maximum pension of the next lower rank to that held at the time of retirement, provided the combined service in the two ranks amounts to 3 years.

SPECIAL PENSIONS.

2. Special pensions will be granted to the following individuals of 15 years' service and upwards who are not eligible for "ordinary" pensions and who are ordered to be discharged on the recommendation of a medical board, or otherwise on account of physical or mental unfitness attributable to causes beyond their control, but not to malingering or indulgence in drink or drugs. Such pensions will be admissible at the following rates, and will apply to all men who were actually serving on the 4th August 1914 as well as all those who enlist after that date.

Rank.	Service.	Rate of pension per mensem.

3. Individuals who are discharged under item (*iii*), (*iv*), (*v*), (*vi*), (*xiv*), (*xvii*) or (*xviii*) of the table annexed to rule 13 of the Indian Army Act Rules if qualified for "ordinary" pension under clause 1 above will receive the same.

Individuals of 15 years' service and upwards, not entitled to "ordinary" pension, who are so discharged, and whose cases do not fall under clause 2 above, will be granted ¾ of the special rate of pension, but the full amount may be sanctioned for Indian officers by the General Officer Commanding the Division or Independent Brigade and for other ranks by the Officer Commanding.

GRATUITIES.

4. The gratuities admissible to men discharged with less than 15 years' service will be continued at the rates prescribed in scale A, paragraph 1045.

Individuals of less than 15 years' service, discharged as in clause 3, will be granted ¾ of the gratuity applicable to them, but the full amount may be sanctioned for Indian officers by the General Officer Commanding the Division or Independent Brigade, and for other ranks by the Officer Commanding.

Note 6.—Individuals who have elected to remain under the old rates of pension (*viz.*, those in force before the 1st June 1907), if discharged as in clause 3 above, will be granted the old retiring rate of pension, if qualified ; if not qualified they will be granted ¾ of the gratuity applicable to them but the full amount may be sanctioned for Indian officers by the General Officer Commanding the Division or Independent Brigade, and for other ranks by the Officer Commanding.

INJURY PENSIONS.

Paragraph 1061 is reconstructed as follows :—

Wound and injury pensions of non-commissioned officers and men are inclusive of any ordinary pensions earned. The following are the monthly rates of wound and injury pensions :—

No. 36-C. W. D.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION

FOR PROHIBITING THE IMPORTATION OF CERTAIN ARTICLES INTO THE UNITED KINGDOM.

GEORGE R. I.

WHEREAS by section forty-three of the Customs Consolidation Act, 1876, it is provided that the importation of arms, ammunition, gunpowder, or any other goods may be prohibited by Proclamation :

And whereas it is expedient that the importation into the United Kingdom of certain goods should be prohibited as hereinafter provided:

NOW, THEREFORE, We, by and with the advice of Our Privy Council, in pursuance of the said Act and of all other powers enabling us in that behalf, do hereby proclaim, direct and ordain as follows:—

As from and after the date hereof, subject as hereinafter provided, the importation into the United Kingdom of the following goods is hereby prohibited, *viz.*:—

Gold, manufactured or unmanufactured, including gold coin and articles consisting partly of or containing gold;

All manufactures of silver other than silver watches and silver watch cases;

Jewellery of any description.

Provided always, and it is hereby declared, that this prohibition shall not apply to—

(*a*) Any such goods which are imported under licence given by or on behalf of the Board of Trade, and subject to the provisions and conditions of such licence; or

(*b*) Gold consigned for delivery at, and sale to, the Bank of England.

The Prohibition of Import (No. 11) Proclamation, 1916, is hereby revoked.

This Proclamation may be cited as the Prohibition of Import (No. 12) Proclamation, 1916.

Given at Our Court at Buckingham Palace, this Fifth day of December, in the year of our Lord One thousand nine hundred and sixteen, and in the Seventh year of Our Reign.

GOD SAVE THE KING.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Two State Sanskrit Scholarships of £200 or £250 per annum for Indians, 1917.

THE scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of western scholarship in Sanskrit of the value of £250 a year when they are tenable at colleges in Oxford or Cambridge or of £200 when they are tenable elsewhere.

The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

The scholarships are open to well-qualified students with a genuine taste for Sanskrit studies and to those already employed as Professors of Sanskrit.

Intending candidates who are native of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1917, with a medical certificate of fitness to undergo a course of study abroad.

Selected scholars are required to lodge with the Secretary for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second class passage to England and also with a second class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

For further particulars pages 1143 to 1155 of the *Calcutta Gazette* dated the 21st June 1916 may be consulted.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1915-16.

GENERAL DEPARTMENT.

EDUCATION.

CALCUTTA, THE 5TH JANUARY 1917.

RESOLUTION—No. 33.

READ—

The Report on Public Instruction in Bengal for 1915-16.

THE report of the Director of Public Instruction is a careful and interesting summary of the working of the Education Department during the past year, and is published for general information.

Notwithstanding unfavourable financial conditions, there was a further increase of expenditure on education and a resultant expansion of educational work, and the Director of Public Instruction is once more able to report a larger number of schools and scholars, both male and female, than in any previous year. New capital expenditure practically ceased, as the Government of India were not in a position to permit drafts upon the unexpended balance of non-recurring Imperial grants, but the recurring grants were made available in full, subject to the condition, which has also governed non-recurring charges, that no new expenditure should be incurred unless likely to prove immediately remunerative or of imperative and immediate necessity. The number of educational institutions rose by a little over 2,000, aggregating 46,770. The number of male pupils was 1,559,728 and of female pupils 284,813, representing an increase of approximately 24,000 and 20,000 respectively.

2. **Administrative Staff.**—Four members of the Indian Educational Service were permitted to join the Indian Army Reserve of Officers, of whom one is believed to be a prisoner of war. Since the close of the year practically all the junior members of the service have volunteered, and as many as could be spared have been allowed to join.

3. **Collegiate Education.**—The number of colleges was reduced by the abolition of the Arts Departments of the London Missionary Society Institution at Bhowanipur and of the Bishop's College at Calcutta, but the number of students increased from 15,921 to 17,226. The Governor in Council has regretfully to admit the justice of the Director's unfavourable criticism of the present condition of Presidency College. There were serious breaches of discipline in this College, including a strike, in which many of the students participated, and an organized assault on one of the European Professors. In view of these disgraceful incidents the college was closed from the 18th February 1916 to the end of the summer vacation, and a committee was appointed to inquire into the general state of discipline in the college ; its report has since been published. Not the least regrettable feature of these incidents was that a representative committee of students, elected by their fellow-students to serve as an intermediary between them and the Principal, who were expected to show a sense of responsibility and to co-operate in the maintenance of authority, either passively acquiesced in or actively promoted indiscipline, with the result that the committee had eventually to be abolished.

One of the most urgent reforms required in connection with collegiate education is the provision of suitable hostels under proper supervision, but this is a reform which does not appear to appeal with much force as yet to the Indian public. It seems to be thought, in some quarters, that, so long as students behave well in the class-rooms, it is no concern of the collegiate authorities to see where and how they live. The burden of providing hostels for private colleges has hitherto been borne largely by Government, who have received liberal subventions for this purpose from the Government of India. During the year under review a sum of 9½ lakhs was paid to the Calcutta University out of a grant of 10 lakhs given by that Government for the construction of hostels for undergraduates of private colleges in Calcutta. Two lakhs were also spent on the construction of a building for the Calcutta University Institute which is doing useful work among students.

4. **Secondary Education of Indian Boys.**—The extent to which secondary education has spread in Bengal is apparent from the fact that it contains as many secondary schools as Madras, Bombay, the Punjab, Bihar and Orissa and the United Provinces taken together. In spite of the disappearance of 31 middle vernacular schools, a class of school which has for a long time past been unable to compete with the middle English schools, there was a further addition to the number of secondary schools during the year under review, while at its close the total number of pupils in these schools amounted to 372,026. High schools alone increased from 588 to 616 and the attendance in them rose to 197,530. The Director draws attention to the fact that the general condition of secondary education is still bad and that high schools, in particular, are in need of considerable improvement. At present

the teachers are mostly ill-paid and discontented, the buildings are generally overcrowded, the standards of education and discipline are low, and it has to be admitted that the Government schools are little, if at all, above the level of the better class of aided schools. The content of the people with the present system leading up to the Matriculation Examination, success in which is a passport to Government service and a valuable asset in the marriage market ; their disinclination to pay any part of the increased cost of a higher type of education ; and the inability of Government, with its limited resources and growing burdens, to introduce a reformed system without their assistance, are all difficulties in the way of improving the present unsatisfactory state of secondary education.

A residential school was opened at Hastings House in Calcutta for the education, on English public school lines, of the sons of those who are willing to pay substantial fees. It had 37 pupils on its rolls at the close of the year and is reported to have done good work. A scheme for systematic instruction in woodwork, which is an important factor in hand and eye training, has been tentatively introduced in selected high schools ; the boys have taken to the work with general keenness.

5. **Primary Education of Indian Boys.**—There was an addition of 3,285 in the number of primary schools, and an increase of 77,415 pupils brought the attendance up to 1,124,109. Progress was most noticeable in Eastern Bengal, which is at present a good deal more advanced than West Bengal in all branches of primary education. A decrease in the number of upper primary schools is due to the ever-growing demand for education in English and the consequent unpopularity of a purely vernacular course of instruction. In the case of lower primary schools there was an increase both in number and in attendance, but part of the increase is due to the fact that secularised *maktabs* in the Presidency and Burdwan Divisions, which were formerly shewn as special schools, have now been returned as primary schools. Of the total expenditure on primary education 43·7 per cent. is drawn from public funds, while 56·3 per cent. is derived from private sources. The Imperial grants for primary education have made it possible to introduce various measures of practical reform, the chief among which are the enhancement of the pay of teachers in aided primary schools, the grant of subsidies for the maintenance of Board primary schools and the improvement of guru-training schools. These reforms have been introduced throughout the Province, while a grant allotted to Eastern Bengal has been utilized for the encouragement of female and Muhammadan education in that part of the Presidency. A real improvement is already noticeable. In the Board lower primary schools good work is being done and the pandits are reported to be reasonably prosperous and contented, while the work in guru-training schools is being carried on with a new thoroughness and vigour.

6. **Training of Teachers.**—As in the preceding year there were 3 colleges for the training of secondary school teachers, 6 normal schools for vernacular masters, 116 schools for the training of primary school teachers and 4 special training classes. The David Hare Training College at Calcutta and the Dacca Training College are maintained by Government and teach up to the Bachelor of Teaching and Licentiate in Teaching standards of the Calcutta University. Both institutions were maintained in a satisfactory state of efficiency and it is hoped that the teachers trained at these colleges will gradually leaven the low standard of teaching in secondary schools. Their work is, however, confined in the main to the training of teachers already in Government service, and the extension of their influence to the teachers in private schools is hampered by the lack of funds for the provision of stipends. Besides these Government institutions, there is only one small training school for secondary teachers, viz., the London Missionary Society Training Class at Bhawanipur, which is aided by the department and had 13 students on its rolls. Five normal schools are maintained by Government at which teachers are trained for vernacular schools and for the vernacular departments of high schools ; there is also an aided school at Krishnagar, which is maintained by the Church Missionary

Society for the benefit of the mission schools. There were altogether 445 students in the normal schools, of whom only 95 passed out with final certificates. Government maintains 113 guru-training schools, including six which are reserved for the training of *mianjis* or teachers in *makthabs*, while three schools are maintained by missionary bodies. There were 1,952 *gurus* under training, of whom 906 were successful at the final certificate examination. A scheme for the improvement of the guru-training schools on the lines approved for the province of Eastern Bengal and Assam is now under the consideration of Government. The object of the scheme is to arrange for the training of a larger number of students every year and to render the career of primary school teachers more atractive.

7. **Professional and Technical Education.**—There were 10 Law Colleges with an aggregate of 2,646 students, of whom 365 passed the B. L. Final Examination held during the year. The comparative paucity of students studying for a commercial, technical or industrial career is again marked, the total number of youths or boys attending commercial, engineering and surveying, technical and industrial schools being only 2,021. The Civil Engineering College, Sibpur, had 74 students in the Engineer Department and 175 students in the Apprentice Department, while the Dacca School of Engineering had 133 students in the Apprentice Department. The Mechanical and Electrical Branch of the latter school was closed, and it has also been decided to discontinue the tinctorial chemistry classes in the Sibpur College, which were opened as an experimental measure some years ago, as they have failed to attract students. The popularity of the Government Commercial Institute declined, the number of students, which was 230 at the beginning of the session, falling to 116; an accountancy and auditing class was opened during the year under review. There were 276 students in the various departments of the Government School of Art, Calcutta; 26 ex-students of the school obtained remunerative employment during the year. The Artisan Class of the Government Weaving Institute, Serampore, is gaining in popularity, and the number of students could be doubled if there was sufficient accommodation. The improvement and expansion of this school are engaging the attention of Government, but considerable expenditure will be required and the scheme will have to be co-ordinated with other proposals for the reform of technical and industrial education in the Province. The Mining Educational Advisory Board has been reconstituted, and its sphere enlarged so as to include all mining education in Bengal. A scheme for a Mining Institute has had to be kept in abeyance owing to financial conditions, and in the meantime evening classes in mining are being held in the coalfields, which are proving a success.

8. **Education of Indian Girls and Women.**—A satisfactory feature of the year's record is the further expansion of education among Indian girls and women. There was an addition of 640 girls' schools, while the increase of 17,242 scholars recorded in 1914-15 has been followed by a further increase of 20,711. The growing interest taken by Muhammadans in the education of their women is evinced by the fact that they contributed 12,592 to this last increase. There were two women colleges, the Bethune College at Calcutta, which did well at the B.A. and I.A. examinations and was affiliated in mathematics up to the Intermediate Standard, and the Diocesan College, which teaches up to the B.A. and B.T. degrees and had 43 girls on the rolls. This College continues to maintain a high standard of efficiency. The number of secondary schools was 63, viz., 14 high schools and 49 middle schools; of the latter 28 are middle vernacular schools, which are little better than primary schools. The great majority of the girls' schools are poorly housed private institutions, which receive small grants or stipends from District Boards and Municipalities.

The chief needs of female education are reported to be better buildings for the schools, suitable quarters for the mistresses, the substitution of adequately paid mistresses for the old pandits now employed and the provision of mistresses who have been trained in methods of teaching. Owing to financial restrictions it has been impossible to do much to supply these needs.

Building projects had to be suspended ; a scheme for the establishment of a secondary training college for women, which should have been opened during the year, had to be kept in abeyance ; and the initiation of a training class for Muhammadan female teachers, which is one of the most urgent requirements of Muhammadan female education, had to be postponed. At present, the only secondary training class for Indian female teachers is that attached to the Diocesan College, which was opened three years ago. Primary training classes, except those maintained by Government at Calcutta and Dacca, are all managed by missionary bodies. At Dacca 22 pupils were under training ; in Calcutta there is a training class for Hindu widows, which is doing good work.

In addition to the ordinary types of schools recognised by the Department, such as high, middle and primary schools, there are zenana classes and home schools for girls which are assisted by grants and are conducted by elderly zenana ladies in their own homes. The home schools started in Eastern Bengal in accordance with the recommendations of the Female Education Committee of Eastern Bengal and Assam are doing satisfactory work. Two new schemes for zenana work were sanctioned for Pabna and Rangpur, and six classes were opened at the latter place. Lace-making, drawn-thread work and embroidery are taught in nine industrial schools, and peripatetic teachers have been appointed to tour from place to place and give instruction in needle-work in primary schools.

It is an encouraging feature of female education in Bengal that the *bhadralok* or middle-classes are recognizing that the education of their girls up to a certain standard is a practical necessity, and though they prefer, if possible, to get them educated free of charge, they are so impressed with its advantages that they are ready to pay a reasonable rate of fees.

9. **Education of Europeans.**—There were 78 institutions, of which 59 were schools for general and 19 for special instruction ; the total number of European and Anglo-Indian pupils at the close of the year was 9,662. There was an improvement in the standard of teaching in some schools, but the great majority of teachers were untrained ; out of 499 teachers, only 13 were graduates and 185 had received pedagogic training. There is no training institution in Bengal for male teachers ; one such teacher was deputed to Sanawar, but gave up the course to join the Army. The Dow Hill Training Class, which had 14 students under training, is the only recognised institution for women teachers. Instruction in manual training was given in eight schools and vocational training in 11 schools. The Young Women's Christian Association at Calcutta continued to do good work in its commercial and training classes, which were attended by 934 students, who learnt shorthand, typewriting, cookery, dress-making, millinery, first aid to the injured, home-nursing, household management, physical training, stencilling and painting, Hindustani and French. The Association also holds a special class in needle-work and cutting-out for the women teachers of European schools in Calcutta. Domestic training was given to girls in St. Helen's Convent at Kurseong, St. Andrew's Colonial Homes at Kalimpong, and some higher elementary schools ; and an up-to-date domestic science school was opened at Kalimpong. Cadet corps were maintained in 16 schools, the number on the muster-rolls being 1,465. Most of the boys' secondary schools deputed one member or more of their staff for military service.

10. **Education of Muhammadans.**—The number of Muhammadan pupils increased from 803,589 to 824,250, and it is noticeable that there is now one Muhammadan girl at school to every five Muhammadan boys. Even with this increase, however, the percentage of Muhammadans under instruction (44·9 per cent.) is below their proportionate strength (52·7 per cent.) in the population of Bengal. Only 1,535 Muhammadans are students in colleges, where they are out-numbered tenfold by the Hindus. On the other hand, though, as observed in the resolution of 1913-14, they have hitherto been slow in entering technical and industrial schools in spite of their mechanical ability, a larger number took advantage of the opportunities for a technical education afforded by engineering, surveying and industrial

schools. The reformed Madrasah scheme, which aims at bringing a specifically Islamic education into line with the requirements of the times, was brought into operation during the year and has now been introduced in the Government Madrasahs, aided senior Madrasahs, and recognised junior Madrasahs. In order to provide facilities for the education of Muhammadan boys, it has been decided that Government Madrasahs should be maintained entirely at the cost of Government, and that the amount previously spent on their up-keep from the Mohsin Fund should be devoted to the award of 124 special stipends to Muhammadan pupils.

11. **Education of Special Classes.**—During the year under review a scheme was sanctioned for the improvement and expansion of education among the Santhal inhabitants of Bankura, Birbhum and Midnapore. Nine new schools were opened in Jalpaiguri for the education of the children of labourers employed in tea gardens, and a special grant was made for the establishment of 30 new schools in the same district. A scheme has also been approved for the education of the children of labourers working in the mills along the river Hooghly.

12. **Physical and Moral Training.**—The number of hostels and boarding-houses increased from 660 to 735, the number of boarders being 23,545, or 1·3 per cent. of the college and school enrolment. The scale of allowances sanctioned for Superintendents of hostels attached to Government schools and colleges in the western districts of the Presidency was extended to Eastern Bengal. A Committee was appointed to conduct an enquiry into the hygienic conditions of schools and colleges and to devise a comprehensive scheme of improvement. Their recommendations, which involve considerable expenditure, have been submitted to the Government of India. The Adviser in Physical Education inspected a number of colleges, schools and hostels and found a decided change for the better in the hygienic and sanitary arrangements of most of them.

Open breaches of discipline were few, but the standard of discipline is low. Several students were interned under the Defence of India Act and there is reason to believe that many colleges and schools are being persistently exploited by anarchist organisations.

13. The Governor in Council desires to express his cordial thanks to the Hon'ble Mr. Hornell for his careful and zealous administration of the Department and his interesting and suggestive report. He regrets that progress in various directions has been unfortunately checked by unfavourable financial conditions. All that can be done until funds are made available after the termination of the war is to continue to examine the existing conditions under which education is imparted throughout the province and to mature schemes for the reform of those conditions.

By order of the Governor in Council,

L. S. S. O'MALLEY,

Secy. to the Govt. of Bengal.

REPORT

ON

PUBLIC INSTRUCTION IN BENGAL

FOR

1915-1916.

CHAPTER I.

Introductory.

Total number of schools and pupils.

The total number of all classes of institutions, public and private, increased during the year from 44,672 to 46,770, or by 2,098, and that of pupils attending them from 1,799,889 to 1,844.541, or by 44,652. Public institutions increased from 42.298 to 44.363, or by 2,065, and their pupils from 1,736,967 to 1,778,498, or by 41,531; private institutions increased from 2,374 to 2,407, or by 33, and their pupils from 62,922 to 66,043, or by 3,121. Of the total number of pupils, 1,559,728 were males and 284,813 females, as compared with 1,535.679 and 264,210, respectively, of the preceding year.

Different classes of public institutions.

2. Of the total number of public institutions, 48 were arts and professional colleges, 653 high schools, 1,935 middle schools, 40,410 primary schools, and 1,317 special schools. The corresponding figures for the previous year were 51; 627; 1,930; 35,962 and 3,728, respectively.

Classification of public institutions according to management.

3. Classified according to management, 414 of the public institutions were under the direct management of Government, 2,927 under that of District Boards and Municipalities, while 34,459 schools were returned as aided and 6,563 as unaided, as against 413; 2,848; 32,554 and 6,483, respectively, in the preceding year.

Total expenditure on Public Instruction.

4. The total expenditure on public instruction for the year was Rs. 2,56,78.348 against Rs. 2,54,34.128 for 1914-15. Of this amount, Rs. 1,63,94,563 represented direct and Rs. 92,83,785 indirect expenditure, as compared with Rs. 1.57,77,240 and Rs. 96,56,888 for the previous year. The expenditure from Provincial revenues was returned as Rs. 78,99,472; from District funds, Municipal funds and Native States as Rs. 22,78,570, Rs. 1,70,605 and Rs. 1,755, respectively. The income from fees was Rs. 1,10.43,129; and from subscriptions and endowments, etc., Rs. 12,81,817. The figures of expenditure on education under these heads for the preceding year were Rs. 87,02,910, Rs. 24,33,947, Rs. 1.68,228, Rs. 4,253, Rs. 1.04,76,627, and Rs. 36,48,163. respectively.

CHAPTER II.

Controlling Agencies.

Indian Educational Service.

5. On the 31st March 1916, the Indian Educational Service cadre contained 48 posts on ordinary rates of pay and 3 on special rates of pay. During the year under review one inspecting post was added to the cadre, and, pending the improvement of the service, three officers, viz., (1) Mr. B. Heaton, (2) Mr. F. C. Turner, and (3) Mr. T. H. Richardson, were granted temporary allowances of Rs. 200, Rs. 150 and Rs. 150 a month, respectively.

Provincial Educational Service.

6. On the 31st March 1915, the Provincial Educational Service cadre consisted of 157 permanent posts and 1 temporary. During the year 3 posts were added. The strength of the service, on the 31st March 1916, was thus 160 permanent posts and 1 temporary.

Subordinate Educational Service.

7. On the 31st March 1915, the Subordinate Educational Service cadre was 816 strong. During the year 16 posts were added and 24 abolished. The strength of the service, on the 31st March 1916, was thus 808 posts.

Lower Subordinate Educational Service.

8 On the 31st March 1916, the number of appointments in the different grades of the Lower Subordinate Educational Service was 738 as against 758 on the corresponding date of the preceding year, 20 posts having been abolished during the year.

Officers not within the classified lists.

9. On the 31st March 1916, the number of posts outside the grades was 506—120 more than those shown as existing on the corresponding date of the preceding year. Of these 120 appointments, 57 were created during the year. The remaining 63 should have been included in last year's figures, but they were omitted by mistake, the list from which the returns were compiled having since been found to be incomplete. Of the officers outside the grades, 32 drew salaries of Rs. 200 or more, and 474 salaries ranging from Rs. 15 to Rs. 150 a month.

Direction.

10. The temporary post of Additional Assistant Director of Public Instruction for Bengal, created for six months in 1914-15, was discontinued during the year. In February 1916, the office of the Assistant Director of Public Instruction for Muhammadan Education was amalgamated with the Director of Public Instruction's office and the Assistant Director of Public Instruction for Muhammadan Education has now become an integral part of the office. He deals with all cases relating to *madrasahs* and *maktabs*, and looks after the interests of Muhammadans in general institutions of all grades.

Inspecting agency.

11. The table below shows the strength of the inspecting agency on the 31st March 1916 :—

Division.	Inspectors and Additional Inspectors.	Assistant Inspectors including those for Muhammadan Education.	Deputy and Additional Deputy Inspectors.	Sub-Inspectors.	Assistant Sub-Inspectors.	Assistant Inspectresses.	Inspectresses

There were also employed 11 assistant sub-inspectors and 142 inspecting *pandits* (including inspecting *maulvis* and *munshis*) or *guru*-instructors who do not render qualifying service.

Deputation of officers to the Indian Army Reserve of Officers.

12. During the year under review four officers were permitted to join the Indian Army Reserve of Officers.

CHAPTER III.

Collegiate Education.

Arts Colleges.

Colleges and students.

13. There has been no change in the number of Government and Municipal colleges, but the number of aided and unaided colleges decreased by 2 owing to the abolition during the year of the Arts Departments of the London

Missionary Society Institution, Bhowanipur (which was in receipt of aid from the Department), and of the Bishop's College, Calcutta (an unaided institution). There were thus 32 Arts Colleges in the Presidency, of which 8 were under Government management, 1 under Municipal management, 13 were aided, and 10 unaided.

Notwithstanding this decrease in the number of colleges, the number of students increased from 15,921 to 17,226, *i.e.*, by 1,305. Of the students in colleges, 15,429 were Hindus, 1,535 Muhammadans, while 262 belonged to other communities. The corresponding figures for the preceding year were 14,370 ; 1,336 and 215, respectively.

Expenditure.

14. The total direct expenditure on Arts Colleges showed a decrease of Rs. 27,596 during the year (from Rs. 18,06,536 to Rs. 17,78,940). Of the total expenditure, Rs. 6,95,046 came from Provincial revenues, Rs. 9,07,887 from fees, and Rs. 1,76,007 from other sources, against Rs. 6,9[illegible],827. Rs. 9,19,470 and Rs. 1,96,239, respectively, for the previous year. The expenditure on Government colleges was Rs. 8,64,734 against Rs. 8,49,672.

Imperial grants.

15. The payment of the grant of Rs. 1,29,000 annually available from the Imperial funds for expenditure on non-recurring projects in connexion with private colleges in the Presidency was withheld on financial grounds. But out of the Imperial grant of Rs. 10,00,000 for construction of hostels attached to private colleges in Calcutta, a sum of Rs. 9,50,000 was paid to the University during the year. From the unspent balance of the various non-recurring Imperial grants of previous years, a sum of Rs. 2,00,000 was spent on the building of the University Institute. Another sum of Rs. 1,62,000 was also spent from the same source in acquiring a site and constructing a wing in extension of the Baker Madrasah Hostel. In connexion with the Dacca University project, a sum of Rs. 3,42,000 was spent out of the recurring Imperial grant of Rs. 5,00,000 allotted for the purpose.

Government Colleges.

Presidency College.

16. On the 31st March 1916, there were 975 students on the rolls of the college, against 937 of the previous year. This number included 844 Hindus and 130 Muhammadans. Government spent Rs. 3,57,327 on the college during the year under review and received Rs. 1,23,299 by way of fees and other miscellaneous receipts. The net cost of the institution was Rs. 2,34,028, or Rs. 237-5-7 per student. The total cost of educating a student was Rs. 362-6-5.

No additions to the buildings were possible, but affiliation was granted up to the M. A. standard in Philosophy and up to the M. Sc. standard in Physiology. Affiliation in Botany up to the M. Sc. standard has also been granted since the close of the year. The Principal reports steady progress in the improvement of the internal organization of the college, and he specially mentions the continued development of the *seminar* system.

But the Presidency College is not at present a credit to Bengal. One of the acts of the late Principal was to establish a Students' Representative Committee. This was an elective body, and the idea was that it would act as an aid to authority and as a means of communication between the Principal and the general body of students. The committee, as constituted by the votes of the students, was, in the words of the present Principal, "largely composed of undesirable characters, whose intentions were vicious, and their actions, and the ease with which the general body of students was misled by them, suggest the desirability of paying greater attention to education in personal and collective responsibility in both school and college." At any rate the Students' Representative Committee, which was in its third year of existence proved, to quote again from Mr. Wordsworth's report, "an obstacle, if not an enemy, to authority in time of difficulty." The committee has been abolished and the first attempt to give the students of the premier college in Bengal some real responsibility in the management of the affairs of their college has had to be abandoned as a complete failure.

During the months of January and February there was a succession of serious breaches of discipline, including a strike in which the majority of the students participated and culminating in an organized assault on one of the European professors. The college was closed by order of Government from the 18th February to the close of the summer vacation.

During the year under review two students of the college were arrested on the charge of complicity in political conspiracy and interned under the Defence of India Act. Since the 31st March last, the Eden Hindu Hostel has been searched by the police and several arrests made. This hostel is most inadequately supervised, and it is at present a source of serious anxiety and even danger. It is accommodated in an exceedingly unsatisfactory building and it provides its inmates with totally insufficient facilities for healthy recreation.

Only a few of the college students can take part in the college games. An attempt is made to organize athletics, but with nothing more than the part use of a very unsatisfactory piece of ground on the *maidan*—there is a rumour that even this facility is to be reduced in the near future—very little can be done in this respect to improve the health of nearly a thousand students and to train them in co-operation and manliness. The athletic interest of the great majority of the students of the college exhausts itself in looking on at football cup matches.

Dacca College.

17. There were 820 students on the rolls of the college on the 31st March 1916, against 787 on the 31st March 1915. Of these, 638 were Hindus, 181 Muhammadans, while one was a Christian. The Principal reports that the extreme limit of expansion has been reached and the limit of comfortable accommodation passed. More room is required for the library, where the books are so crowded that it is difficult to use them. More lecture-rooms are also required. The removal of the Law College to the old Secretariat building has been suggested. The attached hostel is utterly insufficient for the needs of the college. Government spent Rs. 2,09,548 on the college and received Rs. 66,610 from fees. The net cost of the college to Provincial revenues was Rs. 1,42,938. The gross cost of educating each student was Rs. 251-8-11 ; the net cost to Provincial revenues Rs. 171-9-6.

Rajshahi College.

18. The number of students on the rolls of the college on the 31st March 1916 was 774, against the same number on the same date of the preceding year. Of these, 618 were Hindus and 156 Muhammadans. Government spent Rs. 87,327 on the college and received Rs. 48,549 from fees and other sources. The net cost of the college to Provincial revenues was therefore Rs 38,778. The cost of educating a student was Rs. 118-13 ; the net cost to Provincial revenues Rs. 52-12-2.

Chittagong College.

19. During the year the number of students of the college increased considerably. On the 31st March 1916, there were 261 students as against 213 of the preceding year. A new Hindu hostel capable of accommodating 40 students was completed after the close of the year. The Principal remarks that the college has to serve the needs of a large area, and he thinks that it has considerable possibilities of future growth, if the staff and accommodation can be increased. He expresses the hope that should the growth of the college continue, a reasonable numerical limit will be imposed. He is doubtful whether a college of over 500 students admits of effective administration.

As regards games, Mr. Barrow writes :—

"Land is rather difficult to come by in Chittagong, and it is not easy to organize "games to any great extent. The ground known as the parade ground close to the col- "lege is shared for purposes of matches and cup competitions with other local clubs. "There are far too many competitions here as elsewhere and too few ordinary games. "In fact, not many members of the college play cricket, football and hockey, with the "exception of those picked performers who compose the college team."

Government spent Rs. 51,100 on the college and received Rs. 15,460 from fees, endowments, etc. The net cost of the college to Provincial revenues was therefore Rs. 35,640. The total cost of educating each student was Rs. 201-15-2 ; the cost to Provincial revenues Rs. 140-13-6.

Hooghly College.

20. The number of students on the 31st March 1916 was 242, as against 230 on the corresponding date of the year before. The college has been placed in charge of a Principal in the Indian Educational Service. Its general development will be taken up as soon as funds permit. Government spent Rs. 40,501 on the college and received Rs. 17,728 from fees. The net cost of the college to Provincial revenues was therefore Rs. 31,776. The total cost of educating each student was Rs. 208-14-1; the cost to Provincial revenues Rs. 134-1-3.

Krishnagar College.

21. The number of students on the rolls of the college on the 31st March 1916 was 184, of whom only 9 were Muhammadans. A Muhammadan hostel, the rent and taxes, and the remuneration of the superintendent of which were paid by Government, was started during the year; but 4 students only came to live in it. The Principal reports that unless and until the college is affiliated in Arabic and Persian, the number of Muhammadan students is not likely to increase. A Principal in the Indian Educational Service has now been appointed to the college, the general development of which will be taken up as soon as funds permit. Government spent Rs. 46,204 on the college and received Rs. 15,038 from fees, endowments, etc. The net cost of the college to Provincial revenues was Rs. 31,166. The total cost per student was Rs. 259-9-2; the cost to Provincial revenues Rs. 175-1-5.

Sanskrit College.

22. There were 214 students on the rolls of the English Department of the college on the 31st March 1916, against 167 on the same date of the preceding year. Government spent Rs. 24,139 on this department of the college and received Rs. 12,656 by way of fees. The net cost to Provincial revenues was therefore Rs. 11,783. The total cost of educating each student was Rs. 118-1; the cost to Provincial revenues Rs. 56-14-9.

The residential arrangements for the students were most unsatisfactory. In fact the students have for years been forced to seek accommodation wherever they could. The matter is now being investigated. Since the close of the period under review a house has been rented as a hostel.

Private colleges aided by Government.

23. The number of private colleges aided by Government during the year was 13. On the 31st March 1916, there were 5,658 students on the rolls of these colleges. Of these, 4,933 were Hindus, 528 Muhammadans, and 197 belonged to other communities. The total expenditure on the maintenance of these colleges amounted during the year to Rs. 5,24,996, towards which Government contributed Rs. 1,25,140, while Rs. 3,99,856 came from fees and other sources. The cost of educating a student in one of these colleges was Rs. 94-1-7, towards which Government contributed Rs. 22-6-10.

Calcutta mess scheme.

24. The Government of Bengal are pledged to contribute Rs. 13,008 a year towards this scheme; but the University has for some years been incurring larger expenditure than could be met from the resources available, including the Government grant. During the year under review the University was informed that Government declined to be held responsible for any deficit which might remain after their pledged contribution had been paid, but the University has since reported a further deficit and asked that it may be met from public funds. The matter is before Government.

CHAPTER IV.

The Secondary Education of Indian Boys.

Schools and pupils.

25. The number of secondary schools of all grades in the Presidency increased during the year from 2,451 to 2,480, *i.e.*, by 29. The number of high schools increased from 588 to 616, and that of middle English schools from 1,449 to 1,481. The number of middle vernacular schools declined from 414 to 383. On the 31st March 1916, there were 3,72,026 pupils on the rolls of these schools. Of these, 197,530 were in high schools, 151,402 in middle

English schools, and 23,094 in middle vernacular schools, as compared with 189,265 ; 153.936 and 24,912, respectively, on the 31st March 1915.

Expenditure.

26. The total expenditure on secondary schools for boys for the year was Rs. 67,15,120 against Rs. 62,32,449—an increase of Rs. 4,82,671. Of this, Rs. 6,61,160 came from Provincial revenues ; Rs. 2,11,288, from District funds ; Rs. 18.148 from Municipal funds ; Rs. 49,43,054 from fees ; and Rs 8,81,470 from other sources, as against Rs. 6,25,597, Rs. 1,91.105, Rs. 16,767, Rs. 45.68,652 and Rs. 8,30.328, respectively. for the preceding year.

Improvement of secondary education.

27. The general condition of secondary education is bad. This statement. though bald, is not novel, and the dictum that the improvement of secondary schools is mainly a matter of funds has become a commonplace. The fact is that the secondary educational system is being run at a figure at which the genuine article, or anything approaching it, cannot be delivered. Government schools which are supposed to be models are scarcely up to, in some cases they are definitely below, the standard of the better aided schools. During the year under review a scheme for the improvement of secondary education was submitted to Government. This was merely an adaptation of the proposals submitted to the Government of India in 1908 by the Governments of Bengal and Eastern Bengal and Assam. Out of the unspent balance of the Imperial non-recurring grants of previous years a sum of Rs. 46,000 was spent during the year on buildings. A portion of the recurring Imperial grants amounting to Rs. 22,000 was also devoted to buildings.

High schools.

28. The number of these schools is rapidly increasing, and the cry is for more and more! It is a demand for tickets in a lottery, the prizes of which are posts in Government service and employment in certain professions. The *bhadralog* have nothing to look to but these posts, while those who desire to rise from a lower social or economic stratum have their eyes on the same goal. The middle-classes in Bengal are generally poor, and the increased stress of competition and the tendency for the average earnings of certain careers to decrease—a tendency which is bound to follow on the increased demand to enter them, coupled with the rise in the cost of living and the inevitable raising of the standard of comfort—all these factors conspire to make the struggle to exist in these classes all the keener. Hence the need to raise educational standards, to make school life a greater influence for good and the course of instruction more thorough and more comprehensive—a need which becomes more and more imperative as life in India becomes more complicated and more exacting—is confronted by a determined though perfectly natural opposition to the raising of fees. The situation calls for a systematic and comprehensive policy formulated with an eye to economic conditions and in full recognition of the fact that education costs something.

29. A general improvement in high schools must, under these circumstances, be slow. But, as Aristotle says, we are more likely to get what we want, if we have a mark at which to aim and that mark must be something more comprehensive than Matriculation passes. The first stage on the path which leads to better things is a consciousness of defects. Probably the worst feature of the present situation is the low wages and the complete absence of prospects which are the fate of teachers in secondary schools. There has been some improvement in this respect, but the fact remains that no man who has passed the M. A. examination ever becomes a schoolmaster if he can possibly help it, while Moslem B.A.'s are practically unavailable on the salaries offered. The dominance of the University Matriculation over the curriculum and the fact that the majority of the schools still acknowledge no law and submit to no supervision or guidance, other than that which that examination imposes on them, are important factors in the situation. It is easy to blame the parents of blindness to their sons' true good, but the Matriculation examination is the thing which seems to matter, so that if his boy passes the annual promotion examinations and is duly presented at that examination at the earliest possible date, the average parent has no criticism to offer. This is perfectly natural, but the future of Bengal depends to a not inconsiderable extent on the work done in its secondary schools, and more

is required of these institutions than an ability to pass a certain percentage of boys through the Calcutta University Matriculation examination.

The Hastings House School.

30. The school was opened on 2nd July 1915. On the 31st March 1916, there were 37 pupils on its rolls—32 Hindus, 4 Muhammadans and 1 Parsi. The gross income from school-fees from 1st July 1915 to 31st March 1916 was Rs. 21,274, whilst the gross charge to Government for all heads of expenditure from 1st April 1915 to 31st March 1916 was Rs. 42,104. The actual cost, therefore, to the Provincial revenues was Rs. 20,830. During the year 5 scholarships of the value of Rs. 50 each per mensem and tenable for two years at the school were offered for competition by certain Indian gentlemen. One of these scholarships was not awarded.

The school was established to meet a definite need. Its success, indeed its very continuance, will depend upon the support which it receives. It was started after the European war had begun, at a time when European masters are practically unattainable. The Assistant Master in charge has put his whole soul into the work.. His reward is the response which he has awakened in the boys. The teaching work is sound, and the tone of the school excellent.

Middle schools.

31. The number of middle English schools is steadily increasing, while middle vernacular schools are dying out.

Manual instruction.

32. A scheme for systematic instruction in manual work was sanctioned during the year for 24 selected high schools in the Presidency. The scheme is in its experimental stage, and if it is successful, its scope will be extended as soon as money is available. During the year under review Rs. 18,000 was spent from Imperial grants on the purchase of benches, tools, etc. The general keenness with which boys have taken to this work is one of the most encouraging features of the present position.

The general position.

33. The present condition of secondary schools is undoubtedly prejudicing the development of the Presidency and is by no means a negligible feature in the existing state of general disturbance. It is customary to trace the genesis of much sedition and crime to the back streets and lanes of Calcutta and Dacca, where the organizers of anarchist conspiracies seek their agents from among University students. This view is correct so far as it goes, but it is in the high schools with their under-paid and discontented teachers, their crowded, dark and ill-ventilated class-rooms and their soul-destroying process of unceasing cram, that the seeds of discontent and fanaticism are sown!

CHAPTER V.

The Primary Education of Indian Boys.

Schools.

34 The total number of primary schools for boys in the Presidency was returned at 31,612. Of these, 3,190 were returned as upper primary schools, and 28,422 as lower primary schools. In 1914-15 the numbers were 28,327; 3,219 and 25,108, respectively. A comparison of these figures shows a decline in the number of upper primary schools by 29, but an increase in that of lower primary schools by 3,314. The number of upper primary schools remained stationary in the Dacca Division, but it decreased by 19; 6; 3 and 1 in the Presidency, Rajshahi, Chittagong and Burdwan Divisions, respectively. An increase in the number of lower primary schools was shown in the returns of all the divisions In the Dacca, Chittagong and Rajshahi Divisions these schools increased by 349, 227 and 383, respectively. In the Presidency and Burdwan Divisions the returns show an increase of 1,327 and 1,028 schools. These returns, however, include, in accordance with the recent orders of the Government of India, 1,207 and 753 secularized *maktabs* previously shown as special schools. If the figures of these *maktabs* had been excluded the actual increase in the number of ordinary lower primary schools in these divisions would work out at 30 and 275, respectively.

Pupils

35. The total number of pupils attending primary schools for boys on the 31st March 1916 was returned at 1,124,109, as against 1,046,691

on the 31st March 1915. Of these, 159,712 were returned as reading in upper primary schools and 964,397 as reading in lower primary schools, as compared with 164,130 and 882.564 pupils, respectively, of the preceding year. A comparison of these figures shows that the number of pupils in upper primary schools decreased by 4,418, while that of the pupils in lower primary schools increased by 81,833. The decrease in the number of pupils reading in upper primary schools took place in all the divisions of the Presidency except in the Burdwan Division, where an increase of 289 pupils was recorded. An increase in the number of pupils in lower primary schools has been returned from all the divisions, the Presidency and the Burdwan Divisions showing the largest increase of 39,200 and 26,602 pupils, respectively. The Dacca, Chittagong and Rajshahi Divisions showed an increase of 8,009 ; 2,616 and 5,406 pupils. The increase shown above in the case of the Presidency and Burdwan Divisions is only apparent as 12,111 and 20,458 pupils reading in *maktabs* have been included in the figures of these divisions. Deducting the number of pupils reading in *maktabs* from the total figures it will be seen that there was an actual decrease of 3,211 pupils in ordinary lower primary schools of the Presidency Division, and an increase of 6,144 pupils in those of the Burdwan Division. It may be mentioned here that the figures quoted above refer to primary schools only ; they do not take into account the pupils reading in primary classes of secondary schools. The total number of such pupils is 189,881. The total number, therefore, of pupils in the primary stage of instruction was, on the 31st March 1916, 1,313,990. The figures for the preceding year were 1,244,380 of whom 1,046,694 were in primary schools and 197,686 were in secondary schools. These figures show an increase of 69,610 in the number of pupils under primary instruction in secondary and primary schools for boys. But if the figures for pupils reading in *maktabs* in the Presidency and Burdwan Divisions, who number 62,869, are taken into account, it will be seen that the number of pupils reading in ordinary primary schools and in primary classes of secondary schools has increased during the year by 6,741 only.

Causes of decline.

36. The decrease in the number of upper primary schools and of the pupils attending them is attributed mainly to the unpopularity of purely vernacular education. The decrease in the number of pupils reading in ordinary lower primary schools in the Presidency Division has been attributed by the Inspector partly to failure of crops in certain localities and partly to the general rise in the cost of living.

Hindus and Muhammadans under instruction.

37. Of the total number of pupils attending primary schools for boys, 550,806 were Hindus and 552,589 Muhammadans. The corresponding figures for last year were 539,978 and 487,259, respectively. It appears from the returns that during the year under review the number of both Hindu and Muhammadan pupils increased—the former by 10,828 or by 2·0 per cent., and the latter by 65,330 or by 13·4 per cent. The increase in the case of Muhammadans is apparent as the figure includes 62,869 pupils of secularized *maktabs* in the Presidency and Burdwan Divisions now returned as lower primary schools. The actual increase is 2,461 only, or ·5 per cent., which is not satisfactory. The Hindus have now 32·7 per cent. of their boys of school-going age in primary institutions, and the Muhammadans 28·9 per cent. The corresponding figures for the previous year were 32·2 and 25·6 per cent. The increase in the case of Muhammadan pupils is, as has already been stated, due to the accession of numbers from *maktabs*.

Expenditure.

38. The total expenditure on primary schools for boys during the year under review was returned at Rs. 37,17,242. Of this amount, Rs. 16,24,125 or 43·7 per cent. came from public funds, and Rs. 20,93,117 or 56·3 per cent. from private sources. In 1914-15, the total direct expenditure amounted to Rs. 34,04,979, of which Rs. 14,59,923 or 42·9 per cent. came from public funds, and Rs. 19,45,056 or 57·1 per cent. from other sources. A large portion of the expenditure was met from Imperial grants.

Imperial grants.

39. A description of the various Imperial grants is given below :—

(1) The Rs. 6 lakhs grant.

The Imperial recurring assignment of Rs. 6,00,000 is devoted to the increase of pay of teachers in aided primary schools and to the maintenance

of board primary schools built during 1912-13. The actual allotments for the year under report were as follows :—

	Rs.
(*a*) Enhancement of the pay of trained teachers in aided primary schools by Rs. 3 per mensem and of untrained teachers by Re. 1 per mensem	4,48,356
(*b*) Maintenance of board primary schools started in 1912-13	97,916
Total ...	5,46,272

From the savings of the grant, a sum of Rs. 5,250 was sanctioned for the establishment of tea garden schools in the district of Jalpaiguri.

(II) The grant of Rs. 3,65,000.

The scheme for the utilization of Rs. 3·65 *lakhs* grant relates to (1) the maintenance of board primary schools built in and after 1913-14, (2) the enhancement of pay of trained teachers in aided primary schools, (3) the increase of stipends to *guru* pupils, and (4) the improvement of the *guru*-training school system. The full grant could not be utilized in the year under report as Government sanction in regard to the last item is still being awaited. The distribution of the grant for 1915-16 is indicated below :—

	Rs.
(*a*) Maintenance of board primary schools built in and after 1913-14	94,512

(*c*) Maintenance of board primary schools built prior to 1912-13		1,09,000
(*d*) Repairs to board school buildings		59,607
Total ...		2,73,139

Conclusion.

40. Without more money there can be no advance. With the funds now at its disposal the Education Department cannot even proceed effectively with the various schemes which were worked out in connexion with the recent Imperial grants. So far as these schemes have materialized they have resulted in very real improvement. In the board lower primary schools, for example, some good work is being done and the *pandits* are reasonably prosperous and contented. Again, though the scheme for the improvement of *guru*-training schools has scarcely been initiated as yet, a real advance is noticeable in the thoroughness and vigour of the work which is being attempted in some of these institutions. In this, as in all other branches of primary education, the Western divisions of the Presidency are behind the

Eastern. What is imperatively needed, especially in the Presidency and Burdwan Divisions, is more schools of some stability. This can only be effected by much larger contributions from public funds. The pupils already contribute 56·3 per cent. of the funds. They cannot in fairness be asked to contribute more. Some slight progress has been made in the unification of the curricula now in vogue in Western and Eastern Bengal, respectively. The mere unification would be a simple matter, but it is desirable to make use of the occasion to try and pro luce a primary school scheme which, while it will not be beyond the capacity of the ordinary teachers, or the powers of those children who will spend only a short time in school and not go on to more advanced studies, will at the same time provide a suitable preparatory training for those who can carry that education beyond it! The task is not proving a very simple one.

CHAPTER VI.

The Training of Teachers for Indian Schools.

Introductory.

41. During the year under review, there has been no change in the character and scope of the training of teachers described in the previous reports. The total number of institutions of all grades remained stationary at 129; but their attendance increased from 2,481 to 2,541. The 129 institutions include 3 training colleges, 6 normal schools, 116 *guru*-training schools, and 4 special training classes.

The David Hare Training College.

42. The number of students under training during the year was 22 against 32 of the preceding year. Of these, 14 were Government officers deputed from the Presidency and Burdwan Divisions, 3 were deputed by the Hyderabad State, 1 was deputed from an aided school, and 4 were private candidates. The number of students on the rolls was less than in former years. Prior to the year 1915-16, the college was always full, but practically all the students were Government officers deputed to it. The number of such officers is naturally decreasing, and the institution ought obviously now to turn its attention to the training of teachers employed at private schools. The difficulty in the way of this development is the absence of stipends and the lack of accommodation. The college is still miserably housed. The scheme for the reconstruction of the college at Ballygunge has presumably to be regarded as indefinitely postponed, although the land has been acquired.

Twenty-one students appeared at the last B. T. examination and 18 passed, 4 being placed in the 1st division. The total cost of the college during the year under review was Rs. 25,608, the whole of which was met from Provincial revenues.

Dacca Training College.

43. During the year under review, there were 51 students—22 in the B. T. class and 29 in the L. T. class. Of these, 13 were inspecting officers, 24 Government school teachers, 9 aided school teachers, and 5 outside candidates. Two L. T. students were deputed from the Burdwan Division. At the B. T. examination all the 22 students sat and 20 passed, 8 being placed in the 1st division. At the L. T. examination, all the 29 students sat for the examination and 24 passed, 5 securing distinction. In 1914-15, 18 students passed the B. T. examination and 11 L. T. examination, out of 21 and 14, respectively. The increased number of students intensified the difficulty of securing adequate practice for individual students in such a small practising school as Armenitola High School with 218 boys on its rolls arranged in 8 classes, one of which, the Matriculation class, is not used for practising. Steps are being taken to provide more facilities for this purpose in the neighbouring schools.

In the nature study class attached to the college, there were 16 students, of whom 10 passed the final examination. This class was opened, as an experimental measure, in 1912 for the training in nature study of vernacular teachers for the improved type of *guru*-training schools in Eastern Bengal. The class has not proved a success, and proposals for its abolition have been submitted to Government.

With a view to introducing a modified form of pupil-teacher system into the primary schools of the Presidency an experiment is being carried out at the Islamia Maktab at Dacca under the supervision of the Principal of the college. The results of the experiment will be noticed in the next report.

A new feature of the year in connexion with the college was the opening of a vernacular class in First Aid, under the auspices of the St. John's Ambulance Association, which was conducted by the Rev. Babu Amrita Lal Sircar of the Baptist Mission. Students from the training college and the nature study class attended. The lectures were thoroughly practical.

The total cost of the college was Rs. 54,809, and that of the nature study class was Rs. 7,877. The whole of these amounts was met from Provincial revenues.

The L. M. S. training class at Bhowanipur.

44. There is a small training class aided by the Department at Bhowanipur teaching up to the L. T. standard. This class had 13 students on its rolls on the 31st March 1916. At the last L. T. examination, out of 13 candidates 4 passed, 1 securing distinction.

Training schools for vernacular masters.

45. The number of these schools remained unchanged at 6—5 Government and 1 aided. On the 31st March 1916, there were 445 students in these schools as compared with 439 on the 31st March 1915. The total expenditure for all the schools was Rs. 93,396, of which Rs. 87,921 was debited to Provincial revenues. The number of students who passed out of these schools with final certificates during the year was 95 against 105 of the preceding year. These results are not satisfactory.

Of the 5 Government schools, the Calcutta school has no building of its own and is badly housed in a rented house. The Dacca school is miserably accommodated, and, on this account and in the absence of an adequate practising school, the work is carried on under conditions of considerable difficulty. The accommodation of the Rangpur Normal School is even worse than that of the schools at Dacca and Calcutta. A scheme for providing suitable buildings for a combined normal and *guru*-training school at Rangpur has been administratively approved, but the prospect of this, as of many other useful projects, materialising must now be regarded as indefinitely remote.

The single aided training school is situated at Krishnagar and is conducted by the Church Missionary Society for the benefit of the schools of that society.

Guru-training schools.

46 The total number of *guru*-training schools was 116, of which 77 were in Western Bengal and 39 in Eastern Bengal. Classified according to management, 113 of these were under Government, while only 3 were under Missionary societies. Of the 113 Government schools, 6 were exclusively reserved for the training of *mianjis* or *maktab* teachers : 3 in the Presidency, 2 in the Burdwan and 1 in the Chittagong Division. On the 31st March 1916, there were 1,952 *gurus* under training in these schools. The total expenditure on account of all the schools was Rs. 2,25,572, of which Rs. 2,08,103 was met from Provincial revenues. In Western Bengal, the *guru*-training school at Mollahelia was closed and transferred, as a temporary measure, to Hatchapra for the training of the Christian *gurus* working in the primary schools under the Church Missionary Society. In Eastern Bengal, buildings of the improved type were completed for the schools at Pabna, Nilphamari, Rajshahi, Bogra, Dinajpur, Naogaon and Feni. The removal of the Sarail *guru*-training school to Brahmanbaria was sanctioned in 1914-15; but no action has yet been taken. The proposal for the removal of the Ramoo *guru*-training school to Cox's Bazar is still under the consideration of the Department.

The number of *gurus* who appeared at the final certificate examination during the year was 1,323, of whom 906 were successful. In 1914-15, 785 *gurus* secured certificates out of 1,120 examined. The wastage at present is considerable, but, as has been observed in Chapter V, there has been a distinct improvement in the work of these institutions, especially in Eastern Bengal. More effective *guru*-training schools are needed, but they can do little or nothing, unless and until there is some sort of prospect for primary school teachers. The *pandits* of the board lower primary schools do gain a reasonable

livelihood. The future of primary education, as has also been stated in Chapter V, depends upon the ability of the authorities to bring into existence a greater number of schools of some stability and permanence, which will provide careers for teachers This, it may be repeated, is merely a question of more public funds.

Conclusion.

47. The Dacca and David Hare Training Colleges are just beginning to make their influence felt in the schools. It is, therefore, lamentable that it should have been necessary to weaken their staffs. But some officers of the Indian Educational Service had to be spared for the Indian Army Reserve of Officers, and even when the war broke out the Education Department was not adequately staffed. The weakest part of the system is the normal schools, but an attempt is now being made to introduce new life into these institutions by drafting picked members of the Dacca and Calcutta Training College staffs to take charge of them. The miserable way in which these institutions are housed is a distinct handicap to their effectiveness. The normal schools are extremely important institutions.

CHAPTER VII.

Professional and Technical Education.

Law colleges and classes.

48. The number of law colleges and classes remained the same, but their attendance increased from 2,401 to 2,646. Of these, 2,458 were Hindus, 175 Muhammadans, and 13 were of other races. The corresponding figures of the preceding year were 2,220, 164 and 17, respectively. There were 2,006 students reading in the University Law College, Calcutta. The total expenditure amounted during the year to Rs. 1,96,376, of which Rs. 30,000 was met from Provincial revenues and the rest from fees and other sources. At the B. L. Final examinations held during the year, 642 candidates appeared and 365 passed.

Pleaders' Survey Examination.

49. During the year under review there were 24 students in the short training class at Sibpur and 14 at Dacca. At the examination held in February 1916, 8 candidates passed out of 30.

Survey education.

50. The report of the special committee appointed to consider the question in general is still under the consideration of Government.

Civil Engineering College, Sibpur.

51. In the Engineer Department the total number of students was 74 against 92 in the preceding year. Twenty-six students were admitted during the year. The total admission in the Apprentice Department numbered 72. Of 175 students attending this Department, 135 were Hindus, 3 Muhammadans and 37 Christians. In the Electrical and Mechanical Branch there were 25 students. Thirteen new students entered for the junior Mining course. Of the 9 candidates, who secured first class Colliery Managers' certificates at the last examination, 6 came from this college. The value of the work turned out in the workshops amounted to Rs. 29,661. The industrial classes for training artisans had an average attendance of 31. Five artisans left during the year, their total earnings amounting to Rs. 1,235. In the Department for Tinctorial Chemistry there were 3 regular students in the 2nd year class, but none in the 1st year. These classes have failed and Government have ordered them to be closed. The total expenditure on the college during the year was Rs. 2,21,302, of which Rs. 1,92,432 came from public funds.

The discipline of the college was not altogether satisfactory. During the year under review there was an attempt at a strike and things have since come to a crisis, necessitating drastic action on the part of the authorities. The fact that such things could have happened in an institution all the students of which are supposed to be living under discipline on the college premises is indicative of the extent to which the bounds of law and order have been relaxed in Bengal.

Dacca School of Engineering.

52. There were 133 students in the Apprentice Department. The Mechanical and Electrical Branch was closed in accordance with the orders of Government. The number of artisans under training has risen to 65. The total value of the work turned out from the workshops was Rs. 2,226 for

outside work and Rs. 5,775 for the improvement of the school and the workshop itself. The discipline of the school is reported to have been good.

Government Weaving Institute, Serampore, and outlying centres.

53. This institute has passed its experimental stage and it shows promise of development. There is a steady increase in the number of applications for admissions both to the higher and to the artisan classes. In fact the present number of pupils could easily be doubled, if the necessary accommodation were available. New admissions to the higher class during the year numbered 21 and to the artisan class 54. The total cost for the institute during the year was Rs. 25,740. At the Malda Weaving School the expenditure from Provincial revenues for the year was Rs. 1,382, at Cox's Bazar Rs. 1,422, at Bankura Rs. 1,454, and at Pabna Rs. 1,230. The average number of pupils in these outlying schools was 15, 10, 18 and 20, respectively.

The present buildings—they are ordinary Serampore dwelling-houses—are miserable make-shifts. The provision of suitable accommodation on a site where expansion is possible and the general reorganization of the school into an institution capable of meeting the existing industrial demands and of developing with the textile industry of the Presidency is the one urgent industrial proposition which is now before the Education Department. Satisfactory sites have been found away from Serampore, and the re-organization scheme is being worked up, but existing financial conditions make the realization of the scheme a matter of more or less indefinite aspiration. This is a pity for the demand exists and is increasing, but nothing more can be attempted at Serampore. It has not even been possible to erect the power-loom which was purchased some two years ago.

Government Commercial Institute, Calcutta.

54. The total strength of the day and evening classes at the beginning of the session was 230, but it fell subsequently to 116 ; the decline was mainly in the evening class students. The Commercial Course Advisory and Examination Board, which was merely an advisory board, has been replaced by the Government Commercial Institute Board, which has certain defined executive powers. An Accountancy and Auditing class was opened in the middle of July 1915, and draft rules for the Diploma examination in accountancy are now under the consideration of the Department. During the year 87 pupils joined the day classes and 143 the evening classes. At the final examination of the institute held in 1916, 9 candidates passed out of 22, and at the special examinations 11 passed out of 30. The total expenditure for the year was Rs. 21,192.

Government School of Art, Calcutta.

55. There were 276 students on the rolls on the 31st March 1916, as against 284 in the previous year. Of these students, 20 were studying lithography and 4 wood-engraving. In the hostel there were 33 boarders. During the year 26 *ex*-students obtained remunerative employment.

Schools for juvenile offenders.

56. Mr. J. H. Melville, who was formerly an Inspector of Industrial and Reformatory Schools under the Home Office in London, came to Bengal on deputation for three months from the Government of Madras in connexion with the whole question of juvenile offenders. He visited a number of institutions in the Presidency with a view to seeing what could be done towards providing suitable training for juvenile offenders. It was found that some modifications in the draft Children's Bill were necessary before a satisfactory scheme could be worked out. Mr. Melville has drafted a new Children's Bill on the lines of the Madras Children's Bill. The Bill is now under the consideration of the Government of Bengal.

Joint Technical Examination Board.

57. At the Overseer examination, 61 candidates passed out of 98 actually appearing at the examination, or 62·2 per cent., and at the Sub-Overseer examination 96 passed out of 151 actually appearing, or 63·5 per cent. In 1915 these percentages were, respectively, 77·1 and 55·9. The total number of admissions to the Sub-Overseer classes has increased from 274 to 332. The figures in this paragraph include candidates from Bihar and Orissa.

Mining instruction in the coal-fields.

58. By a Government order, dated the 3rd December 1915, the Mining Educational Advisory Board was reconstituted and its sphere of interest enlarged, so as to include all mining education in Bengal. The Mining classes of the Sibpur College, which were formerly outside the Board's sphere of action, were included within it. Subsequently, Mr. H. C. Read was appointed

sole lecturer for all the centres for evening classes in Bengal and Bihar. In the sessional examinations held in June 1915, 18 candidates passed, as against 16 in the previous year. A sum not exceeding Rs. 2,0 per mensem has been sanctioned by Government for special Mining scholarships of Rs. 50 for Europeans and Rs. 25 for Indians, tenable at the Civil Engineering College, Sibpur, these scholarships to be awarded on the results of the examination held annually in connexion with the local lectures in the coal-fields. The question of the preparation of Bengali manuals on mining and mine-surveying is now under the consideration of Government.

City and Guilds of London Institute Technological examinations.

59. The examinations were held at Serampore and Calcutta. Forty-two candidates in textile subjects appeared at the Serampore centre and 30 in non-textile subjects appeared at the Calcutta centre. Twenty-three candidates passed in textile subjects and 7 in non-textile.

"B" classes.

60. At the School Final examination of "B" classes held in 1916, 44 candidates appeared and 21 passed. These figures include candidates from Bihar and Orissa. The previous year the numbers were 29 and 13, respectively.

Proposed industrial classes at Chittagong.

61. Mr. W. H. Everett, Superintendent of Industries, Bengal, after inspecting industrial conditions at Chittagong, prepared proposals for classes for railway apprentices and others. Such of these proposals as it seemed possible to introduce at once have been submitted to Government for sanction.

Summary.

62. No development worthy of record occurred during the year under review. In the circumstances this is only natural. There is still a general vagueness of aim and purpose with regard to the technical and industrial education of the Presidency. That a scheme of instruction in tinctorial chemistry should have been organized by Government after an immense amount of discussion and at considerable expense only to fail owing to there being practically no students who were willing to come to it seems to indicate a want of touch somewhere. Government technical institutions ought to be in much closer touch with employers of labour and the actual industrial conditions. The recent appointment of a sub-committee of the Governing Body of the Sibpur College to work out proposals for the closer co-operation of the Civil Engineering College and employers of engineer labour, such as railways, is a step in the right direction.

CHAPTER VIII.

The Education of Indian Girls and Women.

Schools and pupils.

63. The number of public institutions of all classes for Indian girls and women increased from 8,268 to 8,908. *i.e.*, by 640, and the number of girls and women including those reading in mixed schools from 247,971 to 268,682, *i.e.*, by 20,711. The increase of 640 schools in the total number of institutions is the net result of an increase in the number of secondary and primary schools, which rose from 60 and 7,622 to 63 and 8,784, and a decrease in the number of training colleges and special schools which fell from 2 and 581 to 1 and 57, respectively. The decrease of one institution in the number of training colleges is due to the temporary closing of the training class attached to the Loreto House, Calcutta. The decrease of 524 schools in the number of special schools is merely a decrease on paper and is explained by the fact that 554 secularized *maktabs* in West Bengal previously shown as special schools have this year been returned, in accordance with the recent orders of the Government of India, as primary schools. As a matter of fact, ordinary primary schools increased by 608 and special schools by 30. Of the total number of girls and women, 140,308 were Hindus, 120,969 Muhammadans, and 7,405 belonged to other communities. A pleasing feature of the year's progress is that the number of Muhammadan girls attending schools again increased by 12,592. The increase in the number of Hindu girls and women under instruction was 8,631.

Controlling agency.

64. As in the preceding year, the inspecting agency for girls' schools included 2 Inspectresses and 10 Assistant Inspectresses. Both Inspectresses are advocating an increase in the number of Assistant Inspectresses.

Collegiate education. (a) The Bethune College.

65. The Bethune College still shares its building with the Collegiate School, and the accommodation is inadequate and bad. Many applications for admission had to be refused. The Simla Bazar has been acquired and added to the college grounds, but it has not yet been found possible to provide funds for the construction of the new buildings. The highest number of students on the rolls of the college was 77 against 72 in the preceding year. The results of the University examinations were satisfactory. Six girls appeared at the B. A. examination and 13 at the I. A., of whom 5 and 10, respectively, passed.

The college was affiliated in Mathematics to the Intermediate standard during the year.

(b) The Diocesan College.

66. In addition to the Bethune College, there is one other first-grade college for Indian girls—the Diocesan College in Calcutta which teaches up to the B. A. and B. T. degrees of the University. On the 31st March 1916, it had 43 girls on its rolls as against 36 on the corresponding date of the previous year. It receives a grant of Rs. 600 per mensem from the Department.

Secondary education. (i) High schools.

67. The number of high schools for girls is 14—10 in West Bengal and 4 in East Bengal. Of these 4 are Government schools. 9 are aided, and the remaining 1 is unaided. At the Matriculation examination, 57 girls appeared from West Bengal, of whom 41 passed; 21 girls appeared from East Bengal and 19 passed.

The authorities of certain Mission high schools in Calcutta have long been feeling that the education given in them is not in the best interests of the girls and that a curriculum more suited to the real needs of the pupils of the schools should be evolved. The Inspectress of Schools, Presidency and Burdwan Divisions, has formulated a scheme, which has been introduced, as an experimental measure, in three high English schools under Mission management. The new curriculum includes hygiene, nursing, needle-work, cookery, domestic work, etc., besides ordinary school subjects.

(ii) Middle schools.

68. There are 49 middle schools in the Presidency, of which 21 are middle English schools and 28 middle vernacular schools. There are 3 schools in East Bengal and 1 school in West Bengal under Government management. Of the rest, 2 are under Municipal management, 41 are aided and 2 unaided. Many of the middle vernacular schools are little better than primary schools, and their status fluctuates from year to year. The middle English schools are more satisfactory.

Primary education. (a) Model girls' schools.

69. There are 22 model primary schools for girls in West Bengal—9 in the Presidency and 13 in the Burdwan Division. There are 23 model schools in East Bengal, some of which have been raised to the urban school status.

(b) Urban girls' schools.

70. These are primary schools of an improved type in East Bengal, mostly situated in subdivisional and other important centres. They receive a recurring grant of Rs. 40 per mensem, each, direct from the Department.

(c) Peasant girls' schools.

71. The scheme for starting peasant girls' schools originated in 1907. There are now 22 of them (confined to the Presidency Division), each receiving a grant of Rs. 13 a month. They are located in backward areas and remote places.

(d) Selected primary schools.

72. These are schools in West Bengal of an improved type and in receipt of departmental grants-in-aid provided out of the Imperial allotments. They are well housed and fairly equipped. The teaching in them has improved, and in some cases trained mistresses have been employed.

(e) Calcutta girls' schools.

73. Nearly all primary girls' schools in Calcutta are in receipt of a departmental grant calculated partly upon attendance and partly upon status. The grant fluctuates from year to year. The question of revising the system is receiving attention. The housing of these schools is distressingly bad.

(f) Dacca Town girls' schools.

74. There are 19 primary girls' schools in Dacca town maintained by the Municipality with the aid of Government contributions.

(g) Panchayati union girls' schools.

75. There are 20 such schools, started experimentally, in East Bengal, which are working satisfactorily under the control of the District Boards of Dacca, Noakhali and Tippera. The funds, both capital and recurring, are provided by the Department.

(h) Home schools.

76. These schools are conducted by elderly *zanana* ladies in their own homes. The few schools started in East Bengal in accordance with the recommendations of the Female Education Committee of Eastern Bengal and Assam are doing satisfactory work. Each school is in receipt of a grant-in-aid of Rs. 10 per mensem.

(i) Schools not in receipt of aid from the Education Department.

77. The great majority of girls' schools lie outside the scope of departmental grants. Most of these schools receive small grants or stipends from District Boards or Municipalities. As a rule, these schools are inefficient and badly housed. Considerable funds, both recurring and capital, are required for their improvement.

Zanana education.

78. Two new schemes for *zanana* work at Pabna and Rangpur were sanctioned at the beginning of the year, and 6 classes were opened at Rangpur in August 1915. The scheme for Pabna could not be brought into operation, as the *zanana* ladies there were not willing to join the classes. There are now 71 *zanana* teachers employed in the Presidency at the expense of public funds.

The education of Muhammadan girls.

79. Progress is slow. Large grants have been sanctioned in favour of select girls' schools, and *maktabs* are springing up both in towns and villages, while in certain places women are forming central gatherings for instruction. The problem at present is to find Muhammadan women teachers. Without such teachers no progress is possible. One of the many pressing needs of the moment is the opening of the proposed Muhammadan training class in Calcutta, a project which, with many others, has had to be indefinitely postponed.

Training of teachers. (a) Secondary training.

80. The secondary training college scheme already approved by Government has been kept in abeyance owing to the present financial stringency. The college which should have opened this year is now only a hope of the future, but it is of vital importance that the scheme should be pushed through as soon as normal financial conditions return.

The Diocesan Mission training class.

81. The only secondary training class for Indian female teachers is that attached to the Diocesan College in Calcutta, which was opened, as a temporary measure, three years ago. This class is doing good work but is of limited scope. It prepares students for the B. T. and L. T. examinations of the University. It receives a grant of Rs. 600 a month from the Department.

(b) Primary training.

82. With the exception of the Government training classes at Calcutta and Dacca, all primary training classes are under the control of Missions. They receive grants from the Department. In West Bengal there are 6 training classes under Mission control. The Roman Catholic training class at St. Mary's, Entally, has, during the year under review, received recognition and aid from the Department. The reorganization of the Kalimpong training class in the Darjeeling district is receiving the attention of the Department.

(1) Training stipends.

83. The institution of training stipends (12 junior and 8 senior) has proved a great boon and should improve the output of trained female teachers. This is very necessary, as the want of trained women teachers is being keenly felt in Eastern Bengal.

(2) Training examination results.

84. There were 77 candidates at the female teachership examinations in West Bengal, 26 for the senior grade, and 51 for the junior grade, examination. Of these 18 passed the senior and 35 the junior examination. At the Dacca "Departmental Examination for Mistresses" 8 candidates passed the teachers' test successfully and were awarded certificates.

(3) Eden High School training classes.

85. There were 22 pupils in the training classes attached to the Eden High School at Dacca. The scheme for the reorganization of these classes on a new and independent basis is being kept in abeyance for financial reasons.

Hindu widows' training class.

86. The continuance of the Hindu widows' training class at Ballygunge on the present improved basis has been sanctioned by Government. The school is doing good work. Miss Brock is of opinion that the future of the education of Hindu girls is bound up with its welfare as this is the only source from which Hindu women teachers can be drawn.

Scholarships.

87. The Presidency has now an extended system of scholarships, both school and college. The number has been considerably increased with the aid of the Imperial allotments. Last year all the scholarships were not taken

up in West Bengal, where girls still retain the right to compete with boys for the ordinary scholarships.

Industrial education.

88. The number of industrial schools for girls and women is very limited—6 in West Bengal and 3 in East Bengal. These schools are mostly under Mission control. They are well-managed and turn out work of good quality. They are all engaged in either lace-making, drawn thread-work or embroidery. The Mahila Shilpasram, Calcutta, has ceased to be recognized by the Department.

Needle-work teach'ng. (a) Needle-work teachers.

89. In order to provide facilities for needle-work teaching in primary schools for girls, 10 peripatetic needle-work teachers have been appointed. They are all competent women and are doing satisfactory work. They tour from place to place and give instruction in schools.

(b) Grants for sewing materials.

90. In the Dacca circle small grants for the purchase of sewing materials have been sanctioned in favour of a large number of girls' schools, with the result that there has been a steady, though slow, improvement in needle-work in the larger schools and *zanana* centres.

(c) Needle-work exhibition.

91. The needle-work exhibition annually held at Dacca contributed not a little to the improvement in needle-work of the schools in and around Dacca. In the exhibition last year out of 229 candidates 89 won diplomas—2 won the final, 15 the middle, and 72 the primary or first diploma. Considerable interest was shown in the exhibition by *purdanashin* ladies.

Physical education.

92. The subject of physical training for girls is a difficult problem in India. A beginning has, however, been made in high schools and training classes. In West Bengal drill is now taken in all girls' high schools, Mission boarding schools, and is a compulsory subject in all the Mission training classes. In East Bengal in some of the high and middle schools musical drill and action songs are taught. The introduction of drill into Hindu schools is a thorny problem. At present considerable opposition is encountered.

The Imperial recurring grant.

93. The sanctioned distribution of the recurring Imperial allotment of Rs. 2,44,000 for female education for the year was as follows :—

	Rs.
(1) High schools	22,580
(2) Training of secondary school teachers ...	40,000
(3) Training of primary school teachers ...	6,560
(4) Scholarships	17,580
(5) *Zanana* education	12,870
(6) Special grant for all classes of girls' schools ...	5,000
(7) Middle schools	28,600
(8) Education of Muhammadan girls	45,880
(9) Inspection	32,435
(10) Primary schools	28,120
Total ...	2,39,625
Balance ...	4,375
GRAND TOTAL ...	2,44,000

A large part of these grants was utilized during the year under review. Some important schemes covered by these grants had, however, to be postponed owing to the financial restrictions imposed by the war.

Summary.

94. The year under review has not been one of great progress in female education. The war imposed heavy financial restrictions, and owing to the entire lack of funds for capital expenditure all building projects had to be laid aside. The chief needs are—

(1) The employment of female teachers on an increased scale of pay in place of the existing *pandits*.

(2) An adequate supply of trained mistresses.

(3) Adequate and suitable accommodation for the schools.

(4) The provision of suitable quarters for mistresses.

All these things involve considerable expense; local enthusiasm for girls' schools, though considerable, rarely takes the form of financial assistance. It is usual to talk about "female education" in India being a frail plant which needs careful nurture and encouragement, and this is frequently interpreted to mean that, if a man is asked to pay anything towards his daughters' education, he will probably remove them from school. If this ever was the general attitude, it is certainly not the attitude now of the Hindu *bhadralog* of Bengal. The education of girls of this class up to a certain standard has become a practical necessity and even the orthodox Hindu parent is beginning to realize the advantage which a well-conducted school has over any system of home instruction, which, if it is to be effective, is probably beyond the means of all but the rich. Parents will pay fees for the school education of their girls, though the economic pressure to which reference has been made in chapter IV makes them by no means reluctant to get it for nothing if they can. The point is that, so far at least as the upper castes of the Hindus are concerned, the stage at which it was not safe to impose fees is past. The general arrangements for financing education being what they are, it is essential that a reasonable rate of fees should be paid on account of every girl of the *bhadralog* who attends school, not that public funds may contribute less but that the total amount available may be more. There is much which is promising in girls' schools; but unless we are to repeat the mistakes which have been made in the case of boys' schools, we must insist on reasonable standards being maintained. Exceptional capacity in girls should be encouraged by generous scholarships.

CHAPTER IX.

The Education of Europeans.

Institutions.

95. On the 31st March 1916, there were 78 institutions—an increase of 2 on the figure for the 31st March 1915. Of these, 59 were schools for general and 19 for special instruction. The corresponding figures for 1914-15 were 59 and 17.

The Welland Memorial School, Calcutta, was closed on the 31st December 1915. A lower elementary school was opened on the 1st March 1916 at Kanchrapara for the children of the employés of the Eastern Bengal Railway.

Pupils.

96 On the 31st March 1916, there were 10,337 pupils under instruction; the figure for the 31st March 1915 was 10,074. Of these, 4,421 (2,728 boys and 1,693 girls) were in secondary and higher secondary schools, and 4,704 (2,254 boys and 2,450 girls) in elementary and higher elementary schools. The corresponding figures for 1914-15 were 4,223; 2,617; 1,606; 4,388; 2,128 and 2,260, respectively. The total number of European and Anglo-Indian pupils on the rolls on the 31st March 1916 was 9,662, as compared with 9,392 on the 31st March 1915. Of this number, 4,738 were boys and 4,924 girls, as against 4,488 and 4,904, respectively, of the preceding year. The number of non-European pupils was 675 against 682 on the 31st March 1915.

Expenditure.

97. The total expenditure on the education of European and Anglo-Indian children for the year is returned as Rs. 25,66,264, as compared with Rs. 28,68,595 for the preceding year. The decrease is due to a diminution in capital expenditure owing partly to the war. The money spent was derived from the following sources:—(i) Rs. 8,51,851 from Provincial revenues (including Rs. 16,051 from Municipal funds); (ii) Rs. 9,28,461 from fees, and (iii) Rs. 7,85,952 from private contributions and endowments. The Welland Memorial School, Calcutta, received Rs. 5,194 from Government for the liquidation of its debts.

Scholarships.

98. The total amount spent upon scholarships for Europeans during the year was Rs. 24,643, as against Rs. 22,998 during the preceding year. The State scholarship of £200 per annum for domiciled Europeans or Anglo-Indians was awarded to Mr. H. S. Stark, a candidate from Bengal

The State scholarship for domiciled European or Anglo-Indian women has not yet come to this Presidency.

Teachers.

99. There were 499 teachers on the 31st March 1916, as compared with 531 on the 31st March 1915. The remarks made in the report for 1913-14 still hold good. A certain improvement in the standard of teaching was noticed in some schools, but the general situation is still unsatisfactory. Of the 499 teachers, 43 were University graduates, 185 had received some sort of training, and 314 were untrained. The corresponding figures for last year were 54, 208 and 323, respectively. Most of the secondary schools for boys deputed one member or more of their staffs for military service.

Training of teachers.

100. The training class for women attached to the Dow Hill School, Kurseong, is still the only recognized institution for the training of teachers in Bengal. The number of students under training on the 31st March 1916 was 14. The annual examinations of the students were held in November 1915. Six senior and 10 junior students were examined, of whom 4 and 5, respectively, passed.

One male teacher was deputed in March 1916 from Bengal to Sanawar, but he gave up the course to join the Army.

Manual training.

101. Instruction in manual work was given in 8 schools only. The main obstacles to the introduction of this most essential subject into all schools are lack of funds, dearth of qualified instructors, and lack of accommodation and equipment. The Government contribution for the year towards the cost of this instruction was Rs. 2,040.

Vocational training.

102. The number of schools which maintained a class following a recognized supplementary course was 11 — 4 for boys and 7 for girls. The number of pupils on the rolls of those classes on the 31st March 1916 was 89 — 33 boys and 56 girls. There were 934 students on the rolls of the commercial and technical classes attached to the Young Women's Christian Association at 134, Corporation Street, Calcutta, as compared with 1,211 students on the rolls on the 31st March 1915. Of these 934 students, 213 were reported to be learning shorthand, 331 typewriting, 55 cookery, 40 dress-making, 106 first-aid to the injured, 64 home-nursing, 19 household management, 17 Hindustani, 10 millinery, 58 physical training, 19 stencilling and painting, and 2 French. The classes in shorthand and typewriting were held daily, and classes in the remaining subjects were held weekly, during a part of the year. The association received a grant of Rs. 210 for a special class held in needle-work and cutting-out for the women teachers of European schools in Calcutta. It also received monthly grants-in-aid of Rs. 50 and Rs. 105. On the 31st March 1916 there were 6 pupils in the Sub-Overseer classes attached to the Victoria School, Kurseong, against 4 in the preceding year. The Sub-Overseer classes of the Goëthal's Memorial Orphanage had 12 students on the 31st March 1916, as compared with 15 on the 31st March 1915. The Apprentices' Night School, Kharagpur, had 52 students and the Calcutta Technical School 89 on the 31st March 1916, against 45 and 70, respectively, of the preceding year. The cost of maintenance was Rs. 2,313 for the former and Rs. 6,681 for the latter: the Government contribution was Rs. 490 and Rs. 2,000, respectively. The Calcutta Technical School classes still continue to be held at the Calcutta Free School.

Domestic training.

103. St. Helen's Convent, Kurseong, St. Andrew's Colonial Homes, Kalimpong, and those higher elementary schools which took the domestic course continued to give domestic training to girls. The cookery class at the Dow Hill School, Kurseong, was continued, the number of students on the rolls on the 31st March 1916 being 6. The cost of maintaining the class during the year was Rs. 4,980, which was entirely met from Provincial revenues. The opening at Kalimpong during the year under review of a really up-to-date domestic science school marks, it is hoped, the inauguration of a new era.

The domestic training of the girls of the domiciled European and Anglo-Indian communities has become economically indispensable. The failure to recognize this and a silly tendency to set far too much store on the acquisition of "accomplishments" have been productive of a great deal of mischief and misery. The recognition of the fact that it is an essential part of the function of every girls' school to equip each of its pupils with at least some

elementary knowledge of, and capacity for, household management need not interfere in the least with the intellectual development of the girls. This is especially true of boarding schools. It is merely a matter of organization.

Volunteering.

104. The expenditure upon the cadet corps during the year was Rs. 11,812 as compared with Rs. 13,234 during the preceding year, and was met from (1) Provincial revenues, Rs. 11,292, and (2) private sources, Rs. 520. The number of schools that maintained cadet corps was 16, and the heads of these schools report that volunteering was popular and that the standard of efficiency attained was satisfactory. The total number on the muster-rolls of the various cadet companies was 1,465, of whom 214 were "efficients" and 1,251 "extra-efficients." The corresponding figures for last year were 1,515, 222 "efficients" and 1,293 "extra-efficients". In a few schools the joining of the cadet corps is compulsory. It seems desirable that it should be compulsory in all schools, exemptions being allowed on physical grounds only.

Controlling agency.

105. Mr. G. D'O. Maclear left on the 27th June 1915 to join the Indian Army Reserve of Officers. Mr. A. Mercer officiated as Inspector of European Schools, Bengal, for the remainder of the year under report. It was necessary to ask Mr. Mercer to combine this post with the Principalship of the David Hare Training College, Calcutta. The work involved in the tenure of these two posts has proved most exacting; but such arrangements cannot be avoided while the war lasts. Mr Mercer is attempting to issue occasional circulars designed to help school teachers. Circulars on the selection of suitable text-books on arithmetic and English grammar and composition were issued during the year under review.

The Department continued to be assisted, so far as schools in which girls are educated are concerned, by Miss Brock, the Inspectress of Girls' Schools in the Presidency and Burdwan Divisions.

The Doveton College.

106. After the liabilities of the Doveton College had been met, all the money realized from the sale of the Doveton College premises, together with the Doveton money taken over by Government, was invested in Government Promissory notes. It is intended to devote the income from the investment to special provisions designed to equip young men and women for industrial, technical and professional careers.

CHAPTER X.

The Education of Muhammadans.

Review of the progress made during the year.

107. During the year under review, the number of Moslem pupils in institutions of all kinds for the education of Indians increased from 803,589 to 824,250. Of these, 694,340 were males and 129,910 females, as against 686,086 and 117,503 in the preceding year. The Moslem pupils constitute 44·9 per cent. of the school population. Last year they constituted 44·8 per cent.: 52·7 per cent. of the total population of the Presidency is Moslem. The percentage of Moslem students in colleges rose from 7·8 per cent. to 8·3 per cent., in the high school stage from 16·8 per cent. to 18·3 per cent., in the middle stage from 25·3 per cent. to 25·6 per cent., in the high and middle stages taken together from 21·4 per cent. to 22·1 per cent., and in the primary stage from 44·0 per cent. to 46·6 per cent. In secondary schools the actual number of Moslem pupils fell from 101,675 to 99,831. It is gratifying to notice that the number of Moslem pupils in professional colleges and in engineering, surveying, technical and industrial schools increased during the year.

Hostels.

108. In order to meet the difficulty of hostel accommodation for Moslem students studying in Calcutta colleges, the Government of India have placed a grant at the disposal of the Calcutta University for the construction of an inter-collegiate hostel for Moslem students. Pending the establishment of this hostel, an inter-collegiate hostel has been opened by the Government of Bengal, as a temporary measure, in a rented house in Wellington Street, Calcutta. This hostel accommodates 74 boarders. Work has been begun on extensions to the Baker Hostel.

Madrasahs.

109. The number of *madrasahs* has increased from 214 to 250, and the number of their pupils from 16,350 to 18,496. Of these institutions, 11 are

senior and 239 are junior *madrasahs*. During the year. Rs. 3,32,360 was spent on *madrasahs*. Of this amount. Rs. 1,59,736 came from public funds. Last year the total expenditure was Rs. 2,72,014—Rs. 92,440 came from public funds. The reformed scheme sanctioned under Government Resolution No. 450T.G., dated the 31st July 1914, came into force during the year. The Government senior *madrasahs* at Hooghly, Dacca and Chittagong, the Government junior *madrasah* at Rajshahi, all the aided senior *madrasahs* and all the recognized junior *madrasahs* have adopted the scheme and have reorganized their staffs. The amounts of the grants-in-aid for all the 6 aided senior *madrasahs* and of 7 aided junior *madrasahs* were increased ; grants-in-aid were also sanctioned for 51 junior *madrasahs*, which had not previously been aided.

Maktabs.

110. The number of *maktabs* (recognized and unrecognized) increased from 6,384 to 7,575 during the year, and the number of pupils studying in these institutions increased from 180,668 to 218,483. Of these, 45,414 are girls and 173,069 boys. Rupees 5,11,435 was spent on *maktabs*. Of this amount, Rs. 2,30,638 was provided from public funds. Corresponding amounts for the last year were Rs. 4,80,790 and Rs. 2,06,198, respectively.

Model maktabs.

111. During the year, buildings for 2 model *maktabs* were constructed : one at Sijgram in the district of Murshidabad, and the other at Kharkin in the district of Jessore.

Mohsin fund.

112. In order to provide further facilities for the education of Muhammadan boys, Government, by Resolution No. 4147, dated the 16th November 1915, decided that the cost of the maintenance of Government *madrasahs* should be met solely from Provincial revenues instead of partly from the Mohsin fund. The money thus set free from the Mohsin fund has been utilized to create 124 special stipends for Moslem students.

Conclusion.

113. The recent issue of a comprehensive Government Resolution has made it unnecessary to attempt to summarise the general position as regards the education of Moslems in Bengal. It should be realized that the problem is not merely to get Moslem boys into high schools, but to get them into these schools at such an age and with such attainments in the matter of general education that they can compete on equal terms with boys of other communities. The Reformed Madrasah Scheme is an attempt to bring a system of specifically Islamic education more into line with the requirements of modern life. How far it will succeed, it is impossible as yet to say. In the Chittagong district it has resulted in a heavy fall in the numbers attending the more important *madrasahs* and the establishment of a number of private *madrasahs* teaching the old course. The feeling in Chittagong is that the Reformed Course, while it will not produce good *moltahs*, etc., will fail to turn out a Moslem capable of competing with others in secular life. Those who think that the reform was in the right direction hope that the scheme will eventually secure public confidence, but they consider that this will take time.

CHAPTER XI.

The Education of Special Classes.

Education of chiefs and nobles.

114. The special arrangements made in the Nawab Bahadur's Institution at Murshidabad for the education of the boys of the *Nizamat* family were continued ; 26 boys of the family were being educated in this way during the year.

Education of aborigines and other backward races.

115. During the year Government approved a scheme for the improvement and expansion of education among the Sonthals in the districts of Bankura, Birbhum and Midnapore, and assigned a sum of Rs. 10,257 for its introduction.

Education of the defective.

116. The schools for the deaf and dumb at Calcutta and Barisal and the school for the blind at Calcutta are the only institutions which exist in the Presidency for the education of the physically defective. On the 31st March 1916 these schools had 120 pupils against 116 of the preceding year. The facilities offered at present in the Presidency for the education of defective children are inadequate.

Education of children in tea gardens.

117. Schools for the education of the children of labourers employed in tea-gardens exist in the districts of Jalpaiguri and Darjeeling. During the year the number of these schools increased from 85 to 94. Nine new schools were opened in the Jalpaiguri district, the number of schools in that district being now 28. The schools in the Darjeeling district, which numbered 66, were reported to be working satisfactorily under the management of the Scottish Mission. A fall in the number of pupils in these schools was, however, noticed and attributed to the withdrawal of many boys by their parents for work as whole-time labourers. The difficulties which have hitherto stood in the way of the spread of education in the Jalpaiguri tea-gardens have been largely surmounted and a special non-recurring grant of Rs. 5,250 was paid during the year for the establishment of 30 new schools. These schools will begin work in the current year.

Education of factory children.

118. The scheme for the education of the children of labourers working in the mills along the Hooghly, which was submitted to Government for sanction in 1914-15, was approved during the year of report. The details of the scheme have not yet been finally settled.

CHAPTER XII.

Private Institutions.

119. The schools under this head are the various classes of indigenous schools which stand outside the recognized system of public instruction. During the year these schools increased from 2,374 to 2,407, or by 1·4 per cent., and the number of pupils in them from 62,922 to 66,043, or by 4·9 per cent. It is noteworthy that while the total number of schools increased by only 1·4 per cent., that of the pupils attending them advanced by 4·9 per cent. The increase in the total number of institutions and pupils is mainly due to the increase that occurred in the Presidency, Burdwan and Chittagong Divisions. The Rajshahi Division showed a decrease both in number and in strength. The Dacca Division showed a decrease in schools but an increase in pupils. Of the total number of pupils, 16,659 were Hindus, 47,825 Muhammadans, and 1,559 other races. The large number of Muhammadan pupils in these institutions was due, as was observed in last year's report, to the large number of "Advanced Arabic and Persian" teaching institutions and of Koran schools or unrecognized *maktabs*.

CHAPTER XIII.

Physical and Moral Training.

Hostels.

120. The number of hostels and boarding houses increased from 660 to 735 and that of boarders from 21,760 to 23,545. Of the hostels, 661 were for males and 74 for girls and women; the boarders numbered 19,448 and 4,097, respectively, as compared with 17,647 and 4,113 in 1914-15. The total expenditure incurred on the maintenance of all the hostels amounted to Rs. 22,83,664, towards which Government contributed Rs. 4,25,518, District and Municipal bodies Rs. 1,589, fees Rs. 14,29,428, and other sources Rs. 4,27,129, against Rs. 3,64,656, Rs. 1,303, Rs. 13,73,416, and Rs. 3,92,044, respectively, in the preceding year.

The scale of allowances for superintendents of hostels attached to Government schools and colleges in Eastern Bengal was lower than that prescribed for Western Bengal. A scheme was accordingly worked out in 1914-15 for extension of the Western Bengal scale to Eastern Bengal. The scheme was sanctioned, and by means of the Imperial grant of Rs. 1,32,000 it was found possible to give effect to it from the beginning of the year under review. A part of the grant was also utilized in the payment of three-fourths of the cost of supervision of hostels attached to schools and colleges under private management.

Out of the unspent balance of the non-recurring Imperial grants of previous years and of the Imperial recurring grant of Rs. 1,32,000, a sum of Rs. 3,12,000 was spent during the year on hostels.

Messes.

121. In Calcutta and Dacca the arrangements for the accommodation of students in messes noticed in previous reports continued.

Physical training.

122. Games are popular, especially football, but there are too few grounds and far too many cup competitions. The few play: the majority look on. Drill continues to be the only form of compulsory exercise in all grades of public schools. Country games are popular in village primary schools.

Dr. Segard, the Adviser in Physical Education, visited a number of institutions and their hostels in the various districts of the Presidency and reported that there had been a decided change for the better in the hygienic and sanitary arrangements of most of the institutions.

As in previous years, a course in physical training was given by Dr. Segard at the Young Men's Christian Association in Calcutta, and a number of drill instructors attended. The classes for women teachers were not conducted during the year under report. It is hoped that the suspension of these classes is merely temporary and that, when funds permit, they will be re-started.

The report of the committee appointed to conduct an enquiry into the hygienic conditions of schools and colleges in the Presidency in connexion with the Imperial non-recurring grant of Rs. 3,50,000 was submitted to Government during the year under review, with the recommendations of the Director of Public Instruction. The matter is now under the consideration of the Government of India.

Moral training.

123. There is no regular system of religious or moral instruction in any schools except in Mission schools and in semi-religious institutions, such as *madrasahs*, *maktabs* and *tols*.

Discipline.

124. Open breaches of discipline were creditably few, seeing that the exploitation of colleges and schools by the anarchist organizations was being persistently and almost universally carried on. Babu Nabin Chandra Bose, Head Master, Malda Zilla School, was murdered in January 1916, and one of the boys of the school has since been convicted by the District and Sessions Judge of complicity in the crime.

During the year several students were interned under the Defence of India Act.

The general position was well described by Mr. W. C. Wordsworth in the Annual Report of the Inspector of Schools, Presidency Division :—

"Discipline was satisfactory in a negative sense : discipline in the active sense of a "forming and developing influence is rare. A strange degree of confidence in the value "of moral lessons and wall mottoes is found in many schools: moral teaching to be "successful must be given with great tact and competence, and no amount of moral "teaching will efface the effect of examples of inefficiency and slackness set by too "many of our teachers. School-work properly done, with a proper insistence "on punctuality, accuracy, and regularity, is the best form of moral training, and "insistence on habits of cleanliness is more potent than the most vividly-printed "exhortations put up on the school walls."

CHAPTER XIV.

Conferences.

125. In November 1915, two important conferences were held under the presidency of the Director of Public Instruction—one to discuss matters connected with the working of training colleges, *e.g.*, recruitment of students, amelioration of the practising facilities, etc., and the other to consider various questions relating to revision and co-ordination of the curricula for normal, *guru*-training and primary schools. The recommendations of these conferences are being considered by the Department. No definite suggestions have as yet been worked out ; more light is required on many sides of the problems involved.

As in previous years, conferences were held by some of the Inspectors of Schools at their divisional head-quarters and elsewhere. Several Deputy Inspectors of Schools also held conferences at their district head-quarters and other important centres, in which matters of local interest were discussed. Some of the inspecting officers, while on tour, held conferences of primary and middle school teachers at various places. School method and the teaching of different subjects were considered at these conferences.

A conference was held by the Inspectress of Schools, Presidency and Burdwan Divisions, to discuss matters connected with the improvement of secondary education for girls. The experiment referred to in paragraph 67 was the result of this conference.

CHAPTER XV.

Text-Book Committees.

126. The two text-book committees at Calcutta and Dacca for the Western and Eastern parts of the Presidency, respectively, continued their work. During the year under review the Calcutta Committee reported on 172 books and the Dacca Committee on 245 books.

The rules for the working of the text-book committees have been revised.

W. W. HORNELL,

Director of Public Instruction, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 8th January 1917.

Summary.—The week was rainless. Reaping of winter paddy is almost finished; threshing has commenced. Fields are being prepared for jute and autumn paddy in the Eastern Bengal districts. Transplanting of summer rice and harvesting of sugarcane and pulses continue. The prospects of standing spring crops are fairly good. Cattle-disease is reported from four districts only. The average price of common rice has fallen by about 2·08 per cent. as compared with that of the previous week.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 379L.R.—The 11th January 1917.—In exercise of the powers conferred by section 101 (*2*) (*a*) of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Governor in Council is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands comprised in villages Patul and Palara, in thana Singur, and village Jaroora, in thana Polba, district Hooghly, appertaining to tauzi Nos. 471, 472 and 477, respectively, of the Hooghly Collectorate.

Hooghly.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;
(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(*d*) the name of each tenant's landlord;
(*e*) the rent payable at the time the record-of-rights is being prepared;
(*f*) the mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise;
(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(*h*) the rights and obligations of each tenant and landlord in respect of—
  (*i*) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well, or any other source of supply, and
  (*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land;
(*i*) the special conditions and incidents, if any, of the tenancy;
(*j*) any right of way or other easement attaching to the land for which a record-of-right is being prepared;
(*k*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority;

(*l*) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands as defined in chapter XI of the Act.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

The 12th January 1917.

No. 4Marine.—In the draft rules under section 6, sub-section (1), clause (*p*) of the Indian Ports Act, 1908 (XV of 1908), as amended by the Indian Ports (Amendment) Act, 1911 (IV of 1911), which were published, for criticism, under Notification No. 115Marine, dated the 27th November 1916, the Governor in Council proposes to substitute the following for rule 1(4) of those rules :—

"(4) The term 'infected' when used with reference to any articles, **includes all articles considered by the Health Officer to be infected with any of the diseases in question.**"

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

The 16th January 1917.

No. 6Marine.—The following draft of rules, which the Governor in Council, in exercise of the powers conferred by section 4 of the Bengal Steam-boilers and Prime-movers Act, 1879 (Bengal Act III of 1879), as amended by Bengal Act II of 1915, proposes to make to regulate the grant of leave and pension to the Inspectors appointed under the said Act, is published for the information of persons likely to be affected thereby.

II. The draft rules will be taken into consideration on or after the 19th February 1917, and any objections or suggestions regarding them, which may be received by the undersigned before that date, will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. The following rules regarding leave and pension apply to Inspectors appointed permanently under the Steam-boilers and Prime-movers Act, 1879.

Extent and application.

2. The power to grant leave to the Inspectors shall rest with the Commissioners appointed under the Act.

Power to grant leave.

3. Leave of absence cannot be claimed as a matter of right. Leave may be granted or refused at any time according to the exigencies of the service.

General condition of grant of leave.

4. All applications for leave other than on medical certificate should be submitted at least three months before the date from which the leave is to commence.

5. Unless specially otherwise ordered, leave must begin within thirty-five days of the date on which it is granted.

6. The rules laid down in the Civil Service Regulations regarding recall from leave will apply to the Boiler Inspectors *mutatis mutandis.*

Recall from leave.

Kinds of leave.

7. The rules provide for the following kinds of leave :—

(*a*) Privilege leave.
(*b*) Furlough.
(*c*) Special leave on urgent private affairs.
(*d*) Extraordinary leave without allowance.

8. Privilege leave may be prefixed to furlough, special leave on urgent private affairs, or extraordinary leave without allowance subject to the following conditions :—

Combination, continuation and commutation of leave.

(*i*) When privilege leave is combined with furlough the amount of the combined leave shall not exceed two years.
(*ii*) When privilege leave is combined with special leave the combined leave shall not exceed six months.
(*iii*) When, however, furlough or special leave granted in combination with privilege leave is extended on medical certificate the full period of furlough or special leave ordinarily admissible may be allowed, irrespective of the limits prescribed in the above clauses.
(*iv*) When privilege leave is combined with leave of any kind the combined leave must be for not less than six months.

9. Extraordinary leave without allowance may be granted in continuation of any other kind of leave and any leave may be retrospectively changed into any other kind or period of leave for which the officer was qualified when the original leave was granted.

10. After five years' continuous absence from duty an officer shall be considered to be out of employment.

Maximum leave admissible.

11. Leave commences from the date an officer actually makes over charge and ends on the date on which he resumes duty, at the expiration of the leave granted.

Commencement and end of leave.

12. In the case of overstayal of leave the rules laid down in the Civil Service Regulations will apply.

Overstayal of leave.

13. The amount of privilege leave earned by an officer shall be one-eleventh part of the time he has been on duty without interruption, provided that no privilege leave can be earned by duty performed while three months of such leave is due to him, and that whenever duty is interrupted all claim to privilege leave earned theretofore is forfeited. Absence on privilege leave, though not counting as duty, is not an interruption of duty within the meaning of this article.

Short leave, privilege leave.

14. The calculation must be made as follows :—

Calculation how made

One calendar month for every eleven complete calendar months of duty and one day for every eleven days of the balance.

15. The amount of privilege leave admissible at one time is limited to three calendar months.

Limit.

16. The privilege leave due to an officer is the privilege leave which he has earned since the last interruption of duty, less the period during which he has been absent on privilege leave.

Amount due.

17. An Inspector on privilege leave is entitled to an allowance equal to the salary which he would receive if he were on duty, even though another officer is appointed to act for him, the extra charge being borne by the Fund.

Allowances.

18. The aggregate amount of furlough and of special leave with allowances admissible is six years.

Long leave furlough—general limitation

19. The amount of furlough earned by an Inspector is one-fourth of his active service.

Furlough earned.

20. The amount of furlough due is the amount which an Inspector has earned, diminished by the furlough or special leave with allowance which he has enjoyed under these rules.

Furlough due.

21. To an Inspector who has rendered three years' continuous service furlough for not more than two years may be granted as follows :—

Furlough admissible.

(*a*) on medical certificate—unconditionally,

(*b*) without medical certificate, subject to the following provisos :—

(*i*) that the furlough be due to him,

(*ii*) that he has rendered eight years' active service,

(*iii*) that an interval of not less than eighteen months has elapsed between the last return from privilege leave, of over six weeks' duration and the furlough or privilege leave if any, with which the furlough is combined. In the case of privilege leave combined with other leave which does not interrupt continuous service, the period of eighteen months begins to run from the date subsequent to that of the end of the combined leave.

22. To an officer who has not rendered three years' continuous service furlough may be granted on medical certificate as follows :—

(*a*) if the furlough due exceeds a year to the extent due, not exceeding two years,

(*b*) if the furlough due does not exceed a year, for not more than one year.

23. (*a*) Furlough granted under rule 21 may, on medical certificate, be extended to not more than three years.

Extension of furlough.

(*b*) Furlough granted under rule 22 for less than two years under clause (*a*), or less than one year under clause (*b*), may, on medical certificate, be extended to the extent of the furlough due to the Inspector, not exceeding two years, or to one year, respectively.

Ordinary furlough.

24. Ordinary furlough can, under no circumstances, extend beyond two years at one time. It includes—

(*i*) the first two years of each separate period of furlough under rule 21, including any extension under rule 23 (*a*),

(*ii*) so much of furlough under rule 21, including any extension under rule 23 (*b*) as may be due.

Allowances.

25. An Inspector on ordinary furlough is entitled to a leave allowance equal to half his average salary, and in the case of furlough other than ordinary, to the same allowance.

Special leave.

26. Special leave on urgent private affairs may be granted at any time for not more than six months: provided that an officer who has had special leave must render six years' active service before he can again have such leave.

Allowances.

27. (*a*) For the first six months for which an officer is on special leave, whether the six months be included in the same leave or not, he is entitled to a leave allowance equal to half his average salary. Thereafter he is entitled to no leave allowance.

(*b*) An Inspector on special leave does not forfeit his past leave allowances by resigning the service without returning to India.

Extraordinary leave without allowance

28. Extraordinary leave without allowance may, in case of necessity and when no other leave is by rule admissible, be granted for such time as may be necessary. No Inspector is entitled to extraordinary leave.

Subsidiary leave.

29. Subsidiary leave may be allowed to a Boiler Inspector in accordance with the rules in Chapter XIII, section V of the Civil Service Regulations.

Leave of Inspectors not possessing European qualifications.

30. Rules 18 to 27 and 29 apply only to European Inspectors possessing European qualifications. Inspectors who do not fulfil these conditions will be entitled to long leave under the Indian Services leave rules, as laid down in Chapter XIV of the Civil Service Regulations.

Leave of temporary or officiating Inspectors

31. An Inspector who has a temporary or officiating appointment only may be allowed:—

(*a*) leave on medical certificate on half his average salary for not more than three months, if no substitute is required, or if his duties can be provided for without additional expense;

(*b*) leave without allowance under rule 28 for not more than three months.

Remuneration of acting Inspectors without a substantive appointment.

32. (*a*) Remuneration to be paid to any person appointed to act for an Inspector on leave will be half the minimum pay of the lowest grade, irrespective of the leave allowance drawn by the absentee.

(*b*) In special cases the acting allowance may, with the previous sanction of the Local Government, be increased to an amount not exceeding the minimum pay of the lowest grade.

Conditions of grant of pension.

33. A pension may ordinarily be granted:—

(*i*) as compensation on discharge in the case of reduction of establishment,

(*ii*) on retirement owing to duly certified bodily or mental infirmity,

(*iii*) on retirement after attaining the age of 55 years, or

(*iv*) after the completion of qualifying service for 30 years.

Qualifying service commences when an officer actually joins the service in the Fund Establishment, and it includes time spent on duty and privilege leave, as also the time passed on leave with allowances, as laid down in article 408 of the Civil Service Regulations.

34. The amount of a pension is regulated as follows :—

(*a*) After a service of less than ten years, a gratuity not exceeding (except in special cases, and under the orders of Government) one month's emoluments for each completed year of service. If the emoluments of the Inspector have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the Local Government, be substituted for emoluments.

(*b*) After a service of not less than ten years a pension not exceeding the amount arrived at on the following scale :—

Years of completed service.	Scale of pension.	Maximum limit of pension.	
		Rs.	Rs.
10	$\frac{10}{60}$ths of the average emoluments	2,000 a year	=166⅔ a month.
11	$\frac{11}{60}$ths ,,	2,200 ,,	183⅓ ,,
12	$\frac{12}{60}$ths ,,	2,400 ,,	200 ,,
13	$\frac{13}{60}$ths ,,	2,600 ,,	216⅔ ,,
14	$\frac{14}{60}$ths ,,	2,800 ,,	233⅓ ,,
15	$\frac{15}{60}$ths ,,	3,000 ,,	250 ,,
16	$\frac{16}{60}$ths ,,	3,200 ,,	266⅔ ,,
17	$\frac{17}{60}$ths ,,	3,400 ,,	283⅓ ,,
18	$\frac{18}{60}$ths ,,	3,600 ,,	300 ,,
19	$\frac{19}{60}$ths ,,	3,800 ,,	316⅔ ,,
20	$\frac{20}{60}$ths ,,	4,000 ,,	333⅓ ,,
21	$\frac{21}{60}$ths ,,	4,200 ,,	350 ,,
22	$\frac{22}{60}$ths ,,	4,400 ,,	366⅔ ,,
23	$\frac{23}{60}$ths ,,	4,600 ,,	383⅓ ,,
24	$\frac{24}{60}$ths ,,	4,800 ,,	400 ,,
25	and above $\frac{30}{60}$ths ,,	5,000 ,,	416⅔ ,,

NOTE.—(1) For the precise meaning of average emoluments see articles 486 and 487 of the Civil Service Regulations.

(2) The reduction referred to in article 478 (*a*) of the Civil Service Regulations should not be applied to the Inspectors, as they are officers with technical training, which necessitates many years of practical and technical work before they become qualified for the work of the Commission, consequently most of them are over 30 years of age before joining the service.

35. Extraordinary pension. A pension, gratuity or compassionate allowance in case of injury or death may be granted—

(*i*) to an Inspector so injured in the execution of his public duty as to be incapacitated from earning a livelihood ;

(*ii*) to the relatives of an Inspector killed in the execution of his duties, or who may die in such exceptional circumstances as would, in the opinion of the Government of India, justify the payment of a pension, gratuity or compassionate allowance to his relatives had he been in Government service.

This rule applies to any person employed in the service, whether permanently or temporarily.

36. A pension, gratuity or compassionate allowance under rule 35 may be granted only when injury or death is met in the performance of a duty which is attended with extraordinary bodily risk. No claim on account of loss of life or bodily injury resulting from ordinary accident is recognised.

37. The pension, gratuity or compassionate allowance under rule 35 is granted at the discretion of Government.

38. The amount of pension or gratuity under rule 35 is to be regulated by the conditions laid down in articles 737, 738, 739 and 740 of the Civil Service Regulations.

39. General Cases not provided for in these rules shall be dealt with under the Civil Service Regulations.

The 15th January 1917.

No. 5Marine.—The following draft of amendments which the Governor in Council, in exercise of the powers conferred by section 4 of the Bengal Steam-boilers and Prime-movers Act, 1879 (Bengal Act III of 1879), as amended by Bengal Act II of 1915, proposes to make in the rules published with Notification No 52Marine, dated the 31st May 1910, at page 703 of Part I of the *Calcutta Gazette* of the 1st June 1910, is published for the information of persons likely to be affected thereby.

II. The draft amendments will be taken into consideration on or after the 19th February 1917, and any objections or suggestions regarding them, which may be received by the undersigned before that date, will be duly considered.

Draft amendments.

(1) In rule XXI of the said rules, *delete* the second paragraph beginning with the words "But if any boiler" and ending with the words "shown in the scale."

(2) In the third paragraph of the same rule *substitute* the figures "25" *for* the figures "50."

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD P. O., MANBHUM.

Indian Mines Act, 1901.

AN examination for first and second class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held at the Railway Institute, Dhanbad, on the 21st, 22nd and 23rd February 1917.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year, respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India (Department of Commerce and Industry) Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application and fee is received on or before the 21st January 1917.

CUSTOMS.

The 13th January 1917.

No. 422-C W.—The following Order in Council is published for general information —

AT THE COUNCIL CHAMBER, WHITEHALL.

The 12th day of December, 1916.

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by section 2 of the Customs (Exportation Prohibition) Act. 1914, that any Proclamation or Order in Council made under section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade :

And whereas it is provided by section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act, now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade.

And whereas by a Proclamation, dated the 10th day of May, 1916, and made under section 8 of the Customs and Inland Revenue Act, 1879, and section 1 of the Exportation of Arms Act, 1900, and section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited :

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars :

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect :—

That the Proclamation, dated the 10th day of May, 1916, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the Schedule to the same :—

(1) That the following headings should be deleted :—

(*b*) Animals, living, for food ;

Chemicals, etc., the following :—

(*a*) Manganese, peroxide of ;

(*b*) Electric lamps, except carbon filament lamps and arc lamps for street lighting ;

Forage and food which may be used for animals the following :—

(*b*) Beans ;
(*c*) Brewers' and distillers' grains ;
(*c*) Buckwheat ;

Cakes and meals, the following :—

(*c*) Biscuit meal ;
(*c*) Calf meal ;
(*c*) Coconut and poonac cake ;
(*b*) Compound cakes and meal ;
(*b*) Cotton seed cake, and cotton seed meal ;
(*c*) Fish meal and concentrated fish ;
(*c*) Gluten meal or gluten feed ;
(*c*) Ground nut or earth nut cake and meal ;
(*c*) Hempseed cake and meal ;
(*c*) Husk meal ;
(*b*) Linseed cake and meal ;
(*c*) Locust bean meal :
(*c*) Maize germ meal ;
(*c*) Maize meal and flour ;
(*c*) Meat meal ;

(*c*) Palmnut cake and meal;
(*c*) Poppy seed cake and meal;
(*c*) Rapeseed or colzaseed cake and meal;
(*c*) Sesame seed cake and meal;
(*c*) Soya bean cake and meal;
(*c*) Sunflower seed cake and meal;
(*b*) Whale cake;
(*b*) Whale meal;

(*c*) Chick peas;
(*c*) Dari;
(*c*) Gram or dhol;
(*c*) Green forage;
(*b*) Lentils;
(*c*) Lupin seeds;
(*b*) Maize;
(*c*) Maize germs;
(*b*) Malt dust, malt flour, culms, sprouts or combings;
(*c*) Millet;

Offals of corn and grain, the following:—

(*c*) Mill dust and screenings;
(*b*) Rice meal (or bran) and dust;

(*b*) Patent and proprietary cattle foods of all kinds;
(*c*) Pigeon peas;

Metals and ores, the following:—

(*b*) Lead, pipe, scrap or sheet, and solder containing lead;

(*c*) Pocket lamp cases, and cases fitted with bulbs but not containing batteries;

Provisions and victuals which may be used as food for man, the following:—

(*b*) Animals, living, for food;
(*c*) Arrowroot;
(*b*) Barley, barley meal, and pearled and pot barley;
(*c*) Bean flour and meal;
(*c*) Biscuits, bread and cakes;
(*b*) Butter;
(*c*) Cassava powder;
(*b*) Cheese;
(*c*) Cornflour;
(*c*) Corn grits;
(*b*) Eggs in shells;
(*c*) Fish;
(*c*) Hominy;
(*c*) Lentil flour and meal;
(*c*) Macaroni;
(*c*) Mandioca;
(*c*) Meat of all kinds, not including beef and mutton, fresh or refrigerated;
(*b*) Milk, condensed or preserved;
(*b*) Oatmeal and rolled oats;
(*c*) Onions;
(*c*) Pea flour and meal;
(*b*) Peas (except tinned and bottled peas, and peas packed in cardboard boxes or similar receptacles);
(*c*) Prepared foods wholly or partially derived from cereals;
(*c*) Rice and rice flour;
(*c*) Rye, rye flour and meal;
(*c*) Sago and sago flour and meal;
(*c*) Semolina;
(*c*) Spaghetti;
(*c*) Tapioca and tapioca flour;
(*c*) Vegetables, canned;
(*c*) Vegetables, fresh (except peas);
(*c*) Vermicelli;

(*c*) Seeds, clover and grass;
(*c*) Spices other than popper;
(*b*) Thermometers, clinical;
(*a*) Thermometers (except clinical thermometers);
(*a*) Valves, gas, steam and water;
(*a*) Wood-screws, made of brass, iron or steel.

(2) That the following headings should be added :—

(*a*) Animals, living, for food;
(*c*) Animal hoofs and other glue stock (including untanned pelts and hides not otherwise specifically prohibited), fish bladders and fish skins;
(*c*) Barrels and casks, empty, and their distinctive component parts, other than such barrels or casks as have been previously imported full and are being returned empty whether whole or in parts;

Chemicals, etc., the following :—

(*c*) Formates, not otherwise prohibited;
(*c*) Iridium, osmium, palladium, rhodium and ruthenium, compounds;
(*c*) Lead, white;
(*a*) Manganese, peroxide of, and mixtures and preparations thereof;
(*c*) Oxalates, not otherwise prohibited;
(*c*) Soda lime;
(*c*) Sulphites, metallic, not otherwise prohibited;
(*c*) Thiosulphates, metallic, not otherwise prohibited;
(*a*) Zirconium compounds;

(*b*) Electric lamps, except carbon filament lamps, arc lamps for street lighting and pocket electric lamps and their component parts;
(*c*) Electric lamps, pocket, and their component parts;
(*b*) Fish bones;

Forage and food which may be used for animals, the following :—

(*a*) Beans, all kinds, including haricots;
(*a*) Brewers' and distillers' grains;
(*a*) Buckwheat;

Cakes and meals, the following :—

(*a*) Biscuit meal;
(*a*) Calf meal;
(*a*) Coconut and poonac cake;
(*a*) Compound cakes and meal;
(*a*) Cotton seed cake and cotton seed meal;
(*a*) Fishmeal and concentrated fish;
(*a*) Gluten meal or gluten feed;
(*a*) Ground nut or earth nut cake and meal;
(*a*) Hempseed cake and meal;
(*a*) Husk meal;
(*a*) Linseed cake and meal;
(*a*) Locust bean meal;
(*a*) Maize germ meal;
(*a*) Maize meal and flour;
(*a*) Meat meal;
(*a*) Palmnut cake and meal;
(*a*) Poppy seed cake and meal;
(*a*) Rapeseed or colzaseed cake and meal;
(*a*) Seasame seed cake and meal;
(*a*) Soya bean cake and meal;
(*a*) Sunflower seed cake and meal;
(*a*) Whale cake;
(*a*) Whale meal;
(*a*) Chick peas;
(*a*) Dari;
(*a*) Gram or dhol;

(*a*) Green forage;
(*a*) Lentils;
(*a*) Lupin seeds,
(*a*) Maize;
(*a*) Maize germs;
(*a*) Malt dust, malt flour, culms, sprouts or combings;
(*a*) Millet;
Offals of corn and grain, the following:—
(*a*) Mill dust and screenings;
(*a*) Rice meal (or bran) and dust;
(*a*) Patent and proprietary cattle foods of all kinds:
(*a*) Pigeon peas;

(*a*) Fuel economisers constructed of cast iron pipes, used as auxiliary heating apparatus in connection with land or marine steam boilers;
(*c*) Glue, osseine and concentrated size, fish glue, isinglass, finings and other kinds of gelatine;
(*b*) Hides and pelts, clippings of;
(*c*) Iceland, Irish and Sphagnum moss, algin and its compounds;
(*b*) Machinery, agricultural, other than motor ploughs and motor tractors for agricultural use;

Metals and ores, the following:—
(*c*) Iridium, osmium, palladium, rhodium, ruthenium, and alloys of these metals;
(*b*) Lead (except pig lead), alloys of lead, solder containing lead, and manufactures or lead or its alloys, not otherwise prohibited;
(*a*) Thorium and its alloys;
(*a*) Zirconium and its alloys;

Provisions and victuals which may be used as food for man, the following:—
(*a*) Animals, living, for food:
(*a*) Arrowroot;
(*a*) Barley, barley meal, and pearled and pot barley;
(*a*) Bean flour and meal;
(*a*) Biscuits, bread and cakes;
(*a*) Butter;
(*a*) Cassava powder;
(*a*) Cheese;
(*a*) Cornflour;
(*a*) Corn grits;
(*a*) Eggs in shells.
(*a*) Fish;
(*a*) Hominy;
(*a*) Lentil flour and meal;
(*a*) Macaroni;
(*a*) Mandioca;
(*a*) Meat, namely bacon, ham and pork;
(*a*) Meat, not otherwise specifically prohibited;
(*a*) Milk, condensed or preserved·
(*a*) Milk powder;
(*a*) Oatmeal and rolled oats;
(*a*) Onions;
(*a*) Pea flour and meal;
(*a*) Peas (except tinned and bottled peas, and peas packed in cardboard boxes or similar receptacles);
(*a*) Prepared foods wholly or partially derived from cereals;
(*a*) Rice and rice flour;
(*a*) Rye, rye flour and meal;
(*a*) Sago and sago flour and meal;
(*a*) Semolina;
(*a*) Spaghetti;
(*a*) Tapioca and tapioca flour;
(*a*) Vegetables canned;

(*a*) Vegetables, fresh, not otherwise specifically prohibited;
(*a*) Vermicelli:
(*c*) Seeds, canary;
(*b*) Seeds, clover and grass;

(*b*) Seeds for root crops, the following:—

Carrot;
Kohl rabi;
Mangold;
Onion;
Swede;
Turnip;

(*c*) Spices and mixtures thereof (except pepper);
(*c*) Sponges, raw and prepared.
(*a*) Thermometers;
(*c*) Valves, gas, steam and water;
(*b*) Varnishes, oil;
(*a*) Wood pulp;
(*c*) Wood-screws, made of brass, iron or steel;
(*b*) Zirconium minerals.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

NOTIFICATION.

Calcutta, the 11th January 1917.

No. 75.—With reference to the following Notifications publishing rules to regulate the manufacture, possession, sale, transport and importation of

explosives, the following list of "Authorized Explosives" referred to in the rules mentioned against each Notification is published for general information :—

Rule 4 (*3*) of Notification No. 4013-33, dated the 6th June 1914, of the Government of India, Department of Commerce and Industry.

Rule 4 (*3*) of Notification No. 1183, dated the 11th November 1914, of the Chief Commissioner, Central Provinces, applicable to Berar.

Rule 4 (*3*) of Notification No. 14, dated the 23rd April 1915, of the Resident in Mysore applicable to the Civil and Military Stations of Bangalore and on the Railways in Mysore under British jurisdiction.

Rule 4 (*3*) of Notification No. 67-J., dated the 28th August 1914, } of the Resident at Hyderabad applicable to the Cantonments of Secunderabad, and Aurangabad, the Hyderabad Residency Bazars and the Railway lands in the Hyderabad State.

Rule 4 (*3*) of Notification No. 34-J., dated the 20th April 1915, }

Rule 3 (*3*) of Notification No. 99, dated the 19th July 1916, of the Government of Burma applicable to the Northern Shan States.

LIST OF AUTHORIZED EXPLOSIVES.

The following explosives are at present authorized for importation into British India, for general sale :—

CLASS 1.—GUNPOWDER.

The term "gunpowder" means gunpowder ordinarily so called.

Gunpowder.

CLASS 2.—NITRATE MIXTURE.

The term "nitrate mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

Every blasting explosive in this class, in which nitrate of ammonium, nitrate of sodium or chloride of sodium are used as ingredients, shall be contained in cartridge wrappers or cases (or in five-pound inner packages) made thoroughly waterproof with melted paraffin or other suitable waterproofing material.

Ammonal. "B."
Chilworth special powder.

CLASS 3.—NITRO-COMPOUND.

The term "nitro-compound" means any chemical compound possessed of explosive properties or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Every explosive in this class and every explosive ingredient thereof shall be so thoroughly purified and otherwise of such character as to satisfy a test known as the heat test, and specified in the rule for testing explosives published with Government of India, Department of Commerce and Industry, Notification No. 4013-33, dated the 6th June 1914, referred to above.

Every blasting explosive in this class, in which nitrate of ammonium, nitrate of sodium or chloride of sodium are used as ingredients, shall be contained in cartridge wrappers or cases (or in five-pound inner packages) made thoroughly waterproof with melted paraffin or other suitable waterproofing material.

DIVISION 1.

Division 1 comprises the following explosives and any chemical compound or mechanically mixed preparation which consists either wholly or partly of nitro-glycerine or of some other liquid nitro-compound :—

Ardeer Gelignite.
Ballistite.
Blasting Gelatine.
Cambrite.
Carbonite.
Celtite.
Chilworth Smokeless Powder, No. 2.
Cordite.
Cordite, M. D.
Dynamite.
Dynobel.
Farmer's Dynamite.
Gelatine Dynamite.
Gelignite.
Monobel, No. 1.
Phœnix Powder.
Rexite.
Samsonite.
Victor Powder or A. 1 Monobel.
Viking Powder No. 1. } or A. 2
Viking Powder No. 2. } Monobel.

Provided that every explosive in this division shall be of such character and consistency as not to be liable to liquefaction or exudation.

Provided also that an explosive which is required by definition to be issued in water-proof inner packages may be exempted from such requirement by special authority when and so long as the conditions of such authority are observed.

DIVISION 2.

Division 2 comprises the following explosives and any nitro-compound as before defined which is not comprised in Division 1 :—

Amberite, No. 2.
Chilworth Smokeless Powder.
Chilworth Smokeless Sporting Powder.
E. C. Sporting Powder.
Empire Powder.
Guncotton.
Ideal powder or Nobel's Special Powder.
Imperial Schultze Gunpowder
Negro Powder, No. 2.
Neonite.
Nobel's Special Powder or Ideal Powder.
N. S. Smokeless.
Picric Acid.
Picric Powder.
Primrose Smokeless.
Rendite.
Roburite.
Ruby Powder.
Schultze Cube Powder.
Schultze Gunpowder.
Smokeless Diamond.
Tonite or Cotton Powder.

CLASS 4.—CHLORATE MIXTURE.

The term "chlorate-mixture" means any explosive containing a chlorate.

The chlorate-mixture class has two divisions.

Every explosive in this class, and every explosive ingredient thereof, shall be so thoroughly purified and otherwise of such a character as to satisfy a test known as the heat test, and specified in the rule for testing explosives, published with Government of India, Department of Commerce and Industry, Notification No. 4013-33, dated the 6th June 1914, referred to above.

Every blasting explosive in this class, in which nitrate of ammonium, nitrate of sodium or chloride of sodium are used as ingredients, shall be contained in cartridge wrappers or cases (or in five-pound inner packages) made thoroughly waterproof with melted paraffin or other suitable waterproofing material.

DIVISION 1.

Division 1 comprises any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Nil

Provided that every explosive in this division shall be of such character and consistency as not to be liable to liquefaction or exudation.

DIVISION 2.

Division 2 comprises any chlorate mixture as hereinbefore defined, which is not comprised in Division 1.

Nil.

CLASS 5.—FULMINATE.

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation, or which from its extreme sensibility to explosion, and from its great instability (that is to say readiness to undergo decomposition from very slight exciting causes) is especially dangerous.

This class consists of two divisions.

DIVISION 1.

Division 1 comprises such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion caps; and any preparation consisting of a mixture of a chlorate with phosphorus or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphuret, with or without carbonaceous matter.

Nil.

DIVISION 2.

Division 2 comprises such substances as the chloride and iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

Nil.

CLASS 6.—AMMUNITION.

The term "ammunition" means any explosive of any of the foregoing classes when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared so as to form a cartridge or charge, for small-arms, cannon or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives or to form a percussion cap, detonator, fog-signal, shell, torpedo, war-rocket, or any other contrivance other than a firework.

The term "percussion cap" does not include a detonator.*

The term "detonator" means a capsule or case which is of such strength and construction and contains fulminate in such quantity that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The ammunition class has three divisions.

DIVISION 1.

Nobel's Safety Electric Time Fuze.	Safety Cartridges.
Percussion Caps.	Safety Fuses for Blasting.
Railway Fog Signals.	Safety Electric Fuzes.

* In consequence of the results of experiments carried out, it has been decided that a percussion cap can only be properly classed as such if it contains less than 0·6 grain of a composition of the 1st Division of the fifth (Fulminate) Class of which not more than 25 per cent. consists of fulminate of mercury, or less than 0·5 grain of any other explosive of the 1st Division of the 5th (Fulminate) Class; and it has been further decided that percussion caps shall not be classed as such when they contain anvils or have their composition unprotected by tin-foil or other suitable substance, as under those circumstances they are liable to explode *en masse*.

DIVISION 2.

Division 2 comprises any ammunition, as hereinbefore defined, which *does not* contain its own means of ignition, and is not included in Division 1.

Cartridges for Cannon, Shells, Mines, Blasting or other like purposes.
Cartridges for Small Arms which are not Safety Cartridges.
Cordeau Bickford.
Electric Fuzes.
Filled Shells not containing their own means of ignition and closed by a substantial metal plug.

Fuze lighters.
Fuzes for Shells.
Instantaneous Fuze.
Port Fires.
Tubes for firing Explosives.
Quick Match.
War Rockets.

Division 3 comprises any ammunition as hereinbefore defined which *contains* its own means of ignition, and is not included in Division 1.

Cartridges for Small Arms which are not Safety Cartridges.
Detonators.
Electric Detonators.
Friction Tubes.
Fuzes for Shells.
Nobel's Electric Detonator Time Fuze.
Primers.
Quick firing Ammunition.
Tubes for firing Explosives.

CLASS 7.—FIREWORK.

The term "firework" comprises firework composition and manufactured fireworks.

DIVISION 1.—FIREWORK COMPOSITION.

The terms "firework composition" means any chemical compound or mechanically mixed preparation of an explosive of inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any star and any coloured fire composition, subject to the proviso to the definition of manufactured fireworks.

Nil.

DIVISION 2.—MANUFACTURED FIREWORKS.

Manufactured fireworks, consisting of any explosive of the classes 1, 2, 3, 4, and 6 and any firework composition when such explosive or composition is enclosed in any case or contrivance or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects, or pyrotechnic signals, or sound signals.

Provided that a substantially constructed and hermetically closed metal case, containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework" and not a "firework composition."

Manufactured Fireworks.
Aluminium or Magnesium Torches.
Amorces.
Chinese Crackers.
Electric Sparklers.
Magnesium or Aluminium Torches.
Pyrotechnic Matches.
Rockets.
Signal lights.

The Stocks are investments authorised by the Trustee Act, 1893, and Trustees may invest therein notwithstanding that the price may at the time of investment exceed the redemption value of £100 per cent

The Governor and Company of the Bank of England are authorised to receive applications for the above loans which will take the form of stock or bonds to bearer at the option of subscribers. Stock may be inscribed as transferable in the stock transfer books or may be registered as transferable by deed.

Applications which may be for either loan must be for sums which are multiples of £50 and may be for either (1) "Fully paid Allotments" or (2) "Instalment Allotments".

They will be received at the Bank of England Loans Office, 5 and 6, Lombard Street, London, E.C., and may be forwarded either direct or through the medium of any banker or stockbroker in the United Kingdom.

British Government Treasury Bills will be accepted under discount at 5 per cent. per annum and War Expenditure Certificates will be accepted under discount at 5½ per cent. per annum, in both cases as from the 16th February 1917, in lieu of cash in payment for "Fully paid Allotments", provided that the entire proceeds of the Bills and Certificates are so applied.

If not previously redeemed the loans will be repaid at par as follows :—

£5 per cent. War Loan, 1929-1947, on the 1st June 1947.
£4 per cent. War Loan, 1929-1942, on the 15th October 1942.

But His Majesty's Government reserve to themselves the right to redeem the loans or either of them at par at any time on or after the undermentioned dates on giving three calendar months' notice in the *London Gazette*.

£5 per cent. War Loan, 1929-1947, at any time on or after the 1st June 1929.
£4 per cent. War Loan, 1929-1942, at any time on or after the 15th October 1929.

Both Capital and Interest will be a charge on the Consolidated Fund of the United Kingdom.

As soon as the necessary statutory authority has been obtained arrangements will be made for the acceptance by the Commissioners of Inland Revenue of Stock and Bonds of these loans at their respective issue prices, with due allowance for any unpaid interest accrued thereon, in satisfaction of amounts due on account of death duties, provided such stock and bonds have formed part of the estate of the deceased for a period of not less than six months immediately preceding the date of death.

For the purpose of providing against depreciation in the market prices of the loans the Treasury undertake to set aside monthly a sum equal to one-eighth of 1 per cent. of the amount of each loan to form a fund to be used for purchasing stock or bonds of either loan for cancellation whenever the market price falls below the issue price. Whenever the unexpended balance of such fund reaches £10,000,000 the monthly payments will for the time being be suspended but they will be resumed as soon as the unexpended balance falls below £10,000,000.

Dividends on Inscribed and Registered Stock of the £5 per cent. War Loan, 1929-1947, will be paid without deduction of income-tax, but the income derived from such dividends will be assessable to income-tax in the hands of the recipients at the rates of tax appropriate to their respective incomes.

Dividends on the £4 per cent. loan will be exempt from liability to assessment to British income-tax other than super-tax. For the purposes of super-tax and in computing total income for the purposes of exemption, abatement, reduced rate of income-tax on earned or unearned income, etc., the income derived from such dividends will be treated as if the amount received represented the net income after reduction of income-tax at the full normal rate. There will, however, be no title to repayment of income-tax in respect of such untaxed dividends.

Stock and Bonds of these loans and the dividends payable from time to time in respect thereon will be exempt from all British taxation present or future if it is shown in the manner directed by the Treasury that they are in the beneficial ownership of a person who is neither domiciled nor ordinarily resident in the United Kingdom of Great Britain and Ireland. Further the dividends payable from time to time in respect of stock and bonds of these

loans will be exempt from British income-tax present or future if it is shown in the manner directed by the Treasury that the stock or bonds are in the beneficial ownership of a person who is not ordinarily resident in the United Kingdom of Great Britain and Ireland without regard to the question of domicile. Where a bond belongs to a holder entitled to exemption under these provisions the relative coupons will be paid without deduction for income-tax or other taxes if accompanied by a declaration of ownership in such form as may be required by the Treasury.

The books of the loans will be kept at the Bank of England and at the Bank of Ireland. Dividends on stock will be paid by warrant which will be sent by post. Dividends on bonds will be paid by coupons.

Stock will be convertible into bonds to bearer at any time by means of transfer and bonds to bearer will be exchangeable for stock without payment of any fee.

Powers of attorney for the transfer of inscribed stock and deeds for the transfer of registered stock will be free of stamp duty.

"Fully paid allotments" will be issued in one or other of the following forms as applicants may direct :—

1. "Certificate of inscription" of stock transferable in the stock transfer books.
2. Register certificate of stock transferable by deed.
3. Bond certificate(s) exchangeable in due course for bond(s) to bearer.

Instalment allotments will be issued in the form of "Allotment letters" which may either be retained until they are fully paid or may be exchanged for scrip certificates to bearer.

The instalments payable in respect of "instalment allotments" may be paid in full on or after the 2nd March 1917 under discount at the rate of 4 per cent. per annum. Where payment in full is made between two instalment dates discount will be calculated as from the instalment date next succeeding the date of such full payment. In case of default in the payment of any instalment by its proper date the deposit and any instalments previously paid will be liable to forfeiture. Arrangements have been made whereby holders of allotment letters will be able to make further payments, without additional charge at offices of the principal banks throughout the United Kingdom.

Dividends due 15th April 1917 and 1st June 1917 in respect of allotment letters bond certificates, and scrip certificates will be paid by coupon.

Allotment letters and scrip certificates if paid in full may be exchanged for stock on or after the following dates, viz.,

£5 per cent. War Loan, 1929-47, on or after the 2nd May 1917.
£4 per cent. War Loan, 1929-42, on or after the 13th March 1917.

Or they may be retained to be exchanged for bonds to bearer as soon as these can be prepared.

Stock will be transferable in any sums which are multiples of a penny. Bonds to bearer will be issued in denominations of £50, £100, £200, £500, £1,000 and £5,000.

CONVERSION OF £4 10*s.* PER CENT. WAR LOAN, 1925—1945, £5 PER CENT. EXCHEQUER BONDS DUE 5TH OCTOBER 1919 AND 1921, £5 PER CENT. EXCHEQUER BONDS DUE 1ST DECEMBER 1920, £6 PER CENT. EXCHEQUER BONDS DUE 16TH FEBRUARY 1920.

Holders of the above issues in fulfilment of the options granted in the several prospectuses relating thereto may convert their holdings in whole or in part as on the 17th February 1917 and receive in lieu thereof £5 per cent. War Loan, 1929—1947, and (or) £4 per cent. War Loan, 1929—1942, at the rate of £105 5*s.* 3*d.* £5 per cent. War Loan, 1929—1947, for each £100 converted or £100 0-0 £4 per cent. War Loan, 1929—1942, for each £100 converted.

Holders desiring to convert must give notice in the prescribed form to the Bank of England not later than the 16th February 1917, but the actual conversion in the Bank's books will not be completed until Monday, the 2nd July 1917. Between the 17th February 1917 and the 30th June 1917 inclusive holdings to be converted will be unchanged as regards amount and description except that holdings which are to be converted into £5 per cent. War Loan, 1929—1947, will be designated "B" Stock and Bonds and those to be converted into £4 per cent. War Loan, 1929—1942, will be designated "C" Stock and Bonds.

The first dividends on holdings to be converted will be as follows :—

On the 1st June 1917, £4 10*s.* per cent. War Loan, 1925-1945 "B," £2 9*s.* 3*d.* per cent.

On the 1st June 1917, £5 per cent. Exchequer Bonds, 1919 and 1921 "B," £3 7*s.* 0*d.* per cent.

On the 1st June 1917, £5 per cent. Exchequer Bonds, 1920 "B," £2 11*s.* 4*d.* per cent.

On the 1st June 1917, £6 per cent. Exchequer Bonds, 1920 "B," £1 10*s.* 3*d.* per cent.

On the 15th April 1917, £4 10*s.* per cent. War Loan, 1925-1945 "C," £1 11*s.* 8*d.* per cent.

On the 15th April 1917, £5 per cent. Exchequer Bonds, 1919 and 1921 "C," £2 9*s.* 5*d.* per cent.

On the 15th April 1917, £5 per cent. Exchequer Bonds, 1920 "C," £1 13*s.* 9*d.* per cent.

On the 15th April 1917, £6 per cent. Exchequer Bonds, 1920 "C," £0 12*s.* 8*d.* per cent.

Note.—The above dividends represent interest accrued to the 16th February 1917 upon the old holdings to be converted together with interest from the 16th February 1917 upon the new holdings which will result from such conversion. In the case of £5 per cent. Exchequer Bonds, 1921, issued after the 5th October 1916 the dividends will be subject to a deduction in respect of the interval which elapsed between the 5th October 1916 and the issue of the Bonds.

Bearer bonds lodged for conversion will be exchanged for Bond Certificates for a corresponding holding of "B" or "C" Bonds to which will be attached a coupon for the first dividend payable thereon. These certificates will be exchangeable for holder of the new loans on and after the 2nd July 1917. Bonds lodged for conversion must be accompanied by all coupons due subsequent to the 16th February 1917.

N.B.—Applications for the conversion of stock inscribed or bonds registered in the books of the Bank of Ireland should be forwarded to the Bank of Ireland, Dublin.

Stock registered in the books of the General Post Office and bonds issued by the General Post Office will not be convertible at the Bank of England. They will be convertible at the Post Office under the arrangements set forth in the separate prospectus issued by His Majesty's Postmaster General.

Holdings of these issues do not carry any rights of conversion into any future issue that may be made by His Majesty's Government.

A commission of one-eighth per cent. will be allowed to bankers, stock-brokers and financial houses on allotments made in respect of cash applications for this issue bearing their stamp whether paid for in actual cash or by the discounting of Treasury Bills or War Expenditure Certificates, but no commission will be allowed in respect of applications for conversion.

Application forms for cash applications (*1*) for "Fully paid Allotments," (*2*) for "Instalment Allotments" may be obtained at the Bank of England and at the Bank of Ireland, at any bank or money order office in the United Kingdom or Messrs. Mullens Marshal and Company, 13 George Street, Mansion House, E.C., and of the principal stock brokers.

Application forms for conversion applications may be obtained—

1. For conversion of (*a*) holdings registered or inscribed in the books of the Bank of England, (*b*) bonds to bearer (at the Bank of England, London, E. C.).

2. For conversion of holdings registered or inscribed in the books of the Bank of Ireland (at the Bank of Ireland, Dublin).

Applicants for conversion application forms must state the description of holding which it is desired to convert.

The lists for both cash and conversion applications will be closed on Friday, the 16th February 1917.

No. 142M.—The 13th January 1917.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council makes the following rules subject to which the Commissioners of the Bankura Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises within the municipality for domestic purposes only :—

Bankura.

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 60, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply-pipe, and extensions from the communication-pipe of one holding to another holding shall not be permitted :

Provided that, with the consent of the Commissioners in meeting, connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding ;

Provided, also, that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass of gun-metal ferrule inserted in the main supply-pipe ;

(*b*) a galvanized iron communication-pipe from the ferrule to the meter ;

(*c*) a stop-cock and its surface-box ;

(*d*) a meter;

(*e*) service-pipes from the stock-cock to the taps; and

(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 75 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding	Size of ferrule.	Diameter of communication-pipe.	Number of taps.
Rs.	Rs.	Inch.	Inch.
Under 200	¼	½	1
From 200 to 399	¼	½	2
„ 400 „ 599	⅜	⅝	3
„ 600 „ 899	⅜	⅝	4
„ 900 „ 1,199	½	¾	5
„ 1,200 „ 1,499	¾	⅞	6
„ 1,500 „ 1,999	¾	1	7
„ 2,000 and over—an extra tap for every additional Rs. 1,000.			

11. (*1*) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*a*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*b*) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

15. (*1*) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(*a*) one hundred and sixty gallons of water per quarter for each rupee valuation per quarter, and

(*b*) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

paid by him quarterly as water-rate in respect of such holding.

(*2*) For all water in excess of the amount allowed under sub-rule (*1*) such owner or occupier shall be charged quarterly as follows:—

Annas 10 per 1,000 gallons.

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which the water is supplied from such works, or may turn off such supply, in any of the following cases, viz :—

(*a*) if the holding is unoccupied;

(*b*) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection;

(*c*) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully or negligently injures or damages it;

(*d*) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood;

(*e*) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same;

(*f*) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorized by these rules;

(*g*) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair:

Provided that disconnection or turning off of the water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (*d*) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17 Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screwdown" or "Self-closing." Every tap shall be at least three feet above the surface of the ground beneath.

18. No cistern, tank, or reservoir of any description, which is intended to be supplied with water from the municipal water-works, shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank, or reservoir allowed. The inlet to every such cistern, tank, or reservoir must be controlled by an efficient ball-cock, so that the discharge thereinto is completely stopped when the cistern, tank, or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of the taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Two State Sanskrit Scholarships of £200 or £250 per annum for Indians, 1917.

THE scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of western scholarship in Sanskrit of the value of £250 a year when they are tenable at colleges in Oxford or Cambridge or of £200 when they are tenable elsewhere.

The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

The scholarships are open to well-qualified students with a genuine taste for Sanskrit studies and to those already employed as Professors of Sanskrit.

Intending candidates who are native of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1917, with a medical certificate of fitness to undergo a course of study abroad.

Selected scholars are required to lodge with the Secretary for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second class passage to England and also with a second class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

For further particulars pages 1143 to 1155 of the *Calcutta Gazette* dated the 21st June 1916 may be consulted.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

The decrease during the week in Coaching is mainly in local and foreign passengers.
The decrease during the week in Goods is mainly in rice, potatoes and tea.
The earnings up to December 1916 show a decrease of Rs. 2 500 due to the rice traffic having not yet developed. It is expected that this traffic will commence during January 1917, so it is expected that the estimated traffic earnings of Rs 5,60,000 for this half-year will be reached.
The up-to-date increase in Coaching is mainly in foreign passengers and troops traffic
The up-to-date decrease in Goods is mainly in rice, building materials (iron and cement) and tea traffic.

No. 10Marine.—The 23rd January 1917.—In exercise of the power conferred by section 10 of the Indian Merchant Shipping Act, 1859 (I of 1859), the Governor in Council, with the previous sanction of the Governor-General in Council, is pleased to make the following amendments in the rules for the conduct of examinations for Masters and Mates of Foreign-going and Home-trade ships and as to the qualifications to be required, published under the Notification of this Government No. 113Marine, dated the 14th November 1910, as amended by subsequent notifications :—

F. A. A. COWLEY,
Secretary to the Govt. of Bengal.

Amendments.

I.—*The following changes take effect from the 1st January 1917* :—

1. Signalling (paragraphs 31 (*m*) 58, 64, Appendix E).—Candidates for the Extra Master's certificate and for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in

Semaphore and ten words a minute in Morse flashing; the minimum speed for Morse flag waving remaining at six words a minute.

Candidates for other certificates will only be required to attain a minimum speed of eight words a minute in Semaphore and five words a minute in Morse flashing and flag waving.

2. Chart Work (paragraphs 31 (*l*) 58, Appendix H).—Candidates for certificates of any grade will be required to work satisfactorily all the chart problems indicated in Appendix H.

3. Definitions (paragraphs 31 (*b*), 152, Appendix D).—The separate paper on definitions (Appendix D) will be discontinued; and, instead, candidates will be required to give a figure and explanation for each problem worked.

4. Law of Storms (paragraph 35 (*m*), Appendix I).—The paper on the Law of Storms in the examination for Certificates as First Mate or Master will be replaced by a paper on Meteorology.

II.—*The following changes will take effect on 1st January 1918.*—

5. Navigation (paragraphs 31, 35, 38, 58, 61, 64, 148, 149, 150).—The whole of the examination in Navigation will be brought under the marks system. A specified time will be allotted for each paper (*see* paragraph 12), and papers will not be returned to candidates for correction. Candidates will be required to obtain 85 per cent. of the total marks in order to pass.

6. Second Mate (paragraph 31).—Candidates for certificates as Second Mate will be required to answer questions on plane trigonometry and elementary *viva voce* questions on the main parts of a ship's construction; and, in place of the present dictation paper, to write a short essay on some simple subject.

7. First Mate (paragraph 35).—Candidates for certificates as First or Only Mate will be required, in addition to the work for the Second Mate's certificate, to answer questions on right-angled spherical trigonometry and more advanced questions on the main parts of a ship's construction and their general use.

8. Master (paragraph 38, Appendix J).—Candidates for certificates as Master (Foreign-going) will be required, in addition to the work for the First Mate's certificate, to answer questions on ship construction and naval architecture and a few elementary questions on stability (for standard textbook see Appendix R), and to write a short essay on some suitable subject. The questions on the deviation of the compass (Appendix J) will be remodelled.

9. Extra Master (paragraph 64, Appendix K).—Candidates for certificates as Extra Master will be required, in addition to the work for the Master's certificate, to answer more advanced questions on naval architecture including ship construction and stability; questions on magnetism as relating to the compass; and a paper on general knowledge, including shipping business, imports and exports, astronomy and general elementary science (except chemistry).

10. Home Trade Mate (paragraph 58, Appendix H).—The examination will include all the chart work and the use and adjustments of the sextant.

11. Home Trade Master (paragraph 61).—Candidates will be required to find compass corrections by Amplitude and Time Azimuth of the Sun.

12. Time allowed (paragraphs 166 to 179).—The time allowed for the written and worked portions of the examinations for Foreign-Going and Home-Trade certificates will be arranged as follows:—

A regular luncheon interval will be given each day between 1 P.M. and 2 P.M., the *viva voce* and practical parts of the examinations being taken at such time as may be convenient.

Second Mate.—Paper on Navigation and Nautical Astronomy, three hours; Nautical Astronomy and Trigonometry, two hours; Chart work, three hours; Essay one hour.

First or Only Mate.—Paper on Navigation and Nautical Astronomy, three hours; Nautical Astronomy and Trigonometry, two hours; Chart work, three hours; Sumner problem and Meteorology paper, two hours.

No. 12892-S.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

RESOLUTION.

Delhi, the 28th December, 1916.

WITH reference to paragraph 2 of the Resolution in this Department No. 7333-W.I., dated the 17th August 1916, the following Report of the Wheat Commissioner for India on the operations of the Wheat Scheme for the period October 1915 to April 1916, is published (with the omission of paragraphs 6 and 7) in the *Supplement to the Gazette of India* for general information.

ORDERED that a copy of the Resolution, with a copy of the Report as published, be forwarded to the Governments of Bombay, Bengal, Bihar and Orissa, the Punjab and the United Provinces, to the Hon'ble the Chief Commissioner of the Central Provinces, the Hon'ble the Chief Commissioner and Agent to the Governor General, North-West Frontier Province, the Chief Commissioner of Delhi, the Department of Revenue and Agriculture, the Finance and the Foreign and Political Departments, the Director General of Commercial Intelligence, the Director of Statistics and the Wheat Commissioner for India.

H. F. HOWARD,
Secretary to the Government of India

O. R. No. 5249, dated Madras, the 29th July 1916.

From—A. C. MCWATTERS, ESQ., I.C.S., Wheat Commissioner for India,

To—The Secretary to the Government of India, Department of Commerce and Industry, Simla.

WITH reference to the Report, dated the 27th January 1916, by Mr. M. M. S. Gubbay, C.I.E., I.C.S., reviewing the operations conducted under his control as Wheat Commissioner until the middle of October 1915, I have the honour to forward a report on the subsequent operations up to the 30th April 1916.

2. During this period operations were continued at Karachi only. As early as August 1915, the Government maximum price of Rs. 4-10-9 *f.o.b.* proved insufficient to attract purchasers. The Bombay and Calcutta establishments were then definitely closed, but Karachi firms retained allotments of 10,000 tons and were instructed to purchase any wheat offering at the Government price. This offer was maintained until March 1916, but the allotments of Karachi firms were reduced in December 1915 to 2,500 tons, this being considered the minimum compatible with their retaining touch with the market. This reduction was made because any purchases effected at the Government maximum price of Rs. 4-10-9 would have resulted in loss to Government mainly on account of the steady rise in the cost of freight from India to the United Kingdom.

3. The first purchases under this arrangement were made in January 1916 by Ralli Brothers, but the quantity was insignificant. At the end of February several firms made small purchases, and in March prices in the Punjab and Sind fell to a level which rendered purchases at the Government maximum price possible on a larger scale. During March the Karachi firms completed their allotments of 2,500 tons without difficulty.

In the meantime, however, freight prices from Karachi to the United Kingdom had risen to a very high figure, and although Home prices of wheat had also advanced, the purchases made seemed likely to involve an appreciable loss. The following comparative statement shows the movements of Indian prices. Home prices and freights:—

Week ending—	Indian prices at Lyallpur *f.o b.* Karachi.	Approximate Home prices No. 1 N. Manitoba per 480 lbs. *c. i.f.* arrived.	Freights* approximate quotation for charters Karachi to United Kingdom.

4. I was fortunate, however, in obtaining 2,500 tons freight per SS. "Wartenfels" for 80*s.* early April shipment, which was well below the prevailing market price. This engagement was made when freights were falling rapidly at the end of March. The fall, as it happened, did not continue and prices remained well above 100*s.* during the second half of April. The actual quantity of wheat shipped, including gain in weight and some small

purchases in excess of allotments, was 2,595 tons, this quantity being divided between the different firms as follows :—

The exact price obtained in England for this shipment has not been reported to me, but the prevailing price of the day was about 60*s*. 6*d*. per quarter.

5. After the firms' allotments of 2,500 tons had been exhausted, no further allotments were given and the Government offer to purchase at Rs. 4-10-9 *f.o.b.* was therefore withdrawn. The new crop was beginning to come in in the United Provinces and wheat could have been bought well below that figure. Retail prices on the 15th April in 1915 and 1916 compared as follows :—

	Seers per rupee.	
	15th April 1915.	15th April 1916.
Lahore	8	11¼
Delhi	7½ to 7¾	9½ to 10
Meerut	8½	10½
Cawnpore	8½	9¼
Jubbulpore	8½	10¾

By the 1st May 1916 prices had further declined to—Lahore 11¼, Delhi 10 to 10¾, Meerut 11, Cawnpore 10½, Jubbulpore 11¼ seers per rupee. The policy to be adopted for the new season was considered at a Conference held in Simla on the 18th April, and in view of the almost normal level of Indian prices and the diminished requirements of the Home Government, it was decided to recommend the discontinuance of the scheme of Government purchase and the re-opening of private export with limited allotments to shippers. This modified scheme was introduced from the 1st May 1916, a total of 400,000 tons being agreed upon as the allotment for all ports for the first quarter May to July 1916.

9. The audit of the accounts to the close of operations on 30th April 1916, was completed by the middle of June. The net expenditure in India, excluding the cost of the Wheat Commissioner's office which is not definitely ascertainable at the time of writing, was ... .,	6,98,63,283	11	5
(Net payments to firms	6,99,16,530	9	10
Less receipts in India	53.246	14	5
	6,98,63,283	11	5)
This expenditure is detailed as follows in the audited Balance Sheet :—			
Rupee drawings from Treasuries in India ...	4.94,45,480	13	0
Less refunds	61,45,542	5	7
	4,32,99,938	7	5
Payments by Secretary of State	2,65,65,129	0	0
	6,98,65,067	7	5
Less money credited by Government Telegraph Department by book credit for refund of telegraph charges	1.783	12	0
	6,98,63,283	11	5

If rupees one lakh be added as the approximate cost of the Wheat Commissioner's office, of which the exact figures will be ascertainable from the Comptroller, India Treasuries' books, the net expenditure may be taken as—Rs. 6,99,63,283-11-5, or £4,664,218-18-3.

With regard to the receipts in England, I have no information later than that given in paragraph 77 of Mr. Gubbay's report. To the figures there given, however, must be added the proceeds of the shipment of 2,595 tons in April which, after allowing for freight at 80*s*. per shipping ton payable in England, may be estimated at about £23,000.

The net receipts may then be estimated at £1,789,367 and the approximate profits of the whole operations to Government at £125,148.

10. I attach to this report the audited statements of accounts prepared by Mr. F. A. Rebello, Deputy Accountant-General, Bombay, and would be obliged if a copy could be supplied to me for record when the statements are printed.

11. The export of wheat flour continued throughout the year under a system of limited allotments to the different ports. Owing, however, to freight difficulties in the early months of 1916, the total export fell considerably below the amount sanctioned for the year from 1st April 1915, viz., 83,870 tons. The actual exports of wheat flour between 1st April 1915 and 31st March 1916, were only 58,608 tons, of which the largest amounts went to the following countries :—

	Tons.
Egypt	16,981
Ceylon	8,339
Mauritius	7,793
Aden and dependencies	5,948
Straits Settlements	5,279

12. The export of 4,000 tons of wheat to Italy was sanctioned in December 1915 and allotments for purchase were given to the four principal exporting firms at Bombay—Messrs. Ralli Brothers, Louis Dreyfus & Co., Boggiano & Co. and Kilachand Devchand & Co., arrangements for shipment being made by Messrs. Boggiano & Co. acting for the Italian Government. Owing, however, to difficulties in connection with freight and unfavourable prices in Italy, 1,000 tons only of the sanctioned amount were shipped.

13. In forwarding this report I wish to take the opportunity of expressing my appreciation of the excellent work done by Mr. A. C. DeSouza, whose services were lent to me by the Accountant-General, Bombay, and who acted as Head Accountant in this office from the commencement to the close of operations.

No, T. M.-624, dated Bombay, the 20th July 1916.

From—H. M. C. TROTTER, ESQ., Officiating Accountant-General, Bombay,
To—The Comptroller General, Delhi.

WITH reference to your letter No. Ac.-870-295-15, dated 10th May 1916, and No. Ac.-1099-295-15, dated 5th June 1916, I have the honour to forward herewith a copy of Mr. Rebello's report on the audit of the accounts of the Wheat Commissioner together with 2 copies of each of the statements prepared in accordance with your instructions.

No. T. M.-625, dated Bombay, the 21st July 1916.

Endorsed by the Officiating Accountant-General, Bombay.

COPY, together with a copy of the statements, forwarded to the Wheat Commissioner, Madras.

Report on the audit of the accounts of the Wheat Commissioner, from November 1915 to the end of June 1916.

In accordance with the Comptroller General's letter No. Ac.-1099-295-15, the accounts of the Wheat Commissioner from November 1915 to June 1916 were audited at Karachi from the 21st to 29th June 1916, the accounts of the period prior to November having been already audited and reported on.

2. All the books, accounts and vouchers were available at Karachi, those from Bombay and Calcutta having been sent there. The procedure adopted was similar to that observed on the previous occasion, the available records in the Wheat Commissioner's office were examined first, and visits were paid to all the offices of all the six Companies doing business at Karachi. As the majority of the firms who did business at Bombay and Calcutta had their representatives at Karachi, and the extracts from the accounts and vouchers relating to their firms' transactions were available there, a local audit at Bombay and Calcutta was not considered necessary. The percentage of vouchers for wheat purchases in April 1916 examined was larger than on the previous occasion. All the vouchers for other charges except establishment, *e.g.*, wharfage, godown rent, etc., were checked and compared, except such as were kept finally at up-country branches according to the usual custom of the Company, with the original accounts, and no discrepancies were discovered. The establishment charges were specially sanctioned by the Government of India in each case on special reports of the Wheat Commissioner and were calculated on various considerations in addition to, and sometimes irrespective of, the actual payments of the period during which the Companies were employed as Agents for Government. These were therefore not audited in detail but the figures were compared with the amounts sanctioned by the Government of India. I understand that the Government of India have not finally admitted the full amount claimed by and paid to Messrs. Strauss and Company. This amount has therefore been provisionally admitted.

3. The audited accounts have been compiled into the accompanying 12 statements.

Nos. 1, 2 and 3 show the transactions of each firm at Karachi for 1915-16, 1916-17 and for the entire period as classified in the Wheat Commissioner's books.

Nos. 4, 5 and 6 show similar details of transactions at Bombay and Nos. 7, 8 and 9 show like details of the transactions at Calcutta.

Statement No. 10 shows the transactions at each port, and the total for 1915-16 and No. 11, those for 1916-17, and also shows the whole transactions for the entire period.

Statement No. 12 shows the net transactions according to the accounts of the Wheat Commissioner, and includes the cost of the Wheat Commissioner and his office, as reported by the Comptroller, India Treasuries, in whose account it is finally recorded. An Explanatory Memorandum in respect to certain items in this balance sheet has been added, as the items are there classified as directed by the India Office.

F. A. C. REBELLO,
Deputy Accountant-General.

Explanatory Notes in regard to Statement No. 12.

A. The item of Rs. 52,670-12-10 on account of *Freight* is made up of—

Statement No. 11.

B. The item of Rs. 576-1-7 on account of *Miscellaneous* is made up of—

	Rs.	A.	P.
Gain in exchange	12	8	0
Quick despatch money	563	9	7
Total as per statement No. 11 ...	576	1	7

C. The items marked (*a*), (*b*), (*c*), and (*d*) on the receipt side of statement No. 11 cancel the corresponding items on the payment side.

D. Received by firms from the Secretary of State Rs. 2,65,65,129.

This differs from the amount actually originally credited in the accounts by Rs. 37,319-13-2. The latter sum represents the excess debited by the Secretary of State as advised by the Comptroller, India Treasuries, in his letter No. T. M.-1172, dated 18th February 1916, and has been adjusted by debit to the head "Loss by Exchange" on remittances to the Secretary of State.

E. Wharfage and shipping—Rs. 3,75,786-13-11 made up of items marked (*e*) in statement No. 11, viz :—

G. Miscellaneous—Made up of items marked (*f*) in statement No. 11, viz :—

	Rs.
Gratuities	5,595
Loading charges	6,400
Total ...	11,995

H. Compensation for loss in exchange—Rs. 32,317-15-1. This represents payment in India on account of charges actually incurred by Agent firms owing to their having made arrangements for financing wheat and differs from Item marked I—Loss by exchange in remittances to the Secretary of State. which represents the excess paid by the Secretary of State over the official rate of exchange on payment orders issued by the Wheat Commissioner on the India Office.

No. 739-G.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION

FOR PROHIBITING THE IMPORTATION OF COCAINE AND OPIUM INTO THE UNITED KINGDOM.

GEORGE R. I.

WHEREAS by section forty-three of the Customs Consolidation Act, 1876, it is provided that the importation of arms, ammunition, gunpowder or any other goods may be prohibited by Proclamation :

And whereas it is expedient that the importation into the United Kingdom of cocaine or of opium should be prohibited except as hereinafter provided :

Now, THEREFORE, We, by and with the advice of Our Privy Council in pursuance of the said Act and of all other powers enabling Us in that behalf, do hereby proclaim, direct and ordain as follows:—

As from and after this date, subject as hereinafter provided, all cocaine and all opium shall be prohibited to be imported into the United Kingdom:

Provided always, and it is hereby declared, that nothing in this Proclamation shall apply to cocaine or opium imported under the licence of one of Our Principal Secretaries of State and in accordance with the provisions of such licence.

The word "cocaine" includes all preparations, salts, derivatives, or admixtures prepared therefrom or therewith and containing 0·1 per cent. (one part in a thousand) or more of the drug, or any solid or liquid extract of the coca leaf containing 0·1 per cent. or more of the drug.

The word "opium" means raw opium, powdered or granulated opium, or opium prepared for smoking, and includes any solid or semi-solid mixture containing opium.

The Cocaine and Opium (Prohibition of Import) Proclamation, 1916, is hereby revoked.

This Proclamation may be cited as The Cocaine and Opium (Prohibition of Import) No. 2 Proclamation, 1916.

Given at Our Court at Buckingham Palace, this Eleventh day of December, in the year of our Lord One thousand nine hundred and sixteen, and in the Seventh year of Our Reign.

GOD SAVE THE KING.

H. F. HOWARD,
Secy. to the Govt. of India.

NOTIFICATION.

No. 408Emi.—The 17th January 1917.—The following resolution issued by the Government of India in the Department of Commerce and Industry is republished for general information.

J. DONALD,
Secy. to the Govt. of Bengal.

No. 64E.D., dated Delhi, the 12th January 1917.

RESOLUTION—By the Govt. of India, Dept. of Commerce and Industry.

THE arrangements made to facilitate the entry into the Union of South Africa of the wives and minor children of Indians residing in that country were described in the Government of India's Resolution No. 8759—8774-24 of the 3rd September 1914. In the procedure there laid down no provision was made for the case of Indians who had left the Union on a visit to India before the date of the above resolution and who were therefore unable to procure the required certificate from the Immigration officers or Magistrates in the Union.

Provision has now been made for such cases in consultation with the Government of the Union of South Africa, and the requisite procedure is described below.

2. The husband or father on a visit to this country, who desires to obtain a certificate of relationship to facilitate the admission into the Union of South Africa of his wife or children under the age of sixteen years, should appear personally before the principal local Magistrate in India, viz., the Chief Presidency Magistrate in a Presidency town, the Political Officer in a Native State, or the District Magistrate elsewhere. The principal

local Magistrate in India will institute an enquiry, either personally or through an officer not below the rank of a Deputy Tahsildar, a Sub-Deputy Collector or a Mamlatdar, according to the province concerned, and if the senior Magistrate is satisfied as to the alleged relationship, he will grant a certificate of relationship in the form prescribed in the resolution above referred to in favour of the person (or persons) referred to in it. The certificate should be presented to the Immigration Officer at the port of entry.

3. The certificate will contain the identification marks of the husband or father, as well as of the wife and child, as the case may be, and will be limited in the case of children to those under the age of 16 years at the date of their arrival in the Union. In this connection it is of importance that not only the age of minor children should be certified but also the month of birth.

4. A written notice will be given to the applicant that the certificate is only a provisional one and does not in itself give either the applicant himself or the relation any claim to enter South Africa.

5. The Magistrate granting the certificate will inform the Principal Immigration Officer concerned of its issue. In the case of persons desiring to disembark at Lourenco Marques, the intimation should be addressed to the Principal Immigration Officer, Pretoria. When disembarkation will take place at Durban or Cape Town, the Principal Immigration Officer at the port indicated should be addressed.

ORDERED that the foregoing resolution be forwarded to all Local Governments and Administrations for information and guidance, and to the Foreign and Political Department for communication to the Agents to the Governor-General and Political Officers in Native States.

Ordered also that the resolution be published in the *Supplement to the Gazette of India*.

RESOLUTION—By the Govt. of India, Dept. of Commerce and Industry

WITH reference to the resolution of the Government of India, No. 2846-79, dated the 8th May 1916, intimation has been received that the prohibition issued by the Government of Canada against the landing of artisans and skilled or unskilled labourers at ports of entry in British Columbia has been further extended to 31st March 1917.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to Canada is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risks they run in proceeding to that country.

ORDERED that a copy of the above resolution be forwarded, for information and guidance, to all Local Governments and Administrations and for information to the Home and the Foreign and Political Departments.

Ordered also that a copy be published in the *Gazette of India* for general information.

The following Resolution, issued by the Government of India in the Department of Commerce and Industry and published in the *Gazette of India Extraordinary* dated the 20th January 1917, is republished for general information.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1916.

I. *Character of the season.*—During the month under review no rain fell in the province except some slight showers in the districts of the 24-Parganas, Jalpaiguri, Darjeeling, Chittagong and the Chittagong Hill Tracts. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—The harvesting of winter rice and sugarcane continued throughout the province. Sowings of spring crops have been nearly completed.

III. *Condition of standing crops.*—The condition of the standing winter rice and spring crops was reported to be generally satisfactory.

IV. *Prospects and probable outturn.*—The prospects of the spring crops were generally promising. The outturn of winter rice was expected to be about normal and that of sugarcane about 80 per cent. of the normal.

V. *Damage to standing crops.*—No damage to standing crops was reported during the month.

VI. *Condition of agricultural stocks.*—Agricultural stocks were reported to be in fairly good condition. Cattle-disease was reported from parts of the 24-Parganas, Nadia, Burdwan, Malda, Cooch Behar, Dinajpur, Tippera and the Chittagong Hill Tracts.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Dacca and Tippera only.

VIII. *Price of food-grains.*—During the second fortnight of the month under review the price of common rice rose in 5 districts, fell in 10 and remained stationary in the rest. It varied from 7¼ seers per rupee at Rangpur to 12 seers per rupee at Birbhum.

IX. *Condition of the agricultural population.*—The condition of the agricultural population throughout the province was reported to be generally satisfactory.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April to October 1916 by all routes, *i.e.*, by rail, river, canal, road and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

* Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

General Summary.

Imports.—The imports of rice including paddy into Calcutta by rail, river, canal, road and sea (coastwise) during April to October 1916, amounted to 9,593,971 maunds as against 14,689.039 maunds in the corresponding period of the preceding year—a decline of 35 per cent. There was a slight decrease in the imports of coal and coke (63,627,643 maunds as against 64,828,411 maunds last year). The arrivals of Indian cotton piece-goods showed a considerable improvement, the total value amounted to Rs. 2,42,36,738 as against Rs. 1,01,83,936 in 1915. The quantity of indigo imported during the seven months ending October 1916, rose by 143 per cent. (4,151 maunds as against 1,706 maunds last year) owing to larger supplies having been received from United Provinces, Bihar and Orissa and Madras. Imports of raw jute amounted to 3,037,672 bales as against 3,639,752 bales last year—a fall of 16 per cent., while the importations of gunny-bags showed a large increase, 253 million bags against 188 millions in the preceding year. The total imports of oilseeds (linseed and rape and mustard seed) rose by 31 per cent. (5,413,985 maunds against 3,916,672 maunds), and those of sugar by 15 per cent. (384,170 maunds against 333,543 maunds). There was a decrease in the imports of tea (2,076,195 maunds as against 2,153,914 maunds).

Exports.—The despatches of cotton piece-goods, Foreign, from Calcutta by all routes during April to October 1916 increased by 8 per cent. (Rs. 12,53,60,838 as against Rs. 11,60,33,137 last year). The exports of gunny-bags including the exports by sea to foreign countries, increased from 779 million bags to 826 million bags. Shipments of gunny-bags to foreign countries other than the United Kingdom increased by about 4 million bags in the period under review, and those to the United Kingdom by 35 million bags. The quantity of kerosine oil despatched from Calcutta and Budge Budge by internal routes and by sea (coastwise) increased from 4,138,648 maunds to 4,241,479 maunds.
